ENGINEWISE SERVICES

# AFTERMARKET SERVICES MADE WITH YOU IN MIND

As the OEM, Pratt & Whitney is committed to driving maximum engine reliability and performance through a portfolio of innovative solutions, world-class support network and treating our customers as a shared partner. We have a distinct advantage against competitors in delivering the highest level of engine knowledge to improve our material and repair process, our investment in research & development, and understanding your business needs through nearly a century of experience and using that insight to create smart, straight-forward service solutions.

Pratt & Whitney's EngineWise® aftermarket services provide flexible and tailored offerings to meet the evolving needs of our customers. We understand that each customer has specific needs that change over the course of an engine lifecycle and we offer a wide range of Maintenance, Material and Intelligence solutions as well as a number of services to support your engine fleet.

## SERVICE SOLUTIONS

### EngineWise Maintenance

Providing a full range of options, from time and material based agreements for the greatest level of customer flexibility to more comprehensive fleet management plans offering the highest level of service coverage and protection at a rate-based service to ensure maximum performance benefits to everything in between.

### EngineWise Materials

P&W new & certified used parts, repair and managed programs for the highest residual engine value, better reliability and longer time-on-wing. P&W also invests in innovative repair development with the expertise of 300 dedicated repair engineers to offer flexible solutions as simple as a single part or long term agreements.

### EngineWise Intelligence

Data availability, advanced analytics and your fleet knowledge combine with P&W's OEM expertise to provide greater engine performance insight and the ability to detect hundreds of events annually, resulting in significant financial savings for operators and reduced disruptions to your fleet.

## SERVICE SUPPORT

### On-Wing & Near-Wing

Minimizing engine down time, P&W's mobile services eliminate costly and timely engine removals by providing maintenance on or near-wing before issues escalate into greater levels of overhaul at an engine center.

### Commercial Serviceable Assets

A global leader in aftermarket engine materials, CSA sells and purchases engines, modules, and inventories to provide the customer with a range of solutions that lower cost of ownership, helping you manage your inventory and provide you technical assistance.

### Lease Support

Access to over 700 engines maintained with the highest quality workscopes. Providing flexible solutions for short and medium term focus, global locations and a customer support network for 24/7 response to minimize operational disruptions and AOGs.

## WORLD-CLASS SUPPORT

Highest quality maintenance and global network

## COMMITMENT

Driving maximum engine reliability and performance

## PORTFOLIO

Innovative & flexible solutions for greater residual value

## PARTNERING WITH YOU

Sharing technical expertise and business intelligence
