FMP

FLEET MANAGEMENT™ PROGRAM

Fully customized maintenance plans for your engines

The guaranteed maintenance cost protection provided by FMP™ ensures you get the most out of your engine. P&WC experts support your fleet management as well as on- and off-wing maintenance, maximizing your asset availability.

FLEET MANAGEMENT™ PROGRAM

Flexible coverage for your fleet

Offering you the ability to select the right coverage and additional services that fit your unique operational, environment, and mission needs.

Simplified fleet operations

A cost guaranteed maintenance solution that helps lock in lower operating costs and simplifies fleet operation management to provide ultimate peace of mind.

Dedicated OEM expertise

We appoint an OEM expert to support your specific engine operations and maintenance needs. As the people who built your P&WC engine, we know how to maintain it to achieve optimal performance.

Better financial predictability

Ease of financial planning and predictable cash flow by offering guaranteed long-term engine maintenance cost protection –
Eliminating unexpected expenses.

OPTIMAL OPERATING COST THROUGH FMP™

CUSTOMIZED TO COMPLEMENT YOUR OPERATIONS

FMP™ products are available for operator or lessor fleets, providing pay-per-hour or pay-at-event solutions with flexible coverage terms and maintenance reserves held at engine or fleet level. P&WC has also developed a suite of additional fleet services to maximize the full potential of your engines.
