

## Troy Brunk

---

President, Collins Aerospace

Troy Brunk is president of Collins Aerospace, an RTX business and global leader in aviation and defense markets. He brings more than 30 years of experience to this role and has deep expertise across the business, having led three of the five strategic business units.

Brunk most recently served as president of the Mission Systems strategic business unit, where he was responsible for delivering military, government, and civil solutions to help global customers safely and successfully complete their most complex missions.

Prior to that, Brunk was president of the Avionics strategic business unit where he was responsible for the design, manufacture and service of advanced flight deck solutions. He also served as president of the Interiors strategic business unit where he led a broad portfolio of aircraft interior systems.

Brunk earned his MBA and bachelor's degree in industrial engineering from the University of Iowa.
