

I Sustainable Technology Partnerships & Collaborations

Industry Associations

Partner organization	Our role	Our actions
Aerospace Industries Association (AIA)	Executive Committee member; Chair of the Environment and Sustainability Committee	Lead the Environment and Sustainability Committee and support the Sustainability Subcommittee to drive progress toward efficient aviation technology and operations.
American Institute of Aeronautics and Astronautics (AIAA)	Corporate member	Support initiatives that foster technical excellence and improve workforce development through industry collaboration.
Air Transport Action Group (ATAG)	Board member	Support the advancement of civil aviation sustainability goals to achieve net-zero CO ₂ emissions by 2050.
Airlines for Europe (A4E)	Member; member of Airspace & Sustainability Working Groups	Advocate for European policies supporting sustainability in the aerospace sector in alignment with other industry alliances.
Commercial Aviation Alternative Fuels Initiative (CAAFI)	Founding member	Support advocacy for the acceleration of sustainable aviation fuel (SAF) development and uptake across all segments of the aviation industry.
American Chamber of Commerce to the European Union (AmCham EU)	Member of Technology Committee; member and co-chair of the Transport Energy and Climate Committee	Support the European Commission roadmap toward carbon neutrality.
Gas Turbine Association (GTA)	Association Chair	Advocate for public policies and regulations that support and promote the expanded use of gas turbine technology in all relevant sectors of the economy.
General Aviation Manufacturers Association (GAMA)	Board member and member of Environment Committee	Promote steps taken by aviation manufacturers, and the entire aviation value chain, to reduce the environmental impact of the business and general aviation industry.
International Aerospace Environmental Group (IAEG)	Founding member; Executive Committee; Board members; Work Group leadership	Collaborate on environmental solutions, policies and voluntary standards in a diverse range of topics including technologies, GHG management and disclosure, and supply chains for the aerospace industry.
International Air Transport Association (IATA)	Strategic partner	Promote sustainable solutions that are critical to the future of the global aviation industry.
Zero Impact Aviation Alliance (ZIAA)	Founding member	Contribute to research-driven thought leadership on solutions to reduce the environmental impacts of aviation, while ensuring that air transportation can continue to serve humanity and connect the world.

Standards

Partner organization	Our role	Our actions
ASTM International	Committee member	Work with ASTM partners on testing and qualification of new SAF feedstocks, pathways and blends and developing SAF standards.
SAE International	Contributor	Establishing standards for certification of hybrid-electric flight.

Government

Partner organization	Our role	Our actions
European Commission’s Alliance for Zero-Emission Aviation (AZEAA)	General Assembly member	Support advocacy for European policies that accelerate decarbonization of the aviation industry.
FAA NextGen Advisory Committee	Member	Collaborate with airlines and industry partners to recommend air traffic management modernization programs and priorities to improve aircraft efficiencies in all phases of operations.
International Civil Aviation Organization (ICAO) Committee on Aviation Environmental Protection (CAEP)	Working group member	Participate in the development of new policies, standards and recommended practices related to the environmental impact of aviation.
National Academies’ Aeronautics Research and Technology Roundtable (ARTR)	Board member	Collaborate to explore critical issues related to the U.S. aeronautics research agenda and options for public private partnerships that could support rapid, reliable knowledge transfer.
NATO Industrial Advisory Group (NIAG)	Member	Working to ensure Allied capabilities in climate change.
