

THE COLLINS ARINCDIRECTSM ADVANTAGE

INTEGRATED FLIGHT SOLUTIONS FOR BOMBARDIER AIRCRAFT

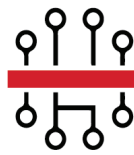

Our Bombardier customers can expect the highest level of support from our expert teams – and the performance from our trusted ARINC Direct solutions. We provide crew, dispatch and operations teams with the tools they need to keep fleets in motion – from the moment a flight is requested to the moment it lands, and everything in between.

POWERED BY PROXIMITY

Structured to offer the highest level of support

- Co-located at Bombardier facility to manage 24/7 support.
- Maximize flawless Entry Into Service (EIS).
- Global footprint of dedicated Aircraft-On-Ground (AOG) Support.

GROUND-UP DATA SECURITY

Connected aircraft protection

- Confidence for maintenance and operational personnel to comply with industry standards.
- Backed by 100+ years of experience.
- Worldwide secure communications and data management solutions.

SEAMLESS JOURNEY

Optimized processes and tools to maximize customer experience and operational efficiency

- Tailored solutions to fit operators' profiles.
- Purpose-built hardware with integrated digital tools.
- Continued investment with ongoing over-the-air software updates.

OPTIMIZED VALUE

Turning intelligent insights into value

- Advanced data to create predictive analytics.
- Real-time flight performance and discrepancy tracking.
- Increase operational longevity of aircraft.
