

Geoff Hunt

Senior Vice President, Product Strategy

Geoff Hunt is senior vice president of Product Strategy at Pratt & Whitney, where he serves as a liaison with airframers and other customers, driving strategic leadership for future program development and advancing Pratt & Whitney's commitment to deliver innovative and sustainable aviation solutions.

Hunt's career in the aerospace industry has included leading roles in the development of landmark products in aerospace. He was most recently senior vice president of Engineering & Technology at Pratt & Whitney. In that role he led Pratt & Whitney's global Engineering team, with a focus on designing and supporting the Pratt & Whitney portfolio of engine programs, developing technical leadership and capability, and advancing technologies that will support the next generation of commercial and military engines.

Previously he served as senior vice president, Engineering & Technology for Collins Aerospace. In this position, Hunt led product development programs to ensure the company continued to offer differentiating technologies to meet customer needs, as well as ensuring flawless Engineering program execution.

Hunt's 40 years of Aerospace industry experience includes roles of increasing responsibility in Engineering and program management at Rolls-Royce, Collins Aerospace, and Pratt & Whitney where he provided leadership across a large range of products and platforms, including product development, system integration and program execution for the 787 Dreamliner.

Hunt is a Fellow of the Royal Aeronautical Society and holds a bachelor's degree in Mechanical Engineering from Sheffield University, England, and an MBA from Boston University.
