FLEXIBLE. TAILORED.

MISSION-READY.

P&WC's Defence & Security Services offer unrivalled engine-OEM expertise and tailored maintenance and support solutions for our Defence and Security customers. We are committed to supporting you to reach 100% mission readiness and cost control.

Our innovative services and solutions are fully integrated across the customer organisation globally and provide significant benefits:

- » Allow you to focus on the mission
- » Increase fleet availability
- » Ensure expertise and certification from the OEM
- » Predict and improve budget utilisation
- » Reduce complexity and streamline administration
- » Transfer support responsibility to industry
- » Proactively and preventively manage repair and maintenance events
- » Cost effectively manage obsolescence and lifecycle costs

PRATT & WHITNEY

SERVICES FOR DEFENCE & SECURITY

P&WC's Services for Defence & Security offer flexible solutions with fixed rates to ensure no pricing surprises and zero compromise on quality:

- » Price Per Hour (PPH) of utilisation
- » Annual/monthly fleet availability commitment (FAC) according to your mission requirements
- » Hot Section Inspection and Overhaul (with P&WC SMART program) - capped costs or firm and fixed rate
- » Exchange with refurbished engine
- » Fleet Enhancement Program (FEP) with new engine

Each program can be customised with add-on services such as extended warranty, enhanced training, engineering and advisory services, technical publications and records, spares inventory and logistics or on-site 24/7 field support.
