COVERAGE WITH EAGLE SERVICE™ PLAN (ESP™) PLATINUM

- Environmental damage repair
- Routine periodic inspections
- Engine washes
- Foreign object damage (FOD)
- Technical publications

ANCILLARY SERVICES

- Advanced technology oil analysis
- Engine connectivity
- Pro-active help desk

NO ANNUAL MINIMUMS

Only pay for the hours you fly

MAINTENANCE PROGRAMS

GO BEYOND

ESP™ PLATINUM FOR PILATUS PC-12 NGX

PT6E-67XP

ENVIRONMENTAL DAMAGE REPAIR

- Coverage includes the cost of labour and/or parts replacement to repair environmental damage, i.e., corrosion or erosion, as required by the engine manuals, and applies to external components such as cases and housings, as well as internal components such as turbine blades, bearings, etc.
- If environmental damage is detected in the field, the operator should contact Pratt & Whitney Canada (P&WC) for technical consultation to assess if repairs are required (in-situ environmental damage repairs).
- Coverage is subject to (i) documented compliance with the engine maintenance manual (EMM), including engine washing and preservation, and (ii) the installation and use of the aircraft feather inhibit function in accordance with the pilot operating handbook for all operations in Australia, Africa, the Middle East, or when operating on any unpaved surfaces.

Note: P&WC may require review or inspection prior to enrollment.

ROUTINE PERIODIC INSPECTIONS

- Coverage includes reasonable labour costs to perform the routine periodic inspections and maintenance tasks specified in the "P&WC Recommended Maintenance Tasks" table in Chapter 05-20 of the EMM, as well as the cost of the associated engine parts and consumables required during the inspections. Pre-flight / daily inspections and regular oil replenishment are not covered.
- Inspections will be covered in accordance with the recommended intervals in the EMM.
- ESP does not limit the operator to a specific service center or facility for coverage of these inspections. P&WC will compensate the maintenance facility for reasonable charges for performing the routine periodic inspections.

ENGINES WASHES

- Coverage includes reasonable costs to perform (i) up to four (4) compressor and turbine desalination washes per year, and (ii) compressor performance recovery washes as required in accordance with the P&WC manuals.
- While ESP Platinum covers the cost of up to four (4) compressor and turbine desalination washes per year, customers must comply with the recommended wash frequency in the Chapter 05-20 of the EMM for their specific environment, which may be more frequent.

FOREIGN OBJECT DAMAGE (FOD)

- FOD events are covered
- This includes coverage for the full shop event, as well as the ESP-covered support costs (removal and installation, freight, lease engine support, etc.)
- This coverage does not require filing an insurance claim

TECHNICAL PUBLICATIONS

- Coverage includes the costs for an on-going subscription for on-line access via P&WC's customer portal to the line maintenance manual collection of P&WC's technical publications (consisting of the line maintenance manual, ground-based software, parts catalog, service bulletins updates, and airworthiness limitations) for up to ten user licences.

ANCILLARY SERVICES

ADVANCED TECHNOLOGY OIL ANALYSIS

- Coverage includes the cost of P&WC's advanced technology oil analysis service at least once a year, or more frequently based on the sampling intervals recommended in the P&WC manuals.
- This service includes oil sample kits, laboratory services, and detailed reports and customized maintenance recommendations as applicable based on the results of the detailed report.

ENGINE CONNECTIVITY

- Coverage includes a cellular SIM card for the P&WC data transmission system, cellular network data plan including international roaming charges, and data processing and transfer fees.

Note: This service may not be available in all countries.

PRO-ACTIVE HELP DESK

- This service leverages the available engine performance, operational, and health information to provide pro-active, personalized support and an enhanced service experience.
