Subject: RTX Corporation Supplier FASCSA Notification Letter- Hangzhou DeepSeek Artificial Intelligence Basic Technology Research Co., Ltd

Dear RTX Supplier,

RTX Corporation (RTX) is notifying you that the U.S. Government (USG) via the Department of War, Department of Homeland Security and Director of National Intelligence, has issued orders under the Federal Acquisition Supply Chain Security Act (FASCSA) that may affect certain products, services, or sources within the federal supply chain. If your company supports programs that involve a USG contract, this notice is intended to inform you of potential implications and your responsibilities under applicable flowdown contractual requirements. The Orders were issued on October 16, 19, and 21, 2026, and can be found here: <https://sam.gov/supplychainorders>.

All USG suppliers are expected to ensure that products, services, software or components supplied for USG work does not include prohibited or restricted covered articles identified in the FASCSA Order. If you are a USG supplier, you are required to conduct a reasonable inquiry of your supply chain to determine whether affected articles or sources are present. If so, you must notify us promptly if you identify any potentially restricted sources in items supplied to our programs. You may also be required to support ongoing requests for information or certifications related to supply chain sources or component origins related to the FASCSA Order.

RTX is currently reviewing the FASCSA Order to assess potential impacts across relevant programs, including the programs your company supports. As is required by FAR 52.240-91, 52.204-28 and 52.204-30, RTX suppliers supporting USG work must also evaluate their supply chains.

If you believe the FASCSA Order affects your products or services you provide, please contact your RTX point of contact.

Thank you for your continued partnership and support in maintaining compliance with USG supply chain security requirements.

Sincerely,

A handwritten signature in cursive script, appearing to read "Edward Dunn".

Edward Dunn
Senior Vice President, Global Supply Chain
