

One Acquisition Solution for Integrated Services Plus (OASIS+)

OASIS+ is a government-wide, Best-in-Class contract vehicle for complex professional services on a global basis.

BENEFITS

- Single solution for complex requirements

- No contract ceiling

- Supports both FAR Part 16.505 and commercial FAR Part 12 acquisition

- Supports all contract types (cost reimbursable, fixed price, T&M)

- Supports classified and unclassified, CONUS and OCONUS requirements

- Fast, streamlined procurement

- Ordering contracting officer controls terms, requirements, evaluation, and award

- GSA Assisted Acquisition Service available to support, including free scope review

Scope

The objective of this contract is to provide Government agencies with total integrated solutions for a multitude of services-based requirements on a global basis. These services requirements may call for solutions that cross multiple disciplines, include ancillary support, may be commercial or non-commercial, using a variety of contract types.

OASIS+ is available for use by all Federal agencies, and is organized by domains.

RTX awarded domains include the following scope areas:

Technical & Engineering
Application of physical laws and principles of engineering in the design; development, and utilization of machines, materials, instruments, processes, and systems.

Research & Development

Includes any requirements in support of R&D activities.

Intelligence Services

Focuses on Command, Control, Communications, Intelligence, Surveillance, and Reconnaissance mission requirements.

Enterprise Solutions

Requirements that are large-dollar, wide-reaching (e.g., across agencies) and highly complex.

Logistics

Comprehensive logistics solutions, including planning, designing, implementing, or operating systems or facilities for the movement of supplies, equipment or people.

Facilities

Services required to maintain and operate buildings, utilities infrastructure, and real property assets and equipment.

Contract facts

Title	One Acquisition Solution for Integrated Services Plus (OASIS+)
Contract number	47QRCA25DU267
Host agency	General Services Administration (GSA)
Procuring agency	Any federal government agency, with delegation of procurement authority from GSA
Prime contractor	RTX Corporation (Raytheon Company); managed by RTX Contract Vehicle Center (CVC)
Customers	Any federal government agency, with user fee of 0.15%
Ceiling	None. Task orders and contract vehicle have no dollar limit
Period of Performance	December 17, 2024 through December 16, 2034
Scope of work	Professional service disciplines integrated to provide a total solution to agency needs. Scope also allows ancillary services and material necessary to complete a total solution
Terms	Pre-negotiated clauses in basic contract. Unique terms can be added at task order level
Bidding rates	Forward pricing rates, unless sole-source T&M/LH proposal (labor rates on contract)
Appropriation	No restrictions. The type of funds must be appropriate for the scope of work

Ordering process

Acquisition Planning	The agency end-user conducts standard acquisition planning activity and chooses between two acquisition methods: assisted or direct. End-users can utilize GSA Assisted Acquisition Services to place orders, or obtain a Delegation of Procurement Authority (DPA) to place Direct Orders.
Define Requirements	The agency end-user defines requirements for the Task Order Request (TOR) and builds solicitation using FAR Part 16.505 or FAR Part 12.
Release Solicitation	All OASIS+ prime contractors are provided fair opportunity to TORs on their domain(s).
Evaluate Proposals	Proposals (oral and/or written) are evaluated by end-user agency and GSA, if applicable.
Award Task Order	Task Order is issued to the “best value” contractor.
