## Lav/Galley water heater replacement kit

**Eliminate hazards with the water heater replacement kit for Bombardier** – Rockwell Collins’ heater kit is an economical alternative to a full tank and heater replacement that minimizes component and labor costs. This kit remedies the potential overheating associated with the KC Aviation water heater, P/N 444-0007, found and installed on many business jet applications over a 20-year timespan. This kit includes a new heating element that integrates over-temperature safety features, and a heater tank insulation cover to replace damaged coverings.

### SPECIFICATIONS

Applicability	Manpower	Kit contents	Weight	Certification	Delivery
Bombardier CL600-1A11/-2A12/-2B16	Equivalent to 6 month required inspection	<ul style="list-style-type: none"> <li>&gt; Heating element</li> <li>&gt; Insulation covering</li> </ul>	Equivalent	<ul style="list-style-type: none"> <li>&gt; Transport Canada SA10-9</li> <li>&gt; EASA 10029833</li> <li>&gt; FAA ST02786NY</li> </ul>	F.O.B. Winnipeg, Canada

### FEATURES & BENEFITS

- > Replaces heating and insulating components of KC Aviation P/N 444-0007
- > Eliminate potential overheating and scalding hazards
- > Provide relief of Service Bulletin inspection
- > No need to replace existing tank
- > Uses existing electrical connections with no electrical modifications needed

### Building trust every day.

Rockwell Collins delivers innovative aviation and high-integrity solutions that transform commercial and government customers’ futures worldwide. Backed by a global network of service and support, we are deeply committed to putting our solutions to work for you, whenever and wherever you need us. In this way, working together, we build trust. Every day.
