P&WCSMART FOR TURBOSHAFT ENGINES

Enhance your turboshaft flying experience with outstanding performance, reliability and competitive operating economics thanks to P&WCSMART Maintenance Solutions.

P&WCSMART solutions deliver the best value in the industry through an increased mix of new P&WC parts at a guaranteed competitive price.

Included:

- No extra charges for:
 - typical corrosion or sulphidation
 - foreign object damage (FOD) provided it did not cause an unscheduled removal
 - the replacement of non-genuine P&WC parts
 - Category 1 – 6 Service Bulletins upgrading your engine to the latest configurations
 - Overhaul shop standard warranty
-

**We don't just power your helicopters –
we help you grow your business and protect
your investments.**
