Summary:

The IMS Flight Deck Resources SkyTab 3201 Electronic Flight Bag (EFB) System consists of EFB arms mounted to each crewmember's sidewall panels, and a Satellite Weather Receiver installed in the 84VU Electronics Shelf and the associated antenna on the upper fuselage.

Notes:

* The IMS Flight Deck Resources SkyTab 3201 EFB is installed as a Class 2 EFB. Separate operational/installation approval of the EFBs is required.

** The Satellite Weather Receiver installation is optional.
