STC Information Sheet

FAA STC: ST03227AT

Master Drawing List: 2-34787-001

Aircraft: Boeing 737-300/-400/-500 Series

Configuration: 1

Free Flight 2101 Approach Plus GPS Installation

Mod. Order: 2-34787-802

AFMS: 2-34787-903

Master Kit List: 2-34787-801

ICA: 2-34787-906

Summary:

The Free Flight 2101 Approach Plus Global Positioning System (GPS) consists of a Free Flight 2101 Approach Plus Receiver Display Unit (RDU) installed on the P9 forward pedestal and a GPS antenna installed on the upper fuselage.

The GPS antenna and structural provisions are not covered by this STC.

The Free Flight 2101 Approach Plus GPS, as installed, is a stand-alone GPS with no interface to aircraft displays or autopilot system.

Notes:

This STC requires concurrent embodiment of EMTEQ STC ST02723AT (Dual GPS Antenna Structural Provisions).
