14. INSURANCE

- 14.1. Without limiting Supplier's duty to hold harmless and indemnify hereunder, Supplier agrees to secure, maintain and require its subcontractors to maintain, as a minimum the insurance noted in the Order or, if none are specified, the following minimum insurance coverages and limits:
 - 14.1.1. Workers' Compensation Insurance, inclusive of an alternate employer endorsement, in an amount sufficient by virtue of the laws of the U.S., foreign country, state, or other governmental subdivision in which the work or any portion of the work is performed and Employer's Liability Insurance in the minimum amount of \$1,000,000 for any one occurrence;
 - 14.1.2. Commercial General Liability Insurance and Umbrella Liability Insurance, including Premises Liability and Contractual Liability, in which the limit of liability for property

damage and bodily injuries, including accidental death, shall be at a minimum, a combined single limit of \$5,000,000 for any one occurrence.

- 14.2. In addition to the minimum insurance requirements set forth above, Supplier also agrees to secure, maintain and require its subcontractors to maintain, the additional insurance coverages and limits relevant to Supplier's performance of the Order, as specified in Attachment A hereto (the "Additional Insurance Coverage Requirements").
- 14.3. All such insurance shall be issued by companies authorized or permitted to do business under the laws of the State or jurisdiction in which all or part of the Services are to be performed, and must have an AM Best financial rating of A- or better or an equivalent rating as produced by another rating agency acceptable to Buyer.
- 14.4. The insurance coverages described in these Terms and Conditions and in an Order, shall be in a form satisfactory to Buyer, and shall contain a provision prohibiting cancellation or material change except upon at least 30 days' (7 days' in the case of War Risks Insurance) prior notice to Buyer. All such insurance policies or self-insurance will be primary in the event of a loss arising out of Supplier's performance of work and shall provide that where there is more than one insured the policy will operate, except for the limits of liability, as if there were a separate policy covering each insured and shall operate without right of contribution from any other insurance carried by Buyer. Certificates evidencing such insurance and endorsements naming RTX and Buyer as an additional insured under the Commercial General Liability and Umbrella Liability insurance or, in the case of All Risk Property Insurance, naming RTX and Buyer as a loss payee, shall be filed with Buyer upon execution of an Agreement or any Order and before commencement of any work hereunder, and within 30 days after any renewals or changes to such policies are issued. To the extent permitted by law, Supplier and its insurer(s) agree that subrogation rights against RTX and Buyer are hereby waived under the Commercial General Liability, Umbrella Liability, Auto Liability and Workers Compensation insurance; such waiver shall be reflected on the insurance policies. Supplier shall, if requested by Buyer, advise Buyer of the amount of available policy limits and the amounts of any self-insured retention. The certificate of insurance shall identify the contract number or work to be performed and shall acknowledge that such coverage applies to liabilities incurred by Supplier, its employees, invitees or agents under an Agreement or any Order and that such insurance shall not be invalidated by any act or neglect of Supplier whether or not such act or neglect is a breach or violation of any warranty, declaration or condition of the policies.
- 14.5. Buyer's failure to monitor compliance or unsatisfactory compliance with the terms of these insurance requirements does not modify or waive Supplier's obligations hereunder.
- 14.6. Any self-insurance, self-retained layer, deductibles, and exclusions in coverage in the insurance policies described above or in the applicable Additional Insurance Coverage Requirements, will be assumed by, for the account of, and at the sole risk of Supplier. In no event will the Supplier's liability be limited to the extent of the minimum limits of insurance required herein.

15. TERMINATION FOR CONVENIENCE

- 15.1. Buyer may, at any time, terminate all or part of an Order or Agreement for its convenience upon written notice to Supplier.
- 15.2. Upon termination, in accordance with Buyer's written direction, Supplier will immediately: (i) cease work and place no further subcontracts or orders for materials, services, or facilities, except as necessary to complete the continued portion of the Order; (ii) prepare and submit to Buyer an itemization of all completed and partially completed Goods and/or Services; (iii) if requested by Buyer, deliver to Buyer any and all Goods and/or Services completed up to the date of termination at the pre-termination Order price; and (iv) if requested by Buyer, deliver any work-in-process.
- 15.3. Buyer shall not be liable to Supplier for an Order terminated prior to the commencement of Lead Time.
- 15.4. In the event Buyer terminates an Order or Agreement for its convenience after performance has commenced, Buyer will compensate Supplier only for the actual and reasonable work-in-process costs incurred by Supplier on Goods and/or Services required to be delivered within the Lead Time period, calculated from Buyer's issuance of the notice of termination. If the Order does not specify Lead Time, Lead Time shall be the reasonable average time required to manufacture and deliver the Goods and/or perform the Services. Supplier shall use reasonable efforts to mitigate its own and Buyer's liability under this Section. In order to receive compensation, Supplier must submit its termination claim, by means of a form and process directed by Buyer, within 90 days from the effective date of the termination.
- 15.5. Buyer shall not be liable to Supplier for costs or damages other than as described above, and in no event for lost or anticipated profits, or unabsorbed indirect costs or overhead, or for any sum in excess of the price allocated to the portion of the Order terminated.
- 15.6. Notwithstanding anything to the contrary in these Terms and Conditions, an Agreement, or an Order, Buyer shall not be liable to Supplier for any costs or damages whatsoever for a termination for convenience with respect to a particular program of any of Buyer's Customers, if the termination is due to the cancellation, in whole or in part, of such program by Buyer's immediate customer(s) or Buyer's ultimate customer(s) or the bankruptcy or insolvency of such customer(s).

16. TERMINATION FOR DEFAULT

- 16.1. Buyer may, by written notice, terminate an Order or Agreement, or any portion thereof, for default without any liability or obligation whatsoever to Supplier for the portion terminated, in the following circumstances: (i) Supplier fails to perform any obligation hereunder, including a delivery obligation; (ii) when Buyer has reasonable grounds for insecurity, and Supplier fails to provide adequate assurances of performance within 10 days following Buyer's demand or, (iii) should Supplier (a) become insolvent, (b) become unable to pay its debts as they mature, (c) make a general assignment for the benefit of creditors, (d) have a receiver appointed for the whole or any substantial part of its assets, or (e) become

in any way the subject of a bankruptcy petition (each in Subsection (iii), a "Supplier Insolvency").

- 16.2. Buyer shall have no liability in relation to those Goods and/or Services terminated for Supplier's default. Supplier shall be liable to Buyer for any and all expenses, costs, and damages including increased re-procurement costs, requalification costs, and other non-recurring costs, except in the circumstance of any failure or delay constituting an "Excusable Delay" as set forth in the Section herein entitled "Force Majeure".
- 16.3. If the Order or Agreement is entirely or partially terminated under this Section other than pursuant to a Supplier Insolvency, Buyer, in addition to any other rights Buyer may have, may require Supplier, at no charge to Buyer, to: (i) deliver to Buyer all information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, utilized by Supplier in performing the Order; (ii) deliver the tooling and test equipment necessary to make or have made the Goods, perform the Services and provide technical and transition assistance; and (iii) provide to Buyer a worldwide, perpetual, non-exclusive, fully paid, irrevocable, license, with the right to grant sublicenses, to Supplier's information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, to the extent necessary, to enable Buyer to make, have made, use, sell and license the Goods and/or perform, or have performed, the Services.
- 16.4. In addition to and not in lieu of other rights to Intellectual Property otherwise set forth in the Order and these Terms and Conditions, Supplier hereby grants to Buyer a worldwide, perpetual, non-exclusive, fully paid, irrevocable, license ("Additional License"), with the right to grant sublicenses, to Supplier's information, data, know-how, tooling, test equipment and other Intellectual Property, including without limitation proprietary and manufacturing information to enable Buyer to make, have made, use, sell and license the Goods and/or perform, or have performed, the Services, subject to Buyer's agreement not to exercise such rights under this Additional License except in the event of a Supplier Insolvency, whether or not the Order is terminated. As part of such Additional License, Supplier shall upon Buyer's written request and at no charge to Buyer, promptly (i) deliver to Buyer all information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, utilized by Supplier in performing the Order, and (ii) deliver the tooling and test equipment necessary to make or have made the Goods, provide the Services and provide technical and transition assistance in order to ensure Buyer's continuing requirements for Goods and/or Services.
- 16.5. If, after notice of termination under this Section, it is determined that Supplier was not in default, the rights and obligations of the Parties shall be the same as if the notice of termination had been issued pursuant to the Section herein entitled "Termination for Convenience". In such case, Supplier shall not be entitled to any remedy other than as provided for in the Section herein entitled "Termination for Convenience".

17. INTELLECTUAL PROPERTY RIGHTS (FOR NON-U.S. GOVERNMENT ORDERS)

- 17.1. "Background Intellectual Property" shall mean all Intellectual Property other than Foreground Intellectual Property.

- 17.2. "Foreground Intellectual Property" shall mean all Intellectual Property and tangible work product conceived, created, acquired, or first reduced to practice in connection with the Order.
- 17.3. Each Party retains its existing rights in Background Intellectual Property.
- 17.4. Buyer shall own all Foreground Intellectual Property. Supplier shall disclose to Buyer all Foreground Intellectual Property. If not expressly required to be delivered in the Order, Supplier shall deliver to Buyer all Foreground Intellectual Property upon written request from Buyer. Supplier hereby irrevocably assigns and promises to assign to Buyer all right, title and interest to all Foreground Intellectual Property. Supplier agrees to do all things reasonably necessary to enable Buyer to secure and perfect Buyer's Foreground Intellectual Property rights, including, without limitation, executing specific assignments of title in Foreground Intellectual Property by Supplier to Buyer and cooperating with Buyer at Buyer's expense to defend and enforce Buyer's rights in any such Foreground Intellectual Property. All Foreground Intellectual Property shall be considered Buyer's Proprietary Information (defined hereinafter). Supplier agrees that, for any works of authorship created by Supplier or any employees or any others used by Supplier in the course of the Order, those works that come under one of the categories of "Works Made for Hire" in 17 U.S.C. §101 shall be considered "Works Made for Hire." For any works of authorship that do not come under such categories, Supplier, warranting that it has the right to do so, hereby assigns and promises to assign all right, title, and interest to any copyright in such works to Buyer and will execute, or cause to be executed at Buyer's expense, any documents required to establish Buyer's ownership of such copyright.
- 17.5. Supplier represents and warrants that Supplier has sufficient rights in all Goods, Services, and Intellectual Property and other items that Supplier uses or transfers to Buyer in connection with the Order to allow Supplier to lawfully comply with the Order.
- 17.6. Supplier hereby grants and promises to grant to Buyer and Buyer's Affiliates a worldwide, non-exclusive, perpetual, fully-paid, irrevocable, transferable license to Background Intellectual Property (i) to use, sell, offer for sale, import, export, copy, adapt, embed, modify, make derivative works, make and have made Goods and Services, and (ii) to enable Buyer to practice the Foreground Intellectual Property.
- 17.7. Supplier hereby irrevocably waives and promises to waive all moral rights to the extent permissible by law, all rights of privacy and publicity, and the like, in all Goods provided to Buyer and in all activities in connection with the Order.
- 17.8. Supplier represents and warrants that Supplier shall not provide, in the performance of the Order, any software, including without limitation source code, compiled code, embedded software, firmware, free software, open source software, freeware, general public license-governed software, or any electronic hardware, including without limitation free hardware designs, or open source hardware designs, in any form that is subject to any obligations or conditions that may provide a legal right to any third party to access such software, and/or electronic hardware, or that could otherwise impose any limitation or condition on Buyer's use, reproduction, modification, distribution or conveyance of such software or electronic hardware.

- 17.9. Except as expressly authorized herein, nothing in the Order shall be construed as Buyer granting Supplier a license in or any right to use any of Buyer's Intellectual Property other than in the performance of work under the Order.

18. INTELLECTUAL PROPERTY INDEMNIFICATION

- 18.1. Supplier shall indemnify and hold harmless Buyer, Buyer's Customers, Affiliates, and subsidiaries, their agents, directors, officers, and employees, and each subsequent purchaser or user, from any losses, costs, damages, and liabilities, including, without limitation, any attorney's fees, court costs and fines, arising from any potential or actual claim, suit, injunction, action, proceeding, or investigation alleging infringement or violation of any Intellectual Property rights or license, related to the manufacture, use, sale, offer for sale, import, or other exploitation of any Goods or Services delivered or performed in connection with the Order ("Claim").
- 18.2. Supplier shall not be liable for any Claim based on Supplier's compliance with any Specification created by Buyer, unless: (i) Supplier could have complied with Buyer's Specification using a solution that was non-infringing; (ii) the relevant portion of the Specification was derived from, recommended by, or provided by, Supplier; or (iii) Supplier knew or should have known of a Claim or potential Claim and did not promptly notify Buyer in writing.
- 18.3. Supplier shall, upon written notice from Buyer of a Claim, promptly assume and diligently conduct the entire defense of a Claim at its own expense. Insofar as Buyer's interests are affected, Buyer shall have the right, at its own expense and without releasing any obligation of Supplier, to participate and intervene in a Claim. Buyer shall have the right to reasonably reject counsel selected by Supplier. Supplier shall not enter into any settlement without Buyer's prior written consent, which shall not be unreasonably withheld.
- 18.4. Buyer may supersede Supplier in the defense of any Claim, and assume and conduct the defense at Buyer's sole discretion. In such an event, Supplier shall be released from any obligation to pay for attorneys' fees and court costs, but not settlement or damages, and any such release is expressly conditioned on Supplier's complete cooperation with Buyer in Buyer's defense of such Claim at Buyer's expense. Buyer shall not enter into any settlement without Supplier's prior written consent, which shall not be unreasonably withheld.
- 18.5. If the manufacture, use, sale, offer for sale, import, export, or other exploitation of any Goods or Services is enjoined by a court, if delivery is precluded by a government entity, or should Supplier refuse to provide or supply any Goods or Services to avoid a potential third party claim, Supplier shall avoid any disruption to Buyer and shall (i) secure for Buyer the right to provide, use or sell such Goods or Services; (ii) modify or replace such Goods or Services with equivalent non-infringing Goods or Services; or (iii) provide such other solution acceptable to Buyer. Supplier shall reimburse Buyer for Buyer's costs incurred in obtaining all internal, external and Buyer's Customer approvals, qualifications, certifications, and the like, necessary for making, using, providing and selling alternate non-infringing Goods or Services. Supplier shall refund to Buyer the purchase price of any such Goods or Services that Buyer is prohibited from providing, using, selling, offering for sale, importing, exporting, or otherwise exploiting.

19. PROPRIETARY INFORMATION

- 19.1. In order to deliver the most effective and efficient Goods and/or Services possible and meet Buyer's requirements for those Goods and/or Services, Buyer and Supplier anticipate the need to exchange Proprietary Information (as defined below) for the design, development, testing, manufacture and/or repair of Goods and/or Services, as applicable in connection with an Order and/or Agreement. In recognition of the value of that Proprietary Information, as well as to protect Buyer's goodwill and reputation in its products, Supplier agrees to the terms and conditions of this Section.
- 19.2. "Proprietary Information" shall mean all information, knowledge or data (including without limitation financial, business, and product strategy information; product specifications; product designs; procedures; studies; tests; and reports) in written, electronic, tangible, oral, visual or other form, (i) disclosed by, or obtained from, Buyer or (ii) conceived, created, acquired, or first reduced to practice in connection with an Order. If Buyer furnishes sample products, equipment, or other objects or material to Supplier, the items so received shall be used and the information obtained from said items shall be treated as if they were Proprietary Information disclosed in connection with an Order.
- 19.3. Unless Supplier has received Buyer's express written consent to the contrary, Supplier shall (i) use the Proprietary Information solely for the purposes of an Order, and not for any other purpose (including, without limitation, designing, manufacturing, selling, servicing or repairing equipment for entities other than Buyer; providing services to entities other than Buyer; or obtaining any government or third party approvals to do any of the foregoing); (ii) safeguard the Proprietary Information to prevent its disclosure to or use by third parties; (iii) not disclose the Proprietary Information to any third party; and (iv) not reverse engineer, disassemble, or decompile the Proprietary Information.
- 19.4. Supplier may disclose the Proprietary Information to officers, directors, employees, contract workers, consultants, agents, affiliates or subcontractors of Supplier who have a need to know such Proprietary Information for the purposes of performing the Order and who have executed a written agreement with Supplier obligating such entity or person to treat such information in a manner consistent with the terms of this Section.
- 19.5. No Order shall restrict Supplier from using or disclosing any information that, as proven by written contemporaneous records kept in the ordinary course of business: (i) is or may hereafter be in the public domain through no improper act or omission of Supplier or a third party; (ii) is received by Supplier without restriction as to disclosure by Supplier from a third party having a right to disclose it; (iii) was known to Supplier on a non-confidential basis prior to the disclosure by Buyer; or (iv) was independently developed by employees of Supplier who did not have access to any of Buyer's Proprietary Information.
- 19.6. If Proprietary Information is required to be disclosed pursuant to judicial process, Supplier shall promptly provide notice of such process to Buyer and, upon request, shall fully cooperate with Buyer in seeking a protective order or otherwise contesting such a disclosure. Disclosure of such requested Proprietary Information shall not be deemed a breach of an Order provided that the obligations of this Section are fulfilled by Supplier.

- 19.7. Buyer shall have the right to audit all pertinent documentation of Supplier, and to make reasonable inspection of Supplier's premises, in order to verify compliance with this Section.
- 19.8. Obligations in this Section regarding Proprietary Information shall continue until such time as all Proprietary Information is publicly known and generally available through no improper act or omission of Supplier or any third party.
- 19.9. Unless required otherwise by law or an Order, Supplier shall promptly return, or otherwise dispose of Proprietary Information as Buyer may direct. Absent contrary instructions, Supplier shall destroy all Proprietary Information one (1) year after termination or completion of the Order and provide written acknowledgement to Buyer of such destruction.
- 19.10. Supplier agrees to cause all information regardless of form (including, for example, electronic, magnetic and optical media, software, and compilations), containing or derived in whole or in part from Proprietary Information to bear the following legend:

This document contains the property of Raytheon Technologies Corporation and/or a Raytheon Technologies Corporation Affiliate. You may not possess, use, copy or disclose this document or any information in it for any purpose, without express written permission. Neither receipt, from any source, nor possession of this document, constitutes such permission. Possession, use, copying or disclosure by anyone without express written permission of Raytheon Technologies Corporation and/or the Raytheon Technologies Corporation Affiliate issuing the Order is not authorized and may result in criminal and/or civil liability.

- 19.11. Notwithstanding any proprietary or confidential labels or markings, all information of Supplier disclosed to Buyer relating to an Order will be deemed non-confidential and the content of the Order may be disclosed by Buyer to any of Buyer's Affiliates, and/or to Buyer's Customer or Buyer's subcontractors and potential subcontractors provided that Buyer's Customer or subcontractors have a need to access or know such information and Supplier has provided its prior written consent to disclose such information of Supplier to Buyer's Customer or Buyer's subcontractors and potential subcontractors. Moreover, Buyer may disclose all Supplier information, in accordance with applicable governmental regulations, to the FAA, the European Aviation Safety Agency (EASA), Transport Canada Civil Aviation (TCCA), any other governing international airworthiness certifying authority, and/or any other department or agency of the U.S. Government, including, without limitation, for the purpose of obtaining necessary government approvals.
- 19.12. Supplier agrees that it will not accept from any third party, or use, any information that appears to be similar to Proprietary Information without first obtaining Buyer's express written consent, except that Supplier may receive solicitations or purchase orders issued by a partner or higher-tier supplier of Buyer that expressly reference a Buyer Order and contain obligations no less stringent than this Section. Supplier shall promptly notify Buyer if Proprietary Information is offered to Supplier by a third party or of the suspected possession of Proprietary Information by a third party.

- 19.13. Supplier acknowledges that exposure to Buyer's Proprietary Information and other Intellectual Property will make it easier for Supplier to manufacture or repair, or to apply for or assist another entity in obtaining FAA or other government approval for, parts that are the same parts or that have the same form, fit and function, as parts Supplier supplies to Buyer pursuant to an Order hereunder. Supplier also acknowledges that Buyer's goodwill and reputation which become associated with Goods supplied by Supplier pursuant to an Order hereunder once approved for use in Buyer's products make it easier for Supplier to manufacture or repair, or to apply for or assist another entity in obtaining FAA or other government approval for those parts, or parts that have the same form, fit and function, for use in Buyer's products. Supplier agrees that it shall not manufacture or repair parts that Supplier supplies to Buyer pursuant to an Order hereunder, or manufacture or repair parts having the same form, fit and function, for use in Buyer's products, or apply for or assist another entity in obtaining FAA or other government approval for any such parts, without Buyer's written consent. Supplier agrees to notify Buyer in writing and to obtain Buyer's written consent prior to manufacturing or repairing any parts, or applying for or assisting another entity in obtaining FAA or other government approval for any parts, for itself or another entity, that have the same form, fit and function as any parts Supplier supplies to Buyer pursuant to an Order hereunder. Supplier's notification shall (i) describe the parts to be manufactured or repaired, or for which application for or assistance to another entity in obtaining FAA or other government approval for such parts is to be provided, (ii) identify the corresponding parts Supplier supplies to Buyer and (iii) provide Buyer with sufficient information to demonstrate that Supplier will manufacture or repair, or apply for or assist another entity in obtaining FAA or other government approval for such parts (as the case may be) without reference to or use of Buyer Proprietary Information or other Buyer Intellectual Property. If Supplier manufactures or repairs any such parts without obtaining Buyer's written consent (or applies for or assists another entity in obtaining FAA or other government approval for such parts), then it shall be considered a breach of an Order and Buyer shall be entitled to injunctive relief and such other remedies as a court may order.
- 19.14. Supplier shall not make accessible or sell completed or partially completed or defective Goods manufactured using or containing Proprietary Information to any unauthorized third parties. Goods not provided to Buyer shall be disposed of in a manner that prevents disclosure of Proprietary Information (including by reverse engineering).
- 19.15. For Proprietary Information exchanged in connection with the Order, the terms of this Section shall supersede any provisions regarding the protection of proprietary information in any other agreements between the Parties.

20. SECURITY FOR RTX INFORMATION

The following provisions are applicable whenever the Supplier will Process RTX Information:

- 20.1. In addition to capitalized terms used herein but defined elsewhere in these Terms and Conditions, an Agreement, and/or Order, the following term shall have the following meaning:
- 20.2. "Security Incident" means (i) any circumstance that involves, or which a Party reasonably believes may involve the actual or potential, (A) accidental or unauthorized access, use,

disclosure, modification, storage, destruction or loss of RTX Information in Supplier's or Supplier Personnel's possession, custody or control; or (B) interference with system operation in an information system or in any medium or format, including paper (hard) copy documents, that subjects RTX Information to risk of unauthorized access, use, disclosure, modification, storage, destruction or loss; (ii) any other similar incident as may be so defined by any Data Privacy Law and by any laws and regulations (national, federal, state and provincial) relating to the protection of RTX Information; or (iii) any breach of Supplier's representations or covenants in these Terms and Conditions, an Agreement and/or an Order regarding safeguarding of RTX Information.

20.3. Supplier agrees to (i) develop, implement, maintain, monitor and update a reasonable, written security program incorporating administrative, technical, organizational and physical safeguards, security measures and security awareness, and (ii) install and implement security hardware and software, in each case, designed to (A) protect the security, availability and integrity of Supplier's network, systems and operations, the Goods and Services and the RTX Information from unauthorized access and use; (B) guard against Security Incidents; and (C) satisfy requirements as set forth in a generally accepted cybersecurity framework, such as ISO/IEC 27001 or NIST 800-53, to establish a resilient control environment or equivalent level of security protection appropriate for the information involved and the then current state of security solutions. As between the Parties, all RTX Information will at all times remain the sole property of Buyer, and Supplier will not have or obtain any rights therein.

20.4. Supplier further agrees to:

20.4.1. Only Process or transfer RTX Information to authorized third parties, in performance of its obligations under an Agreement and/or Order or to comply with legal obligations. Supplier will not make any secondary or other use (e.g., for the purpose of data mining) of RTX Information except (i) as expressly authorized in writing by Buyer in connection with Buyer's purchase of Goods and/or Services hereunder; or (ii) as required by law.

20.4.2. Maintain and implement information security policies which address, at a minimum the domains or categories set forth in a generally accepted cybersecurity framework, such as ISO/IEC 27001 or NIST 800-53, and provide Buyer, upon request, with a SOC 2 (or equivalent) report demonstrating that such domains are addressed in a manner consistent with this Section. Upon Buyer's request, Supplier shall provide Buyer with an updated index or summary of its policies, and indicate any plans, including a timetable for implementation, of planned upgrades to comply with the policies.

20.4.3. Use (i) reasonable efforts, including, but not limited to, the available technology at the time, to implement measures to restrict anyone other than its authorized employees and Buyer and its agents from accessing the RTX Information and (ii) best efforts to segregate (physical and/or logical) all RTX Information into a separate database only accessible by Buyer, and its agents and those employees and agents of Supplier for whom it is appropriate to access to deliver the Goods and/or Services or to maintain the equipment and the program on which it runs, unless otherwise agreed by Buyer. Unless otherwise specified by Buyer in writing or in an Order, Process RTX Information (including for back-up purposes) only on

servers located in the United States or other countries specified in the Order by Buyer, and will not transfer (and will not authorize Supplier Personnel to transfer) RTX Information to, or permit or enable Processing of RTX Information in, any country other than the United States or those specified in the Order by Buyer.

- 20.4.4. Implement reasonable measures to ensure backups of information are conducted, maintained and tested in accordance with a generally accepted cybersecurity framework, such as CIS CSC 10; ISO/IEC 27001:2013 (A.12.3.1, A.17.1.2, A.17.1.3, and A.18.1.3); or NIST SP 800-53 Rev 4. (CP-4, CP-6 and CP-9). Supplier's disaster recovery plan (as may be otherwise required herein) shall incorporate such requirements. All such back-up services are part of the Goods and/or Services and are subject to these Terms and Conditions, including the privacy compliance and data security requirements.
- 20.4.5. Use, and will cause Supplier Personnel to use, adequate forms of encryption or other secure technologies in connection with the Processing of RTX Information, as authorized or permitted under the Agreement and/or Order. Notwithstanding any provision to the contrary herein, unencrypted Buyer Personal Information shall not be stored on any Supplier mobile computing devices (e.g. laptop computers, mobile phones, personal digital assistants, and the like). Supplier will align to a generally accepted cybersecurity framework, such as CIS CSC (13 and 14); ISO/IEC 27001:2013 (A.8.2.3, A.13.1.1, A.13.2.1, A.13.2.3, A.14.1.2, and A.14.3); or NIST SP 800-53 Rev. 4 (SC-8, SC-11 and SC-12), covering Data-at-rest and Data-in-transit protections.
- 20.4.6. Provide Buyer, prior to any termination or expiration of the Agreement and/or Order, with a termination plan that addresses how RTX Information will be returned to Buyer, or destroyed as Buyer may direct, at the end of the Agreement and/or Order and how all RTX Information will be removed from Supplier's equipment and facilities; provided however, that Supplier may retain information stored in routine backups maintained in the ordinary course until such backups are overwritten. This plan should include supplying the data to Buyer in an industry recognized format.
- 20.4.7. Provide information to and reasonably cooperate with Buyer in response to any subpoena or investigation seeking RTX Information in the possession of Supplier. Supplier shall promptly notify Buyer upon the receipt of any request requiring that RTX Information be supplied to a third party.
- 20.4.8. Not provide RTX Information to any third party without the prior written approval of Buyer. A request for Buyer approval shall include agreement by Supplier and such third party that all of the requirements of this provision are applicable to their performance.
- 20.4.9. Maintain data protection processes and systems sufficient to adequately protect specifications, information, data, drawings, software, and other items which are (i) supplied to Supplier by Buyer, or (ii) obtained or developed by Supplier in the performance of the Order or paid for by Buyer (collectively, "Buyer Data"), and to comply with any law or regulation applicable to such data. If a Security Incident occurs, Supplier shall (i) use commercially reasonable efforts to investigate, contain, and remediate the Security Incident, and (ii) notify Buyer in writing

promptly, but not later than forty-eight (48) hours after discovering the Security Incident. The obligations contained in this Section are in addition to, and do not alter, Supplier's obligations under applicable U.S. Government Procurement Regulations, and Supplier shall encrypt emails to Buyer containing details of a Security Incident using industry standard encryption methods.

- 20.5. Promptly following any confirmed Security Incident, whether identified by Supplier or Buyer, Supplier will take steps to mitigate risks posed, consult in good faith with Buyer regarding remediation efforts, and undertake a remediation plan, which Buyer and Supplier mutually agree to be necessary, reasonable or appropriate under the circumstances and commensurate with the nature of the Security Incident, or as requested by any government body. To the extent a Security Incident is directly caused by the acts or omissions of Supplier, Supplier will be responsible for all costs and expenses resulting therefrom, including, without limitation, the reasonable costs of re-testing performed by Supplier to verify that any such Security Incident has been remediated.

21. ACCESS TO FACILITIES, SYSTEMS OR RTX INFORMATION

These provisions apply whenever Supplier Personnel will be granted access to Buyer's and/or Buyer's Customers' (i) facilities and/or (ii) computer systems and databases, provided, however, that Buyer may apply the provisions herein in the event Supplier Personnel is otherwise granted access to RTX Information ("Access").

- 21.1. Supplier shall perform identity screenings, work authorization verifications and background checks on any and all Supplier Personnel seeking Access in order to identify persons or entities ineligible for such Access. In furtherance of this obligation, Supplier shall, in advance of any request or grant of such Access:
- 21.1.1. Verify the identity and requisite work authorization of Supplier Personnel requiring Access. Buyer or its Affiliates may further direct Supplier to use a designated service provider to verify authorization to work, U.S. person and/or citizenship status, at Supplier's sole cost and expense.
- 21.1.2. Except to the extent not permissible by applicable law, perform a background screen on Supplier Personnel using a company approved by Buyer evidencing that (i) Supplier Personnel do not have any criminal convictions, as reported in the result of a background screen, or (ii) if they do have criminal convictions, Supplier Personnel were hired only after an individualized assessment was conducted in accordance with all applicable laws and taking into consideration the nature and severity of the underlying offenses, the nature and scope of the Access to be granted, the specific jobs at issue, and the length of time since the convictions.
- 21.1.3. Supplier shall not seek Access for any Supplier Personnel ineligible for such Access based on the failure to meet the above criteria, and will notify Buyer immediately, in writing, if any of Supplier's Personnel with Access is no longer eligible.
- 21.2. Supplier agrees that Buyer shall have sole discretion as to whether Supplier is granted Access, and agrees that any Access privileges granted to Supplier will be defined by

Buyer. Buyer reserves the right to impose additional requirements before granting Supplier Personnel Access, including, without limitation, with respect to export compliance, privacy, protection of RTX Information, security clearance, applicable training, drug screening, credit check, technology control plans, intellectual property agreements and compliance with other site-specific policies and procedures.

- 21.3. Supplier is responsible for ensuring that any Supplier Personnel requiring Access meet such Access requirements and that Access privileges are limited to approved Supplier Personnel. Supplier shall immediately notify Buyer if, at any time during the performance of the Order, (i) any information related to Supplier Personnel is altered or rendered inaccurate for any reason, or (ii) the need for Access ceases for any of such Supplier Personnel having Access. The need to Access shall automatically cease for any Supplier employees who are terminated, transferred, or otherwise no longer employed by Supplier.
- 21.4. Supplier or Supplier Personnel's refusal or failure to meet Buyer's Access requirements at any time during the performance of the Order may result in Buyer's refusal to grant Supplier Personnel Access, and Supplier agrees that Buyer shall have the right to deny, and, without notice, terminate Access by Supplier or any of Supplier Personnel in whole or in part. Inability of Supplier to comply with the requirements of this provision shall not excuse Supplier from performing the Order and shall not constitute an "Excusable Delay" as set forth in the Section herein entitled "Force Majeure".
- 21.5. If Supplier is an individual, Supplier acknowledges that he/she is not an employee of Buyer or Buyer Affiliate and is not entitled to the rights and benefits of a Buyer or Buyer Affiliate employee including, but not limited to, participation in pension, savings, health care and other employee benefit plans and arrangements. If Supplier is a company or other entity, it acknowledges that Supplier Personnel are not Buyer or Buyer Affiliate employees and are not entitled to the rights and benefits of a Buyer or Buyer Affiliate employee including, but not limited to, participation in pension, savings, health care and other employee benefit plans and arrangements.
- 21.6. Supplier acknowledges and agrees that any breach of this Section may result in a violation of law for which Buyer, Supplier, and/or Supplier Personnel may be liable. At Buyer's request, in advance of any request or grant of Access and at any other time, Supplier will provide Buyer (i) written certification, in a form provided by Buyer, that the Access requirements have been met, and/or (ii) documentation to verify the methodology, process and results relied upon by Supplier to comply with the Access requirements. The current certification form is available at the RTX Supplier Site.

22. COMPLIANCE WITH LAWS

- 22.1. Supplier warrants that it shall comply with all national, federal, state, provincial, and local laws, ordinances, rules and regulations applicable to the performance of the Order, except to the extent inconsistent with U.S. anti-boycott laws, including (i) the manufacture or provisioning of Goods and the supply of Services, (ii) the shipping of Goods and (iii) the configuration or content of Goods and/or Services for the use intended by Buyer (collectively, "Laws"). Supplier agrees to cooperate with and support Buyer's and Buyer's Customers' efforts to comply with all Laws, and utilize the tools and systems provided by Buyer to ensure such compliance.

- 22.2. Supplier shall, at the earliest practicable time, notify Buyer in writing if Supplier is subject to any federal, state, or foreign government criminal proceeding alleging fraud or corrupt practices, once initiated by the filing of a formal charging document in a court of law; and further notify Buyer of any subsequent felony convictions or deferred prosecution agreement(s) related to the foregoing.
- 22.3. Within the Stop Work Period, Buyer may either: (i) cancel the stop-work order and Supplier shall resume work; or (ii) terminate the work covered by the stop-work order, for default or convenience, as the context requires, in accordance with the provisions of the Order. 35. FORCE MAJEURE

- 35.1. Supplier shall be liable for any failure or delay in performance in connection with an Order, except where such failure or delay results from causes that are, at one and the same time, unforeseeable, unavoidable, outside of its control and without its fault or negligence, provided Supplier gives Buyer, within 3 days of Supplier's learning of such cause, written notice to the effect that a failure or delay by Supplier will occur or has occurred (an "Excusable Delay"). If a failure or delay in performance is caused by an event affecting any of Supplier's suppliers, such failure or delay shall not be excusable unless such event is an Excusable Delay as defined above and the good or service to be provided by such supplier is not obtainable by Supplier from other sources in time for timely delivery of the Goods to Buyer. Buyer may cancel any Order without liability to Supplier its purchase of any Goods affected by Supplier's failure or delay in performance and, if the delay is expected to last for a period that could impact deliveries to Buyer's Customers, Buyer may cancel, without liability, any portion of or the entire Order.

Further, Supplier will immediately notify Buyer in the event Supplier believes it may be unable to pay its debts when due or there is a material change in Supplier's financial position, balance sheet or its credit or similar rating. In the event either or both Parties have concern about Supplier's ability to continue its performance, the Parties will coordinate to ensure that Buyer receives Goods and/or Services without interruption in accordance with the Order. In particular, Supplier will assist and compensate Buyer for the costs associated with transitioning to another supplier, Buyer assuming the production of the Goods and/or performance of the Services itself, protecting the tooling and other equipment necessary for production of the Goods and/or performance of the Services, and taking other reasonable steps to ensure the Goods are produced and/or Services performed without interruption according to Buyer's Specifications.
