P&WCSMART™ SUBSCRIPTION SERVICE FOR PT6A ENGINES

P&WCSMART™ Subscription Service for PT6A engines is a cost-effective annual subscription package for select engines that provides coverage for unscheduled engine and accessory removal, scheduled line maintenance parts, mobile repair team troubleshooting, digital engine health services and more.

With options tailored to flying hours and preferences on the length of the subscription term, P&WCSMART™ Subscription Service is a small investment for maximum peace of mind. Price is locked in for the entire length of the term.

NEW BUNDLED MAINTENANCE AND SERVICES SOLUTION FOR YOUR ENGINE

Make your PT6A engine maintenance more predictable and worry-free while protecting your asset value after its first hot section inspection. Through the P&WCSMART™ Subscription Service for PT6A Engines, you are covered for unscheduled engine removal – which can cost up to US\$100,000 or more – along with unscheduled accessory removal and Maintenance Repair Team (MRT) support during an Aircraft on Ground (AOG) event. These services, combined with parts replaced during scheduled line maintenance and digital engine health management, such as our advanced oil analysis technology, help maximize aircraft availability supporting your operations and your bottom line.

If no event occurs, you will also receive a 25% credit based on the subscription price toward a future P&WCSMART™ Overhaul for your PT6A engine.

UNSCHEДУED MAINTENANCE COVERAGE

- Unscheduled engine removal¹
- Unscheduled accessory removal¹
- Troubleshooting labor
- P&WC MRT support for AOG response

SCHEDULED LINE MAINTENANCE COVERAGE

- Parts replaced during scheduled line maintenance (includes new P&WC genuine parts, even when the parts replaced are non-genuine)

DIGITAL ENGINE HEALTH MANAGEMENT – GET GREATER INSIGHT INTO YOUR ENGINE

- P&WC's advanced oil analysis technology
- Engine health monitoring and reporting

¹ Events capped at US\$100,000. For events that exceed this amount, customers will have the option to pay the difference or convert to a P&WCSMART™ Overhaul and receive a US\$100,000 credit.

OPTIONS & PRICING

P&WCSMART™ Subscription Service's flexible model is based on annual flying hours and provides one- and three-year term options that can be renewed at the end of the term.

OPTION 1 200 flying hours/year – US\$8,000/year/engine
(\$20/hour for additional hours)

OPTION 2 500 flying hours per year – US\$13,500/year/engine
(\$35/hour for additional hours)

Both options are available for one- and three-year renewable terms, ensuring you a low annual rate that will not change during the term.
