If Supplier is not able to fully mitigate Buyer's risk associated with the anticipated Obsolescence issue by executing a Last Time Buy, then Supplier shall prepare a detailed Obsolescence replacement plan that assesses available alternatives and possible design modifications, including the associated testing and qualification. Supplier shall submit the plan to Buyer within 2 weeks of Buyer receipt of the Obsolescence Notice unless the Parties otherwise agree. Such plan shall be mutually agreed to by the Parties.
- 7.3. In no event shall Buyer accept any cost increase due to Obsolescence of the Goods or any component thereof. Provided that Supplier has implemented the Obsolescence Program and provided Buyer with the Obsolescence Notice at least 24 months prior to the occurrence of such Obsolescence, Buyer and Supplier shall share the responsibility for implementing the Obsolescence replacement plan as follows: Supplier shall perform the necessary re-qualification of the Goods at no charge to Buyer, except for Buyer's own internal costs and expenses arising from such Obsolescence and Buyer's necessary engineering and development activities required to validate and implement the replacement Goods. Should Buyer's Customers pass their requalification or other costs resulting from such Obsolescence on to Buyer, both Parties agree to discuss the reasonable settlement of such costs.
- 7.4. Should Supplier fail to implement the Obsolescence Program, or if Supplier has not provided Buyer with an Obsolescence Notice at least 24 months prior to the occurrence of an Obsolescence, Supplier shall perform necessary re-qualification of the Goods at no charge to Buyer, and Supplier shall be liable for (i) all costs, expenses, and damages incurred by Buyer and Buyer's Customers related to or arising from such Obsolescence, including any internal costs and expenses, and (ii) Buyer's necessary engineering and development activities required to validate and implement the replacement of the Goods.

If Supplier fails or is unable to repair, replace, or correct non-conforming Goods or Services, Buyer may, at Buyer's option, make such repair, replacement, or correction and Supplier shall recompense Buyer for the cost incurred thereby. Goods returned to Buyer hereunder shall be shipped at Supplier's expense and risk of loss and shall be accompanied by a notice stating whether they are new replacements or repaired originals and shall continue to be covered under this Warranty. Supplier shall conduct intake, review, analysis, and any other activity required to evaluate whether the returned Goods are covered by the Warranty at no expense to Buyer.
- 8.4. Notwithstanding any other provision, in addition to the foregoing, Supplier shall be liable for Buyer's actual costs, expenses, and damages related to or arising from Goods or Services not conforming to the Warranty or the Additional Service Warranty, as applicable, including but not limited to labor and other costs related to transportation, expediting, removal, disassembly, failure analysis, fault isolation, assembly, reinstallation, re-

13. CHANGES

- 13.1. Buyer's authorized procurement representative (which does not include Buyer's engineering and technical personnel) may unilaterally make changes within the general scope of the Order, including changes in whole or part to: (i) shipping, waste reduction, or packing instructions, (ii) place of delivery, (iii) any designs, Specifications and drawings, (iv) the statement of work, (v) the method or manner of performance, (vi) Buyer Items, facilities, equipment, or materials, (vii) flowdown requirements from contracts between Buyer and Buyer's Customer, and/or (viii) quality requirements (collectively "Change(s)"). Supplier shall perform any Changes ordered by Buyer. Any Order terms that incorporate flexibility for variations or modifications shall not be considered Changes within the meaning of this Section.
- 13.2. Except as set forth herein, or as otherwise agreed, if any Change under this Section causes an increase or decrease in the cost of or the time required for performance, an equitable adjustment shall be made in price or delivery schedule or both ("Adjustment Claim"), and Buyer shall modify the Order accordingly. Notwithstanding the foregoing, if any Change is the result of a requirement by Buyer's Customer, Supplier is entitled to an equitable adjustment only to the extent that Buyer receives such an adjustment from Buyer's Customer. If the cost of property or material made obsolete or excess as a result of a Change is included in the Adjustment Claim, Buyer may direct the disposition of such property or material. Supplier must submit an Adjustment Claim in writing in the form of a complete change proposal, fully supported by factual information, to Buyer's procurement representative no later than 15 days after Supplier's receipt of the Change. Supplier

acknowledges and agrees that (i) changes in delivery/performance schedule are normal and anticipated in the course of the program, (ii) the cost of such changes is included in the prices provided under the Order, and (iii) any such change does not constitute a Change under this Section. Notwithstanding any pending Adjustment Claims, Supplier shall diligently proceed with the performance of the Order, inclusive of the Change, as directed by Buyer.

14. INSURANCE

- 14.1. Without limiting Supplier's liability and duty to hold harmless and indemnify hereunder, Supplier agrees to secure, maintain, and require its subcontractors to maintain, the following insurance coverages and limits:
 - 14.1.1. Workers' Compensation Insurance, inclusive of an alternate employer endorsement, in an amount sufficient by virtue of the Laws of the U.S., non-U.S. country, state, or other governmental subdivision in which the work or any portion of the work is performed and Employer's Liability Insurance in the minimum amount of \$1,000,000 for any one occurrence; and
 - 14.1.2. Commercial General Liability Insurance and Umbrella Liability Insurance, including Premises Liability and Contractual Liability, in which the limit of liability for property damage and bodily injuries, including accidental death, shall be at a minimum, a combined single limit of \$5,000,000 for any one occurrence.
- 14.2. In addition to the insurance requirements set forth above, Supplier also agrees to secure, maintain, and require its subcontractors to maintain, the additional insurance coverages and limits relevant to Supplier's performance of the Order, as specified in Attachment A hereto (the "Additional Insurance Coverage Requirements").
- 14.3. All such insurance shall be issued by companies authorized or permitted to do business under the Laws of the state or jurisdiction in which all or part of the Services are to be performed and must have an AM Best financial rating of A- or better or an equivalent rating as produced by another rating agency acceptable to Buyer.
- 14.4. The insurance policies described herein, and in an Order shall be in a form satisfactory to Buyer and shall contain a provision prohibiting cancellation or material change except upon at least 30 days' (7 days in the case of War Risks Insurance) prior notice to Buyer. All such insurance policies or self-insurance will be primary in the event of a loss arising out of Supplier's performance and shall provide that where there is more than one insured the policy will operate, except for the limits of liability, as if there were a separate policy covering each insured and shall operate without right of contribution from any other insurance carried by Buyer. Certificates evidencing such insurance and endorsements naming RTX and Buyer as an additional insured under the Commercial General Liability and Umbrella Liability insurance or, in the case of All Risk Property Insurance, naming RTX and Buyer as a loss payee, shall be filed with Buyer upon execution of an Agreement or any Order and before commencement of any work hereunder, and within 30 days after any renewals or changes to such policies are issued. To the extent permitted by Law, Supplier and its insurer(s) agree that subrogation rights against RTX and Buyer are hereby waived under the Commercial General Liability, Umbrella Liability, Auto Liability and

Workers Compensation insurance; such waiver shall be reflected on the insurance policies. Supplier shall, if requested by Buyer, advise Buyer of the amount of available policy limits and the amounts of any self-insured retention. The certificate of insurance shall identify the contract number or work to be performed and shall acknowledge that such coverage applies to liabilities incurred by Supplier, its employees, invitees or agents under an Agreement or any Order and that such insurance shall not be invalidated by any act or neglect of Supplier such as a breach or violation of the policies.

- 14.5. Any self-insurance, self-retained layer, deductibles, and exclusions in coverage in the insurance policies described above or in the applicable Additional Insurance Coverage Requirements, will be assumed by, for the account of, and at the sole risk of Supplier.

15. TERMINATION FOR CONVENIENCE

- 15.1. Buyer may, at any time, terminate all or part of an Agreement or any Order for its convenience upon written notice to Supplier.
- 15.2. Upon termination, in accordance with Buyer's written direction, Supplier will immediately: (i) cease work and place no further subcontracts or orders for materials, services, or facilities, except as necessary to complete the continued portion of the Order; (ii) prepare and submit to Buyer an itemization of all completed and partially completed Goods and Services; (iii) if requested by Buyer, deliver to Buyer any and all Goods and Services completed up to the date of termination at the pre-termination Order price; and (iv) if requested by Buyer, deliver any work-in-process.
- 15.3. Buyer shall not be liable to Supplier for an Order terminated prior to the commencement of Lead Time.
- 15.4. In the event Buyer terminates an Agreement or Order for its convenience after performance has commenced, Buyer will compensate Supplier only for the actual and reasonable work-in-process costs incurred by Supplier on Goods and Services required to be delivered within the Lead Time period, calculated from Buyer's issuance of the notice of termination. If the Order does not specify Lead Time, Lead Time shall be the reasonable average time required to manufacture and deliver the Goods and/or perform the Services. Supplier shall use reasonable efforts to mitigate its own and Buyer's liability under this Section. To receive compensation, Supplier must submit its termination claim, as directed by Buyer, within 90 days from the effective date of the termination.
- 15.5. Buyer shall not be liable to Supplier for costs or damages other than as described above, and in no event for lost or anticipated profits, or unabsorbed indirect costs or overhead, or for any sum in excess of the price allocated to the portion of the Order terminated.
- 15.6. Notwithstanding anything to the contrary in these Terms and Conditions, an Agreement, or an Order, Buyer shall not be liable to Supplier for any costs or damages whatsoever for a termination for convenience with respect to a particular program of any of Buyer's Customers, if the termination is due to the cancellation, in whole or in part, of such program by Buyer's immediate customer(s) or Buyer's ultimate customer(s) or the bankruptcy or insolvency of such customer(s).

16. TERMINATION FOR DEFAULT

- 16.1. Buyer may, by written notice, terminate the Agreement or any Order, or any portion thereof, for default without any liability or obligation whatsoever to Supplier for the portion terminated, in the following circumstances: (i) Supplier fails to perform any obligation hereunder (other than a delivery obligation) and fails to cure such obligation within 10 days (or as otherwise mutually agreed) (the "Cure Period"); (ii) Supplier fails to perform any delivery obligation hereunder; (iii) when Buyer has reasonable grounds for insecurity, and Supplier fails to provide adequate assurances of performance in writing within 10 days following Buyer's demand or, (iv) should Supplier (a) become insolvent, (b) become unable to pay its debts as they mature, (c) make a general assignment for the benefit of creditors, or (d) have a receiver appointed for the whole or any substantial part of its assets or become in any way the subject of a bankruptcy petition (each in Subsection (iv), a "Supplier Insolvency"). Notwithstanding the foregoing, if a cure is not possible within such Cure Period, Supplier shall submit to Buyer, within a period of 10 days after receipt of notice from Buyer specifying such failure, a detailed plan to cure such failure (including related time period) acceptable to Buyer in its sole discretion, provided, however, that if such a cure plan is approved by Buyer, Supplier's subsequent failure to comply with such cure plan shall be deemed a default hereunder, and Buyer may terminate immediately without additional cure periods.
- 16.2. Buyer shall have no liability in relation to those Goods and Services terminated for Supplier's default. Supplier shall be liable to Buyer for any and all expenses, costs, and damages including increased re-procurement costs, requalification costs, and other non-recurring costs, except in the circumstance of any failure or delay constituting a "Force Majeure Event" as set forth in the Section herein entitled "Force Majeure".
- 16.3. If the Agreement or any Order is entirely or partially terminated under this Section other than pursuant to a Supplier Insolvency, in addition to any other rights Buyer may have:
- 16.3.1. Supplier shall grant and promises to grant to Buyer a worldwide, perpetual, non-exclusive, fully paid, irrevocable license, with the right to grant sublicenses, to Supplier's information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, to the extent necessary to enable Buyer to make, have made, use, sell, and license the Goods and/or perform, or have performed, the Services; and
- 16.3.2. Buyer may require Supplier, at no charge to Buyer, to (i) deliver to Buyer all information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, utilized by Supplier in performing the Order; (ii) deliver the tooling and test equipment necessary to make or have made the Goods and perform the Services, and (iii) provide technical and transition assistance.
- 16.4. In addition to and not in lieu of other rights to Intellectual Property otherwise set forth in the Order and these Terms and Conditions, Supplier hereby grants to Buyer a worldwide, perpetual, non-exclusive, fully paid, irrevocable, license ("Additional License"), with the right to grant sublicenses, to Supplier's information, data, know-how, tooling, test equipment and other Intellectual Property, including without limitation proprietary and manufacturing information to enable Buyer to make, have made, use, sell and license the

Goods and/or perform, or have performed, the Services, subject to Buyer's agreement not to exercise such rights under this Additional License except in the event of a Supplier Insolvency, whether or not the Order is terminated. As part of such Additional License, Supplier shall upon Buyer's written request and at no charge to Buyer, promptly (i) deliver to Buyer all information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, utilized by Supplier in performing the Order, (ii) deliver the tooling and test equipment necessary to make or have made the Goods, provide the Services, and (iii) provide technical and transition assistance in order to ensure Buyer's continuing requirements for Goods and Services.

17. INTELLECTUAL PROPERTY RIGHTS

- 17.1. "Background Intellectual Property" shall mean all Intellectual Property other than Foreground Intellectual Property.
- 17.2. "Foreground Intellectual Property" shall mean all Intellectual Property and tangible work product conceived, created, acquired, or first reduced to practice in connection with the Order.
- 17.3. Each Party retains its existing rights in Background Intellectual Property.
- 17.4. Buyer shall own all Foreground Intellectual Property. Supplier shall disclose to Buyer all Foreground Intellectual Property. If not expressly required to be delivered in the Order, Supplier shall deliver to Buyer all Foreground Intellectual Property upon written request from Buyer. Supplier hereby irrevocably assigns and promises to assign to Buyer all right, title and interest to all Foreground Intellectual Property. Supplier agrees to do all things reasonably necessary to enable Buyer to secure and perfect Buyer's Foreground Intellectual Property rights, including, without limitation, executing specific assignments of title in Foreground Intellectual Property by Supplier to Buyer and cooperating with Buyer at Buyer's expense to defend and enforce Buyer's rights in any such Foreground Intellectual Property. All Foreground Intellectual Property shall be considered Buyer's Proprietary Information (defined hereinafter). Supplier agrees that, for any works of authorship created by Supplier or any employees or any others used by Supplier in the course of the Order, those works that come under one of the categories of "Works Made for Hire" in 17 U.S.C. §101 shall be considered "Works Made for Hire." For any works of authorship that do not come under such categories, Supplier, warranting that it has the right to do so, hereby assigns and promises to assign all right, title, and interest to any copyright in such works to Buyer and will execute, or cause to be executed at Buyer's expense, any documents required to establish Buyer's ownership of such copyright.
- 17.5. Supplier represents and warrants that Supplier has sufficient rights in all Goods, Services, and Intellectual Property and other items that Supplier uses or transfers to Buyer in connection with the Order to allow Supplier to lawfully comply with the Order.
- 17.6. Supplier hereby grants and promises to grant to Buyer and Buyer's Affiliates a worldwide, non-exclusive, perpetual, fully paid, irrevocable, transferable license to Background Intellectual Property (i) to use, sell, offer for sale, import, export, copy, adapt, embed, modify, make derivative works, make and have made Goods and Services; and (ii) to enable Buyer to practice the Foreground Intellectual Property.

- 17.7. Supplier hereby irrevocably waives and promises to waive all moral rights to the extent permissible by Law, all rights of privacy and publicity, and the like, in all Goods provided to Buyer and in all activities in connection with the Order.
- 17.8. Supplier represents and warrants that Supplier shall not provide, in the performance of the Order, any software, including without limitation source code, compiled code, embedded software, or firmware, including without limitation free software, open source software, freeware, general public license-governed software, or any hardware designs, in any form that are subject to any obligations or conditions that may provide a legal right to any third party to such software or hardware designs, or that could otherwise impose any limitation or condition on Buyer's use, reproduction, modification, distribution, publication, or conveyance of such software or hardware designs.
- 17.9. Except as expressly authorized herein, nothing in the Order shall be construed as Buyer granting Supplier a license in or any right to use any of Buyer's Intellectual Property other than in the performance of work under the Order.

18. INTELLECTUAL PROPERTY INDEMNIFICATION

- 18.1. Supplier shall indemnify and hold harmless Buyer, Buyer's Customers, and Affiliates, and their agents, directors, officers, and employees, and each subsequent purchaser or user, from any losses, costs, damages, and liabilities, including, without limitation, any attorney's fees, court costs and fines, arising from any potential or actual claim, suit, injunction, action, proceeding, or investigation alleging infringement or violation of any Intellectual Property rights or license, related to the manufacture, use, sale, offer for sale, import, or other exploitation of any Goods or Services delivered or performed in connection with the Order ("IP Claim").
- 18.2. Supplier shall not be liable for any IP Claim to the extent such IP Claim is based on Supplier's compliance with any Specification created by Buyer, unless: (i) Supplier could have complied with Buyer's Specification using a solution that was non-infringing; (ii) the relevant portion of the Specification was provided by Supplier; or (iii) Supplier knew or should have known of an IP Claim or potential IP Claim and did not promptly notify Buyer in writing.
- 18.3. Supplier shall, upon written notice from Buyer of an IP Claim, promptly assume and diligently conduct the entire defense of an IP Claim at its own expense. Insofar as Buyer's interests are affected, Buyer shall have the right, at its own expense and without releasing any obligation of Supplier, to participate and intervene in an IP Claim. Buyer shall have the right to reasonably reject counsel selected by Supplier. Supplier shall not enter into any settlement without Buyer's prior written consent, which shall not be unreasonably withheld.
- 18.4. Buyer may supersede Supplier in the defense of any IP Claim and assume and conduct the defense at Buyer's sole discretion. In such an event, Supplier shall be released from any obligation to pay for attorneys' fees and court costs, but not settlement or damages, and any such release is expressly conditioned on Supplier's complete cooperation with Buyer in Buyer's defense of such IP Claim at Buyer's expense. Buyer shall not enter into

any settlement without Supplier's prior written consent, which shall not be unreasonably withheld.

- 18.5. If the manufacture, use, sale, offer for sale, import, export, or other exploitation of any Goods or Services is enjoined by a court, if delivery is precluded by a government entity, or should Supplier refuse to provide or supply any Goods or Services to avoid a potential IP Claim, Supplier shall avoid any disruption to Buyer and shall (i) secure for Buyer the right to provide, use or sell such Goods or Services; (ii) modify or replace such Goods or Services with equivalent non-infringing Goods or Services; or (iii) provide such other solution acceptable to Buyer. Supplier shall reimburse Buyer for Buyer's costs incurred in obtaining all internal, external and Buyer's Customer approvals, qualifications, certifications, and the like, necessary for making, using, providing, and selling alternate non-infringing Goods or Services. Supplier shall refund to Buyer the purchase price of any such Goods or Services that Buyer is prohibited from providing, using, selling, offering for sale, importing, exporting, or otherwise exploiting.

19. PROPRIETARY INFORMATION

- 19.1. In order to deliver the most effective and efficient Goods and Services possible and meet Buyer's requirements for those Goods and Services, Buyer and Supplier anticipate the need to exchange Proprietary Information (as defined below) for the design, development, testing, manufacture, or repair of Goods and Services, as applicable in connection with an Order. In recognition of the value of that Proprietary Information, as well as to protect Buyer's goodwill and reputation in its products, Supplier agrees to the terms and conditions of this Section.
- 19.2. "Proprietary Information" shall mean all information, knowledge, or data (including without limitation financial, business, and product strategy information; product specifications; product designs; procedures; studies; tests; and reports) in written, electronic, tangible, oral, visual, or other form, (i) disclosed by, or obtained from, Buyer, or (ii) conceived, created, acquired, or first reduced to practice in connection with an Order. If Buyer furnishes Buyer Items to Supplier, such Buyer Items shall be used and the information obtained therefrom shall be treated as if they were Proprietary Information disclosed in connection with an Order.
- 19.3. Unless Supplier has received Buyer's express written consent to the contrary, Supplier shall (i) use the Proprietary Information solely for the purposes of an Order, and not for any other purpose (including, without limitation, designing, manufacturing, selling, servicing or repairing equipment for entities other than Buyer; providing services to entities other than Buyer; or obtaining any government or third party approvals to do any of the foregoing); (ii) safeguard the Proprietary Information to prevent its disclosure to or use by third parties; (iii) not disclose the Proprietary Information to any third party; and (iv) not reverse engineer, disassemble, or decompile the Proprietary Information.
- 19.4. Supplier may disclose the Proprietary Information to officers, directors, employees, contract workers, consultants, agents, affiliates, or subcontractors of Supplier who have a need to know such Proprietary Information for the purposes of performing the Order and who have executed a written agreement with Supplier obligating such entity or person to treat such information in a manner consistent with the terms of this Section.

- 19.5. No Order shall restrict Supplier from using or disclosing any information that, as proven by written contemporaneous records kept in the ordinary course of business: (i) is or may hereafter be in the public domain through no improper act or omission of Supplier or a third party; (ii) is received by Supplier without restriction as to disclosure by Supplier from a third party having a right to disclose it; (iii) was known to Supplier on a non-confidential basis prior to the disclosure by Buyer; or (iv) was independently developed by employees of Supplier who did not have access to any of Buyer's Proprietary Information.
- 19.6. If Proprietary Information is required to be disclosed pursuant to judicial process, Supplier shall promptly provide notice of such process to Buyer and, upon request, shall fully cooperate with Buyer in seeking a protective order or otherwise contesting such a disclosure. Disclosure of such requested Proprietary Information shall not be deemed a breach of an Order provided that the obligations of this Section are fulfilled by Supplier.
- 19.7. Buyer shall have the right to audit all pertinent documentation of Supplier, and to make reasonable inspection of Supplier's premises, in order to verify compliance with this Section.
- 19.8. Obligations in this Section regarding Proprietary Information shall continue until such time as all Proprietary Information is publicly known and generally available through no improper act or omission of Supplier or any third party.
- 19.9. Unless required otherwise by Law or an Order, Supplier shall promptly return, or otherwise dispose of Proprietary Information as Buyer may direct. Absent contrary instructions, Supplier shall destroy all Proprietary Information 1 year after termination or completion of the Order and provide written acknowledgement to Buyer of such destruction.
- 19.10. Supplier agrees to cause all information regardless of form (including, for example, electronic, magnetic, and optical media, software, and compilations), containing or derived in whole or in part from Proprietary Information to bear the following legend:
- This document contains the property of RTX Corporation and/or a RTX Corporation Affiliate. You may not possess, use, copy or disclose this document or any information in it for any purpose, without express written permission. Neither receipt, from any source, nor possession of this document, constitutes such permission. Possession, use, copying or disclosure by anyone without express written permission of RTX Corporation and/or the RTX Corporation Affiliate issuing the Order is not authorized and may result in criminal and/or civil liability.**
- 19.11. Notwithstanding any proprietary markings, all information of Supplier disclosed to Buyer hereunder may be disclosed by Buyer, with confidential or proprietary labels and markings, to any of Buyer's Affiliates, Buyer's Customer, or Buyer's subcontractors and potential subcontractors having a need to access or know such information. Moreover, Buyer may disclose all Supplier information, in accordance with applicable governmental regulations, to the FAA, any other governing airworthiness certifying authority, or any other department or agency of the U.S. Government, including, without limitation, for the purpose of obtaining necessary government approvals.

- 19.12. Supplier agrees that it will not accept from any third party, or use, any information that appears to be similar to Proprietary Information without first obtaining Buyer's express written consent, except that Supplier may receive solicitations or purchase orders issued by a partner or higher-tier supplier of Buyer that expressly reference a Buyer Order and contain obligations no less stringent than this Section. Supplier shall promptly notify Buyer if Proprietary Information is offered to Supplier by a third party or of the suspected possession of Proprietary Information by a third party.
- 19.13. Supplier acknowledges that exposure to Buyer's Proprietary Information and other Intellectual Property will make it easier for Supplier to manufacture or repair, or to apply for or assist another entity in obtaining FAA or other government approval for, parts that are the same parts or that have the same form, fit, and function, as parts Supplier supplies to Buyer pursuant to an Order hereunder. Supplier also acknowledges that Buyer's goodwill and reputation which become associated with Goods supplied by Supplier pursuant to an Order hereunder once approved for use in Buyer's products make it easier for Supplier to manufacture or repair, or to apply for or assist another entity in obtaining FAA or other government approval for those parts, or parts that have the same form, fit and function, for use in Buyer's products. Supplier agrees that it shall not manufacture or repair parts that Supplier supplies to Buyer pursuant to an Order hereunder, or manufacture or repair parts having the same form, fit and function, for use in Buyer's products, or apply for or assist another entity in obtaining FAA or other government approval for any such parts, without Buyer's written consent. Supplier agrees to notify Buyer in writing and to obtain Buyer's written consent prior to manufacturing or repairing any parts or applying for or assisting another entity in obtaining FAA or other government approval for any parts, for itself or another entity, that have the same form, fit, and function as any parts Supplier supplies to Buyer pursuant to an Order hereunder. Supplier's notification shall (i) describe the parts to be manufactured or repaired, or for which application for or assistance to another entity in obtaining FAA or other government approval for such parts is to be provided, (ii) identify the corresponding parts Supplier supplies to Buyer, and (iii) provide Buyer with sufficient information to demonstrate that Supplier will manufacture or repair, or apply for or assist another entity in obtaining FAA or other government approval for such parts (as the case may be) without reference to or use of Buyer Proprietary Information or other Buyer Intellectual Property. If Supplier manufactures or repairs any such parts without obtaining Buyer's written consent (or applies for or assists another entity in obtaining FAA or other government approval for such parts), then it shall be considered a breach of the Order and Buyer shall be entitled to injunctive relief and such other remedies as a court may order.
- 19.14. Supplier shall not make accessible or sell completed or partially completed or defective Goods manufactured using or containing Proprietary Information to any Unauthorized third party. Goods not provided to Buyer shall be disposed of in a manner that prevents disclosure of Proprietary Information (including by reverse engineering).
- 19.15. For Proprietary Information exchanged in connection with the Order, the terms of this Section shall supersede any provisions regarding the protection of proprietary information in any other agreements between the Parties.

20. SECURITY FOR RTX INFORMATION

The following provisions are applicable whenever the Supplier will Process RTX Information. The obligations contained in this Section are in addition to and do not alter Supplier's obligations under applicable U.S. Government procurement regulations.

- 20.1. "Security Incident" means (i) any circumstance that involves, or which a Party reasonably believes may involve (a) Unauthorized Processing, destruction, or loss of RTX Information in Supplier's custody or control; or (b) interference with any information system or any medium or format that subjects RTX Information to risk of such Unauthorized Processing, destruction, or loss; or (ii) any other similar incident as may be so defined by any Data Privacy Law and by any Laws relating to the protection of RTX Information.
- 20.2. Supplier agrees to (i) develop, implement, maintain, and update a reasonable, written information security policy and program incorporating technical and organizational measures, and (ii) install and implement security hardware and software, in each case, designed to (a) protect the security, confidentiality, integrity, and availability of Supplier's systems, the Goods and Services, and RTX Information from Security Incidents; and (b) align to a generally accepted cybersecurity framework.
- 20.3. Supplier further agrees to:
 - 20.3.1. Not allow Unauthorized third parties to Process RTX Information in the performance of its obligations under the Order.
 - 20.3.2. Only provide RTX Information to third parties upon prior written approval of Buyer and subject to the terms of the Order.
 - 20.3.3. Not make any Unauthorized or secondary or other use (e.g., for the purpose of data mining) of RTX Information except as required by Law.
 - 20.3.4. Provide Buyer, upon request, with a report demonstrating that Supplier's information security policies and program are consistent with a generally accepted cybersecurity framework. Upon Buyer's request, Supplier shall provide Buyer with an updated index or summary of its information security policies.
 - 20.3.5. Use best efforts to segregate (physically or logically) all RTX Information into a separate database only accessible by Buyer and those Supplier Personnel who require access to provide the Goods or Services or to maintain the equipment and the program on which it runs.
 - 20.3.6. Use industry standard encryption methods or other secure technologies in connection with the Processing of RTX Information. Notwithstanding any provision to the contrary herein, unencrypted Buyer Personal Information shall not be stored on any Supplier mobile computing devices (e.g., laptop computers and mobile phones).
 - 20.3.7. Upon termination or expiration of the Agreement or Order, at Buyer's request, return or destroy RTX Information as Buyer may direct. Supplier may retain RTX

Information stored in routine back-ups maintained in the ordinary course until such back-ups are overwritten.

- 20.3.8. Provide information to, and reasonably cooperate with, Buyer in response to any subpoena or investigation seeking RTX Information in the possession of Supplier. Supplier shall promptly notify Buyer upon the receipt of any request requiring that RTX Information be supplied to a third party.
- 20.3.9. Provide prompt written notice to Buyer of a Security Incident, but no later than 72 hours after its discovery, by sending an email to "supplier.cyber.incident@rtx.com". Except as may be required by applicable Law, Supplier agrees that it will not inform any third party (excluding law enforcement) of any Security Incident without first obtaining Buyer's prior written consent.
- 20.3.10. (i) Use commercially reasonable efforts to investigate, contain, and remediate Security Incidents; (ii) cooperate with Buyer in the investigation, containment, and remediation; and (iii) preserve all information and evidence related to Security Incidents (including, without limitation, by suspending routine overwriting or deletion of data or log files). Supplier shall provide Buyer with a report of the investigation that summarizes in reasonable detail the impact on Buyer, its agents, and employees affected by Security Incident containment and remediation actions taken or proposed to be taken by Supplier.

21. ACCESS TO FACILITIES, SYSTEMS OR RTX INFORMATION

- 21.1. Supplier shall perform identity screenings, work authorization verifications, and background checks on any Supplier Personnel seeking access to Buyer's or Buyer's Customers' (i) facilities, (ii) computer systems or databases, or (iii) RTX Information (collectively, "Access") to identify persons or entities ineligible for such Access. In furtherance of this obligation, Supplier shall, in advance of any request or grant of such Access:
 - 21.1.1. Verify the identity and requisite work authorization of Supplier Personnel requiring Access.
 - 21.1.2. Except to the extent not permissible by applicable Law, perform a background screen on Supplier Personnel using a company approved by Buyer evidencing that (i) Supplier Personnel do not have any criminal convictions, or (ii) if they do have criminal convictions, such Supplier Personnel were hired only after an individualized assessment was conducted in accordance with all applicable Laws and taking into consideration the nature and severity of the underlying offenses, the nature and scope of the Access to be granted, the specific jobs at issue, and the length of time since the convictions.
 - 21.1.3. Not seek Access for any Supplier Personnel ineligible for such Access based on the failure to meet the above criteria, and will notify Buyer immediately, in writing, if any of Supplier's Personnel with Access is no longer eligible.

- 21.2. Supplier agrees that Buyer shall have sole discretion as to whether Supplier is granted Access and agrees that any Access privileges granted to Supplier will be defined by Buyer. Buyer reserves the right to impose additional requirements before granting Supplier Personnel Access, as applicable, to meet any additional compliance related or site-specific policies and procedures.
- 21.3. Supplier is responsible for ensuring that any Supplier Personnel requiring Access meet the Access requirements set forth herein. Supplier shall immediately notify Buyer if, at any time during the performance of the Order, (i) any Supplier Personnel information relied upon in making an Access determination has changed or been rendered inaccurate for any reason, or (ii) the need for Access by any Supplier Personnel ceases. The need to Access shall automatically cease for any Supplier Personnel who are terminated, transferred, or otherwise no longer employed by Supplier.
- 21.4. Supplier or Supplier Personnel's refusal or failure to meet Buyer's Access requirements at any time during the performance of the Order may result in Buyer's refusal to grant Supplier Personnel Access. Any such refusal by Buyer shall not constitute an employment action by Buyer.
- 21.5. Supplier acknowledges and agrees that any breach of this Section may result in a violation of Law for which Buyer, Supplier, and Supplier Personnel may be liable. At Buyer's request, Supplier will provide Buyer (i) written certification, in a form provided by Buyer, that the Access requirements have been met, and (ii) documentation to verify the methodology, process, and results relied upon by Supplier to comply with the Access requirements. The current certification form is available at the RTX Supplier Site.

22. COMPLIANCE WITH LAWS

- 22.1. Supplier warrants that it shall comply with all Laws applicable to the performance of the Order, except to the extent inconsistent with U.S. anti-boycott laws. Supplier agrees to cooperate with and support Buyer's and Buyer's Customers' efforts to comply with all Laws, by providing supporting documentation, as applicable, and using the tools and systems provided by Buyer to ensure such compliance.
- 22.2. Supplier shall, at the earliest practicable time, notify Buyer in writing if Supplier is subject to any federal, state, or foreign government criminal proceeding alleging fraud or corrupt practices, once initiated by the filing of a formal charging document in a court of law; and further notify Buyer of any subsequent felony convictions or deferred prosecution agreement(s) related to the foregoing.
- 22.3. Supplier agrees to comply with Buyer's environmental, health and safety standards, requirements, and restrictions, as applicable, during Supplier's performance hereunder and when at Buyer's jobsites, including, without limitation, notifying Buyer prior to the commencement of work, and providing Buyer with any test reports or results related to Goods and Services, as applicable.
- 22.4. Supplier shall comply with Data Privacy Laws and shall be responsible for providing any notice required by Law to the data subjects whose personal data it provides to Buyer.

- 22.5. Supplier represents that it shall not furnish to Buyer any Goods or separately-identifiable items or components of Goods that (i) are an unauthorized copy or substitute of an original equipment manufacturer or original component manufacturer (collectively, "OEM") item; (ii) are not traceable to an OEM sufficient to ensure authenticity in OEM design and manufacture; (iii) do not contain proper external or internal materials or components required by the OEM or are not constructed in accordance with OEM design; (iv) have been re-worked, re-marked, re-labeled, repaired, refurbished, or otherwise modified from OEM design but are represented as OEM authentic or as new; (v) have not passed successfully all OEM required testing, verification, screening, and quality control processes; (vi) fail to meet the requirement of an "Approved Part" as defined in FAA Advisory Circular 21-29C and any updated version thereof; or (vii) are otherwise counterfeit or suspected counterfeit. Such counterfeit or suspected counterfeit Goods shall be deemed non-conforming, and Supplier shall disclose the source of the counterfeit or suspect counterfeit Goods to Buyer and cooperate with Buyer with respect to any investigations or remedial actions undertaken by Buyer.
- 22.6. Supplier shall provide to Buyer, upon Buyer's reasonable request, the identity of its subcontractors and the location of manufacture of the Goods or any subcomponents of the Goods, or provision of Services, as applicable, to confirm compliance with applicable Law and the Order.

23. PROHIBITED TELECOMMUNICATIONS EQUIPMENT & SERVICES

- 23.1. Supplier recognizes that RTX, Buyer, and their respective Affiliates are subject to Section 889 of the National Defense Authorization Act for Fiscal Year 2019 ("Section 889"), which prohibits prime contractors to the U.S. Government from using (regardless of end use) "covered telecommunications equipment or services", as such term is defined in Section 889 ("Prohibited Telecom").
- 23.2. Supplier represents that it shall not furnish to Buyer any Goods or Services that use or contain Prohibited Telecom.
- 23.3. Supplier commits to (i) have in place processes to determine whether it furnishes, or has furnished, to Buyer Goods, separately-identifiable items or components of Goods, or Services that use or contain Prohibited Telecom; (ii) notify Buyer, within 1 business day of Supplier's identification, of the use or existence of Prohibited Telecom in the Goods and Services it furnishes, or has furnished, to Buyer (a "Prohibited Telecom Use Notice"), which shall include the brand, model number, and item description of such Goods and Services; and (iii) within 10 business days of Supplier's submission of a Prohibited Telecom Use Notice, provide Buyer with such further available information as Buyer may request about such Supplier's use of Prohibited Telecom in the Goods and Services it furnishes, or has furnished, to Buyer, and the efforts Supplier has taken, and will take, to prevent the use of Prohibited Telecom in the Goods and Services it furnishes to Buyer.

24. CONFLICT MINERALS

Supplier recognizes, consistent with the public policy underlying enactment of the Conflict Minerals provision (Section 1502) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Act"), the significant legal and non-legal risks associated with sourcing

tin, tantalum, tungsten, and gold (the “Conflict Minerals”) from the Democratic Republic of the Congo and adjoining countries (“DRC Countries”). Accordingly, Supplier commits to comply with Section 1502 of the Act and its implementing regulations; to the extent Supplier is not a “Registrant” as defined in the Act, Supplier shall comply with Section 1502 of the Act and its implementation regulations except for the filing requirements. In particular, Supplier commits to have in place a supply chain policy and processes to undertake (i) a reasonable inquiry into the country of origin of Conflict Minerals incorporated into Goods it provides Buyer; (ii) due diligence of its supply chain, following a nationally or internationally recognized due diligence framework, as necessary, to determine if Conflict Minerals sourced from the DRC Countries directly or indirectly support unlawful conflict there; and (iii) risk assessment and mitigation actions necessary to implement the country of origin inquiry and due diligence procedures. Upon written request, Supplier will promptly provide Buyer with commercially reasonable information regarding the foregoing requirements to support RTX’s obligations under the Act.

25. GLOBAL CHEMICAL REGULATIONS AND MATERIALS OF CONCERN

25.1. To the extent the Goods contain, or the manufacturing processes for the Goods use, chemical substances subject to Global Chemical Regulations or Materials of Concern (“MOC”), as defined below, Supplier shall:

25.1.1. Comply with all applicable Laws regarding the global regulation of chemicals, including but not limited to any: (i) registration, notification, authorization, restriction, or ban obligations; and (ii) hazard classification, labeling, packaging, Safety Data Sheet, or safe use compliance and communication obligations (the “Global Chemical Regulations”).

25.1.2. Cooperate with Buyer’s efforts to comply with Global Chemical Regulations and applicable customer requirements and to develop products and manufacturing processes that minimize risk to human health and the environment. Such cooperation includes, and generally requires information and documentation in advance of shipment, but is not limited to: (i) investigating and communicating to Buyer the nature and extent of any MOCs contained in the Goods or in the processes used to manufacture, assemble, use, maintain, or repair any Goods; (ii) providing all reasonably necessary documentation to verify the material composition, on a substance by substance basis, including quantity of each MOC contained in any Goods; (iii) providing Buyer with safe use communications and safety data sheets; (iv) promptly responding to Buyer’s requests for information, in the form requested by Buyer, regarding MOC used or intended to be used in connection with the Goods and related regulatory controls such as use restrictions and permit and authorization requirements; (v) upon request, cooperating with efforts to obtain necessary regulatory approval(s); and (vi) using the tools and forms provided by Buyer through the RTX Supplier Site, or other means.

For purposes of this Section, “MOC” means substances that are substances of concern to Buyer or Buyer’s customer identified in a Materials of Concern list made available through the RTX Supplier Site or provided through other means.

26. COMPLIANCE COVENANTS

26.1. Supplier represents and warrants that:

- 26.1.1. Supplier has not offered or given and shall not offer or give anything of value (in the form of entertainment, gifts, gratuities, or otherwise) to Buyer's employees or representatives for the purpose of obtaining any Order or favorable treatment under any Order;
- 26.1.2. Supplier has not made, nor will it make, or offer to make any political contributions, or pay, or offer to pay any fees or commissions in connection with any Order; and
- 26.1.3. Supplier Personnel assigned to perform Buyer work shall remain free of any actual or apparent conflicts of interest with Buyer, including, but not limited to, the existence of conflicting roles that might bias Supplier or Supplier Personnel's judgment, or circumstances that may create an unfair competitive advantage for Supplier. Supplier shall ensure that any actual, apparent, or potential conflicts of interest are properly identified and mitigated by Supplier. Supplier shall promptly notify Buyer of any change in circumstances that creates an actual, apparent, or potential conflict of interest.

Any breach of this warranty shall be a material breach of each and every contract between Buyer and Supplier.

26.2. If Supplier engages directly or indirectly in representing, lobbying, marketing, or advocating on behalf of Buyer in connection with U.S. or non-U.S. government contract or procurement activities, Supplier shall conduct affirmative screening of Supplier Personnel proposed for engagement in such activities to ensure that any such activities will not result in a violation of U.S. or non-U.S. post-government employment (e.g., "Revolving Door") Laws.

27. SUPPLIER CODE OF CONDUCT

27.1. Supplier shall provide a written certification of the method of destruction and its completion to Buyer.
- 28.9. Technology Control Plan. When the terms of an Agreement or Order require access to or possession of Technical Data controlled under the ITAR or at an Anti-Terrorism level or higher under the Export Administration Regulations (“EAR”), or the equivalent level of controls under applicable non-U.S. GT Laws, Supplier shall create and follow a Technology Control Plan (“TCP”) that, at a minimum, incorporates the following elements: (i) facility security; (ii) GT compliance training program; (iii) information technology security; (iv) record keeping requirements; (v) restricted party screening as defined above in this Section; (vi) Supplier Personnel oversight, and (vii) visitor management. Supplier agrees in all other cases to serve as importer of record and to be responsible for Customs clearance and for payment of all duties, taxes, and fees for Goods entering the U.S. or other relevant country. If Supplier acts as importer of record, the price may include, if separately stated on Supplier’s invoice, duties, taxes, and fees resulting from that importation, unless Buyer has furnished a valid exemption certificate or other evidence of exemption. For any Order that includes customs clearance services, such services shall be quoted and charged at a fixed sum and performed by Supplier as the importer of record in accordance with any Program Specific Terms incorporated into the Order. In no event shall an Order that includes customs clearance services allow or provide for contingent or success fees.

Buyer may use all or any part of the value of the Order, including the value of any subcontracts placed by Supplier for the Order to satisfy international offset or industrial participation obligations of Buyer, Buyer's Affiliates, or any entity to which Buyer transfers such value.

29.2. Supplier shall support Buyer in meeting Buyer's offset requirements in proportion to the value of the Goods and Services supplied by Supplier to the value of the end item sold by Buyer into the particular country.

29.3. 30. ASSIGNMENT

Any assignment by Supplier of an Agreement or Order, in whole or in part, without Buyer's prior written consent shall be null and void and shall constitute a material breach of such Agreement or Order.

31. SUBCONTRACTING

31.1. Supplier may not delegate or subcontract all or substantially all of its rights, responsibilities, or obligations due or to become due under the Order (collectively, "Subcontract") without the prior written consent of the Buyer.

31.2. Any such Subcontracting by Supplier without Buyer's prior written consent shall be wholly void, invalid, and totally ineffective for all purposes. In the case of any Subcontracting, Supplier shall perform all sub-tier supply management activities that are necessary for the on-time delivery of Goods and Services conforming to the requirements set forth herein. Supplier shall be solely and fully responsible for monitoring its subcontractors under all provisions of the applicable subcontracts, and for ensuring that each of its subcontractors comply with the requirements set forth herein. Supplier shall remain fully liable to Buyer for, and shall be Buyer's sole point of contact for, all aspects of proper performance of the Order, regardless of (i) any Subcontracting; (ii) Buyer approval of the subcontractors; or (iii) Supplier's failure to ensure the relevant Subcontracts contain provisions that comply in substance with the requirements set forth herein.

32. CHANGE IN CONTROL OR GRANT OF SECURITY INTEREST

“Change in Control” means and is deemed to have occurred if there is (i) a change in the beneficial ownership of Supplier, either directly or indirectly, of 25% or more; (ii) any change, of any amount, in the beneficial ownership of Supplier, either directly or indirectly, which involves a direct or indirect competitor of Buyer; (iii) any change in ownership or control of Supplier involving a country designated under ITAR Section 126.1 or EAR Part 740, Supp. No. 1, Country Group D:5, E:1, or E:2; (iv) a sale, lease, exchange, transfer, or other disposition, directly or indirectly, of substantially all of either (a) the assets of Supplier or (b) the assets Supplier uses to perform its obligations under an Agreement or Order; or (v) the entry by Supplier or its Affiliate into any agreement contemplating any of the foregoing transactions.

“Security Interest” means an interest in the assets of Supplier by any third party or parties, collectively, that accounts for a value equal to 25% or more of the Supplier’s total assets.

32.2. No less than 90 days prior to the effective date of a potential Change in Control or grant of Security Interest, Supplier will promptly notify Buyer in writing thereof (including the identity of and reasonable information regarding the potential third party(ies)) and obtain Buyer’s written consent prior to the effectiveness of such Change in Control or grant of Security Interest, consistent with applicable Law and confidentiality restrictions. In the event of a Change in Control or grant of Security Interest by Supplier, Buyer shall have the right to (i) require Supplier to obtain a guarantee from the new controlling party or secured party or other adequate assurances of performance, as applicable; and (ii) extend the effective term of an Agreement for up to an additional 36 months, under the pricing and other terms and conditions contained herein, by providing written notice thereof to Supplier. In the event such consent is not sought or obtained in accordance with the terms hereof, Buyer shall have, in addition to the rights described above, the right to terminate the Agreement and/or Order, or any portion thereof, for default without a right to cure and without any liability or obligation whatsoever to Supplier for the portion terminated and Buyer’s rights and remedies as set forth in the Section herein entitled “Termination for Default” shall apply.

32.3. In addition, Buyer shall have 180 days following its receipt of notice of the foregoing or the effective date thereof, whichever is later, to inform Supplier, upon 30 days advance written notice, of Buyer’s intention to terminate the Agreement and/or Order, or any portion thereof, with Buyer’s only obligation to pay for those conforming Goods and Services actually received prior to the expiration of such 30 day period. If Buyer chooses to terminate the Agreement and/or Order under this Section and the remaining term of the Agreement is in excess of 6 months, Supplier shall, at no additional charge to Buyer, (i) provide Buyer with unrestricted access to all information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, utilized by Supplier and necessary for the production of the Goods; (ii) deliver or have unrestricted access to the tooling and test equipment necessary to make or have made the Goods; (iii) provide to Buyer a worldwide, perpetual, non-exclusive, fully paid, irrevocable, license, with a right to grant sublicenses, to Supplier’s information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, to the extent necessary to enable Buyer to make, have made, use, sell, and license the Goods; and (iv)

assist and compensate Buyer for the costs associated with transitioning to another supplier or Buyer assuming the production of the Goods itself, protecting the tooling and other equipment necessary for production of the Goods, and taking other reasonable steps to ensure the Goods are produced without interruption according to Buyer's Specifications.

33. STOP WORK ORDER

Buyer may, from time to time, require Supplier to stop all or any portion of the work called for by the Order for a period of up to 120 days at each such time, or such longer period of time as may be required by Buyer's Customers ("Stop Work Period"). Upon receipt of written notice detailing the length and scope of the Stop Work Period, Supplier shall immediately comply with its terms at no charge. Within the Stop Work Period, Buyer may either: (i) cancel the stop-work order and Supplier shall resume work; or (ii) terminate the work covered by the stop-work order, for default or convenience, as the context requires, in accordance with the provisions of the Order. If Buyer has not exercised its rights set forth in either (i) or (ii) above prior to the expiration of the Stop Work Period, then at least 30 days prior to said expiration, Supplier shall notify Buyer of its intent to resume work under the applicable Order and shall obtain Buyer's written consent prior to resuming work.

34. FORCE MAJEURE

- 34.1. Supplier shall be liable for any failure or delay in performance in connection with an Order, except where such failure or delay results from causes that are, at one and the same time, unforeseeable, unavoidable, outside of its control and without its fault or negligence, provided Supplier gives Buyer, within 3 days of Supplier's learning of such cause, written notice to the effect that a failure or delay by Supplier will occur or has occurred (a "Force Majeure Event"). If a failure or delay in performance is caused by an event affecting any of Supplier's subcontractors, such failure or delay shall not be excusable unless such event is a Force Majeure Event as defined above and the good or service to be provided by such subcontractor is not obtainable by Supplier from other sources in time for timely delivery of the Goods to Buyer. Buyer may cancel any Order without liability to Supplier for its purchase of any Goods affected by Supplier's failure or delay in performance and, if the delay is expected to last for a period that could impact deliveries to Buyer's Customers, Buyer may cancel, without liability, any portion of or the entire Order.
- 34.2. Buyer shall be excused for any failure or delay in performance due to any cause beyond its reasonable control, including an unforeseen reduction in demand or any cause attributable to Buyer's Customers.

35. DUTY TO PROCEED

Supplier shall proceed diligently with the performance of the Order. Except as expressly authorized in writing by Buyer, no failure of Supplier and Buyer to reach any agreement regarding a dispute related to any Order shall excuse Supplier from proceeding with performance and delivery obligations during the pendency of such dispute.

36. ASSURANCE OF PERFORMANCE

At any time, if Buyer, in its reasonable discretion, believes that Supplier may not have the ability, for any reason, to continue performing any Order, including, without limitation, any material change to Supplier's financial condition, balance sheet, or its credit or similar rating, Buyer may request, and Supplier shall provide, written adequate assurances from Supplier of its ability, desire, and intent to continue performing. Buyer will specify the nature of its concerns, and Supplier will provide Buyer with documents, financial data, or other information needed to satisfy Buyer's concerns. Further, Supplier will immediately notify Buyer in the event Supplier believes it may be unable to pay its debts when due or there is a material change in Supplier's financial position, balance sheet or its credit or similar rating. In the event either or both Parties have concern about Supplier's ability to continue its performance, the Parties will coordinate to ensure that Buyer receives Goods and Services without interruption in accordance with the Order. In particular, Supplier will assist and compensate Buyer for the costs associated with transitioning to another supplier, Buyer assuming the production of the Goods or performance of the Services itself, protecting the tooling and other equipment necessary for production of the Goods and performance of the Services, and taking other reasonable steps to ensure the Goods are produced and Services performed without interruption according to Buyer's Specifications. Buyer shall also have the right to require Supplier to (i) obtain a guarantee from a controlling party of, or a secured party to, Supplier, if applicable, and (ii) implement remedial actions directed by Buyer to improve Supplier's performance under the Order.

37. SETOFF

Buyer and Buyer's Affiliates may withhold, deduct and/or set off all money due, or which may become due to Supplier arising out of Supplier's performance under any Order or any other transaction with Buyer or Buyer's Affiliates.

38. GOVERNING LAW AND FORUM

- 38.1. The Agreement and any Order shall be interpreted in accordance with the plain English meaning of its terms and the construction thereof shall be governed by the Laws in force in the State of New York, USA without regard to conflicts of law principles, except that the United Nations Convention on Contracts for the International Sale of Goods dated April 11, 1980, as amended to date, will not apply. Buyer may, but is not obligated to, bring any action or claim relating to or arising out of an Order in the appropriate court in Connecticut, and Supplier hereby irrevocably consents to personal jurisdiction and venue in any such court, hereby appointing the pertinent Secretary of State or other applicable government authority as agent for receiving service of process. If Supplier or any of its property is entitled to immunity from legal action on the grounds of sovereignty or otherwise, Supplier hereby waives and agrees not to plead such immunity in any legal action arising out of the Agreement and/or Order. To the extent permitted by applicable Law, the Parties waive any right they may have to a trial by jury.
- 38.2. Any action or claim by Supplier with respect hereto shall also be brought in Connecticut, if Buyer so elects. Accordingly, Supplier shall give written notice to Buyer of any such intended action or claim, including the intended venue thereof, and shall not commence such action or claim outside of such jurisdiction if Buyer, within 30 days from receipt thereof, makes its election as aforesaid. If Buyer and Supplier mutually agree to

participate in alternative dispute resolution, Supplier agrees that all alternative dispute resolution proceedings shall take place in Connecticut.

39. DISPUTE RESOLUTION

- 39.1. Except as provided below, prior to a Party initiating a formal legal proceeding relating to a dispute under the Order, such Party must provide the other with a written request for dispute resolution. Each Party shall, within 5 calendar days after such written request is received, designate a representative who will be responsible for negotiating, in good faith, a resolution of the dispute. Should the representatives fail to reach agreement within 30 calendar days of receipt of the request, executives of each Party shall attempt to resolve the issue within 60 calendar days of receipt of such written request.
- 39.2. Either Party may (i) resort to a formal legal proceeding for equitable relief at any time and (ii) institute litigation in order to avoid the expiration of any applicable limitations period or to preserve a superior position with respect to other creditors.
- 39.3. The dispute resolution procedures set forth herein do not supersede, delay, or otherwise affect any rights of termination that are expressly set forth herein.

40. ORDERS UNDER U.S. GOVERNMENT CONTRACTS

For Orders issued under contracts between Buyer and the U.S. Government Department of Defense or the National Aeronautics and Space Administration, or subcontracts at any tier under such U.S. Government contracts, the terms and conditions of the versions of the “Flowdown of U.S. Government Contract Clauses Under U.S. Government Contracts” and “Flowdown Updates” documents in effect on the date of the particular Order shall apply. These documents are made available at the RTX Supplier Site.

41. SUPPLIER DIVERSITY

- 41.1. For work performed in the U.S. under Orders placed by U.S. Buyers, Supplier shall exercise reasonable commercial efforts to (i) use small and diverse subcontractors, including minority-owned, women-owned, veteran-owned, service-disabled veteran-owned, disability-owned, lesbian, gay, bisexual and transgender-owned, and subcontractors that are located in a historically underutilized business zone; and (ii) participate in outreach and reporting efforts to increase Supplier’s small and diverse spend.
- 41.2. For Suppliers with a total combined annual sales with RTX and its Affiliates that is greater than or equal to \$50,000,000, Supplier shall, upon Buyer’s reasonable request, report any of its small and diverse subcontractor spend under the Order to Buyer on a quarterly basis, or as otherwise reasonably directed by Buyer, through Buyer’s Tier 2 reporting platform, which can be found on the RTX Supplier Site.
- 41.3. For Suppliers that meet the requirements of a small or diverse supplier, Supplier shall, upon Buyer’s reasonable request, obtain third party certification of such status through a national certifying agency, such as those listed on the RTX Supplier Site.

42. SUPPLIER SUSTAINABILITY

In support of Buyer's commitment to reduce environmental, social, and governance ("ESG") risk in the aerospace and defense industry, upon Buyer's request, Supplier shall complete an ESG sustainability assessment, at no additional cost to Buyer, with Buyer's ESG assessment provider. A link to the assessment is available on the RTX Supplier Site.

43. NEWS RELEASES, PUBLICITY AND OTHER DISCLOSURES

Supplier shall not make or authorize any news release, advertisement, or other disclosure that relates to the Agreement or Order or the relationship between Buyer and Supplier, deny or confirm the existence of the Agreement or Order, or make use of Buyer's name or logo without the prior written consent of Buyer.

44. DELAYS

Whenever there is an actual delay or threat to delay the timely performance of the Order, Supplier shall immediately notify Buyer in writing of the probable length of any anticipated delay and take, and pay for, all activity to mitigate the potential impact of any such delay.

45. REMEDIES

Supplier shall be liable for any costs, expenses and damages incurred by Buyer related to or arising from Supplier's acts or omissions under the Agreement and/or Order. Except as expressly provided herein, the rights and remedies set forth herein are cumulative and in addition to any other rights or remedies that the Parties may have at law or in equity.

46. PARTIAL INVALIDITY

If in any instance any provision of the Agreement or Order shall be determined to be invalid or unenforceable under any applicable Law by any competent court or arbitration tribunal, such provision shall be ineffective only to the extent of such prohibition or unenforceability. The remaining provisions shall be given effect in accordance with their terms unless the purposes of the Agreement or Order can no longer be preserved by doing so. The provision declared invalid or unenforceable shall be deemed to be restated to reflect as nearly as possible the meaning and essence of such provision without rendering such amended provision invalid or unenforceable, to the extent permissible by applicable Law.

47. SURVIVAL

All rights, obligations, and duties hereunder, which by their nature or by their express terms extend beyond the expiration or termination of the Agreement or Order, including but not limited to warranties, indemnifications, intellectual property (including rights to and protection of Intellectual Property and Proprietary Information), and product support obligations shall survive the expiration or termination of the Agreement or any Order.

48. NO WAIVER

No failure of any Party to exercise any right under, or to require compliance with, the Order, nor any knowledge of past performance at variance with the Order, shall constitute a waiver by such Party of its rights hereunder, except to the extent expressly stated in writing. Nor shall any such failure or knowledge prevent such Party from enforcing any rights in the future under similar circumstances.

49. RELATIONSHIP OF THE PARTIES

The relationship between Supplier and Buyer will be that of independent contractors and not that of principal and agent, nor that of legal partners. Neither Party will represent itself as the agent or legal partner of the other Party nor perform any action that might result in other persons believing that it has any authority to bind or enter into commitments on behalf of the other.

50. INTERPRETATION

These Terms and Conditions, and any Agreement or Order, shall be construed as if drafted jointly by the Parties and no provision therein shall be interpreted for or against any Party because that Party or that Party's legal representative drafted the provision.

51. ORDER OF PRECEDENCE

- 51.1. The order of precedence provision in an Agreement, if any, shall prevail over this Section.
- 51.2. In the event of any conflict between the provisions applicable to the Order and these Terms and Conditions, such conflict shall be resolved by giving precedence to the provision in the following order of priority:

“Orders Under U.S. Government Contracts” (collectively, the “USG Contract Clauses”) the USG Contract Clauses shall control.
