The rental and exchange of products in this price book are governed by Collins Aerospace Overriding Terms and Conditions for Commercial Maintenance, Repair and Overhaul Services attached below in Appendix A ("Services Terms and Conditions"). In the event of a conflict between the terms and conditions in this catalog and the Services Terms and Conditions, the terms and conditions in this catalog shall prevail.

Order placement

Orders for exchange or rental units can be placed directly with Collins Rental Exchange or through your choice of Collins Aerospace Avionic dealers. Direct orders can be placed by phone or email.

UNITED STATES (U.S. ORIGINATION)	UNITED STATES	EMAIL
1.800.713.7693	1.319.295.4361	rentalexchange@collins.com

When placing an order, the following information in Table 1 is required.
Any missing information will be requested prior to shipping:

Table 1

REQUIRED PRIOR TO SHIPPING	
Registered Aircraft Owner's Name & Address	Type of Service desired (Rental or Exchange)
Aircraft Operator's Name & Address	Purchase Order Number
Aircraft Type/Platform	Part Number
Aircraft Serial Number	Serial Number of Defective Unit*
Aircraft Registration Number	Reported Squawk of Defective Unit
Warranty Information, if applicable	Software Part Number (if applicable, SW# must be provided by customer)
Billing Address	Any Special Requirements/Instructions
Shipping Address	Preferred Shipping Method & Account #
Name and Address of the End User	

The following may be requested as needed upon order review:

Table 2

REQUESTED AS NEEDED	
Certificate of Registration	Valid End User Certificate
Bill of Sale	

It shall be the customer's ultimate responsibility, prior to installation, to ensure that any unit received from Collins Aerospace complies with applicable requirements under which the aircraft is licensed and operated.

Shipping cutoff times

Listed as US Central Standard Time (Subject to change).

STANDARD SHIPPING CUT-OFF TIMES (M-F, NON-COURIER)

Atlanta, Georgia US	4:00 pm CST
Calexico, California US	5:00 pm CST
Seattle, Washington US	4:00 pm CST
Singapore	2:00 am CST
Toulouse, France	10:00 am CST
Wichita, Kansas US	5:00 pm CST

SATURDAY DELIVERY

Calexico, California US	4:00 pm CST Friday
Singapore	11:00 pm CST Friday
Wichita, Kansas US	2:30-3:30 pm CST Friday

LOCAL DELIVERY

Only offered from Wichita, Kansas location	10:00 am and 2:00 pm CST

COURIER SHIPMENTS – ALL LOCATIONS, AS ARRANGED

**Shipping Cutoff time is cut off time for order release, not PO submission*

General terms and conditions

Exchange and Rental Services are available as warranty consideration (where applicable) or at the prices contained in this publication. Exchanges are limited to part numbers included in this publication and are available on a first come, first served basis. Items identified as N/A in the respective pricing column of this publication are not available for rental/exchange.

Prices are exclusive of any federal, state, or local sales tax and excise or end use taxes. Prices are subject to change without notice. The Customer is responsible for any customs charges, import duties, brokerage fees or other related international shipping charges. Collins Aerospace will not reimburse for labor hours to remove and replace a faulty unit for transactions outside of warranty. The rental/exchange unit may be certified in accordance with CFR Title 14, Parts 43 and 145; EASA Implementation Rule Part 145 (EASA accepted repair stations) or in accordance with certifications held from other aviation authority and will be tagged either "inspected," "modified," "overhauled," or "repaired." Any specific other certifications must be approved at time of order. The Collins Rental Exchange does not guarantee any parts in new condition.

An exchange unit becomes the Customer's property; the failed exchange core returned becomes the property of Collins Rental Exchange. There is no change of ownership with a rental unit. The same unit is returned to Collins Rental Exchange at the end of the rental period.

Requests to exchange cores of the same equipment type, but with a different Collins Aerospace part number, will be considered at the sole discretion of Collins Rental Exchange. Prior approval is required from Collins Rental Exchange. Different part number exchanges shall be subject to additional charges that will vary dependent on core return and condition.

Availability of all units is subject to change. Collins Aerospace reserves the right to make pricing adjustments or corrections as necessary.

Exchange/rental shipping procedures

Standard Shipments for In-Warranty Orders – Collins Rental Exchange offers free of charge standard shipping through our preferred carrier, Federal Express, for all in-warranty transactions. Charges other than shipping, such as brokerage fees, customs charges, import duties, etc. are not paid by Collins Aerospace. If FedEx Overnight Early AM delivery or similar service is requested, a fee of \$200.00 USD per shipment will apply.

If an alternate carrier is requested, a Carrier account number must be provided. In lieu of a carrier account to bill, Collins Aerospace will charge an additional \$200 to cover those shipping costs. Customers using their own shipping account are responsible for any delays encountered by the customer's selection of carrier and/or customs issues.

Standard Shipments for Out-of-Warranty Orders – A carrier account number will be requested for shipping of billable exchange transactions. Collins Aerospace will not pay any fees related to brokerage, customs charges, import duties, or any other international charges. Collins Aerospace cannot accept responsibility for any delays encountered by the customer's selection of carrier and/or customs issues.

Courier Service – If a customer wishes to expedite shipment via use of a courier, there are two options available:

1. The buyer may select and coordinate the use of a courier service. Collins Aerospace will provide notification once the shipment is available for pickup and will contact courier service and arrange pickup time.
2. Collins Rental Exchange can arrange courier service or "counter- to-counter" shipment. For shipments within the US, the fee for this service is \$500 USD per shipment, which includes the freight charge. For shipments to non-US locations, buyer will be invoiced all shipping fees. The shipping and tracking details will be provided to the buyer once the unit is picked up. Collins Aerospace will not pay customs, taxes, and duty fees for the shipment; therefore, the buyer must provide a customs broker and VAT Registration number.

Exchange billing procedures

Exchange pricing is conditioned upon the receipt by Collins Aerospace of an acceptable core unit. To be considered “acceptable” the core unit must have a valid Collins Aerospace nameplate and be in repairable condition.

Collins Aerospace cannot accept units received without a nameplate, with an altered or suspected counterfeit nameplate or suspected counterfeit internal assemblies. Any units received with these conditions will be returned to the sender.

If the core received requires installation of chargeable service bulletins to bring the core up to the same quality and functionality of the exchange unit provided, Collins Aerospace reserves the right to bill the Customer for the installation of those bulletins or reject the core.

The transaction period will not be closed until an acceptable core is received.

Billing discrepancies must be reported within 90 days of invoice date. If any delay in returning the core is anticipated, please contact Rental Exchange Administration.

Rental billing procedures

The minimum rental fee is for a period of 30 calendar days from the date the unit is shipped by Collins Aerospace. Rental prices are conditioned upon Collins Aerospace receipt of the same serial number unit in return, within the established transaction period. The Collins Aerospace nameplate must be in place and intact and the unit must be in repairable condition.

Collins Aerospace reserves the right to charge for returning units to a serviceable condition if they have been subjected to contamination damage, abnormal wear, improper packaging, or unauthorized repairs.

Collins Aerospace reserves the right to charge the current catalog list price of a returned rental unit that has been damaged by lightning, fire, submersion, crash, or is otherwise deemed beyond economical repair.

Billing discrepancies must be reported within 90 days of invoice date. If any delay in returning the unit is anticipated, please contact Rental Exchange Administration.

Credit cards

Collins Aerospace is pleased to accept payments made via VISA, MasterCard, or American Express. Authorization can be completed on the phone with the Rental-Exchange Pool Order Administrator. If an order requires payment by credit card, an e-mail will be sent with a link to provide credit card information in a secure environment. This method protects the security of customers’ personal information, in keeping with Pay Card Industry Compliance standards.

Core returns policy

Returned exchange cores must have the same part number as the exchange unit shipped by Collins Rental Exchange, unless prior approval has been obtained.

For rental transactions, the returned unit must match the part number and serial number of the unit originally shipped by Collins Rental Exchange.

Customer is responsible for all shipping costs associated with the core return to Collins Aerospace. Collins Aerospace will not pay any fees related to brokerage, customs charges, import duties, or any other international charges.

The Core Return Instructions must be included with each return. (Found on packing list, arrives in the box with the unit)

Units must be returned to the Collins Aerospace Service Center indicated on the return instructions sheet. Failure to return the core to the instructed location will result in a charge of \$210 to cover the cost of trans-shipping the unit to the correct location.

The return window for cores is specified in Table 4, which outlines the requirements based on region ship to / ultimate consignee and type of order, including exchange, rental, or rental with repair. If the core is not returned within the receipt window, billing will occur according to the Late Return Policy structure. After 90 days, charges will be applied per this policy.

Late return policy

It is the responsibility of the customer to communicate any expected delays to Collins Aerospace prior to the part return due date.

In the event a core is not received by the due date, a late fee will be assessed as follows:

- A 3% late fee of the monthly rental charge will be applied per day on any past due core return.
- For any period of 30 days without receiving the core, the total late fees will reflect one full month's rental charge.
- After every additional 30 days without receiving the core, an additional full month's rental charge will be applied.

Example for 65 Days Late:

- **Days 1-30:** A daily late fee of 3% of the monthly rental charge is applied for each day. By the end of 30 days, the total late fee will be one full month's rental charge.
- **Days 31-60:** For the next 30 days, the same 3% daily late fee continues to accrue. By day 60, the total late fee will be an additional full month's rental charge. **Days 61-65:** For the remaining 5 days, a daily late fee of 3% continues to accrue per day.
- **Results:** The customer will be billed for two full months' rental charges plus five days at 3% of the monthly rental charge.

Conversion to Sale

- If the total accumulated late fees equal the price of a new unit, Collins reserves the right to convert the extended use fee into an outright sale of the unit. Upon the conversion to sale, the Standard Commercial Terms and Conditions of Sale attached below in Appendix B ("Sales Terms and Conditions") shall apply. **In the event of a conflict between the terms and conditions in this catalog and the Sales Terms and Conditions, the terms and conditions in this catalog shall prevail.**

Core replacement fees are charged at the current Collins Rental Exchange list price for outright sales. Should a core replacement type be out of production, the fee will be determined by its current replacement value.

Cores received after a core replacement invoice has been issued shall not be accepted; units will be returned to the shipper.

**In the absence of a rental fee, a 3% fee of the standard exchange fee will be used.*

Expected return receipts

The table below outlines the return receipt windows, which vary by the region to which the order is shipped to or by the ultimate consignee.

ORDER SHIP TO / ULTIMATE CONSIGNEE LOCATION	EXCHANGE	RENTAL	RENTAL W/REPAIR (NOTE 3)	UNUSED UNIT RETURN
North America Singapore European Union (including Switzerland and Norway) (Note 1)	20 Days	30 Days	10 days after shipment of repaired unit	10 days
Brazil, India, China, Azerbaijan, or Pakistan	45 days	60 days	20 days after shipment of repaired unit	45 days
All Others	30 days	45 days	10 days after shipment of repaired unit	30 days

Notes:

1. *EEuropean Union member countries as defined by the European Parliament.*
2. *From date of shipment by Collins Aerospace. Days are represented as calendar days.*
3. *An additional grace period may apply if the Customer's unit arrives at a Collins Aerospace Service Center for repair within 10 days of outgoing shipment of a rental unit by Collins and if the Customer's unit is still in repair at the end of the initial rental period. To be eligible the repair estimate must be approved within 5 days of its receipt. If the repair unit is received at a service location more than 10 days after the shipment of the rental unit, or if the repair estimate is not approved in a timely manner the additional grace period is reduced to 5 days.*

Return of unused units

Prior authorization is required from Collins Rental Exchange to return a unit unused. For unused returns, the Customer is responsible for all return freight charges. These fees include, but are not limited to, freight, customs charges, import duties, or any other international charges whether the unit is in or out of warranty.

Returns received within the timeframe specified in Table 4, under the "Unused Unit Return" column, will incur a restocking fee of \$1,500 USD. If the applicable rental or exchange price is less than \$1,500 USD, the lower price will be charged. The returned unit must have the same serial number as the one originally shipped and the ESD bag must be unopened.

A return received after the timeframe specified in Table 4 will be charged a full monthly rental fee. If a rental price is not available, the charge will be 80% of the original exchange fee.

Open bag policy

An Open Bag Policy applies to units listed with an asterisk (*) on the price sheets in this catalog.

If these units are removed from the ESD bag they are received in, exchange fees shall apply. If the package is unopened and the exchange unit is returned with original 8130 tags, the return will follow the Return of Unused Units policy described above.

Unacceptable/damaged cores

Collins Rental Exchange reserves the right to refuse a core that has been damaged by contamination or corrosion, lightning, fire, submersion, crash, misapplication, inappropriate repair actions, improper packing, or abnormal wear.

If Collins Rental Exchange agrees to accept a damaged core, Collins Aerospace shall invoice the Customer for the repair of said core. Billable damage examples include but are not limited to contamination or corrosion, cracked glass, broken faceplates and connectors, and/or physical damage caused by improper packing, improper installation, and/or incorrect aircraft wiring. Collins Rental Exchange reserves the right to void warranty based on the extent of the damage. Damage estimates and pictures of units will be provided. The damage estimate should be approved by the customer within one week of notification. If the damage estimate is not approved within six weeks of the first notification, the estimate will be considered approved by default, units will be repaired and invoiced accordingly.

Collins Aerospace will not accept units that have been involved in an aircraft accident, incident, or subjected to severe stress such as fire or fluid ingress. Customers who return cores that have been subjected to such conditions will have such cores returned to them unrepaired or scrapped by Collins Aerospace with customer approval.

Cores returned with a different part number than the unit shipped by Collins Aerospace, or rental transaction cores with a different serial number, are unacceptable without prior approval from Collins Rental Exchange. At the sole discretion of Collins Rental Exchange, these cores may still be accepted, subject to additional charges.

Return instructions

A Return Instructions form is included as the last page of the packing list that accompanies the outgoing rental or exchange unit (see sample below). The Return Instructions form includes the address of the service center where the exchange core or rental unit is to be returned as well as sales order details that will ensure the transaction is closed out successfully. Customer assistance is respectfully requested in completing the key information at the bottom of the return instructions form, as this will aid in accurate troubleshooting and repair.

Please complete and enclose this form with the return core. Collins Rental Exchange’s preferred customs broker for international core returns is Federal Express Corporation.

The Rockwell Collins preferred customs broker for International core return is Fed EX. This information should be included on the commercial invoice.

Special shipping container requirements

Refrain from insuring shipments when Collins Aerospace handles the freight. Our shipping containers meet or exceed ATA-300 specification Category III for most units. Special shipping containers are required for some parts, including AFD-3XXX(), AFD-5XXX(), AFD-6XXX(), and RTA-4XXX.

Hazardous Material - Collins Aerospace complies with applicable rules and regulations when shipping hazardous materials, including products containing lithium batteries. It is expected that products returned to Collins Aerospace for repair or exchange will be shipped in accordance with the applicable rules and regulations.

Exchange core import requirements

When a core is being returned to the United States from a location outside the United States, the import invoice must contain the following information:

- Complete description of merchandise
- Collins Aerospace part number and quantity
- Vendor part number if applicable. Name of manufacturer (if not Collins)
- Commodity classification (USML Category Number or ECCN)
- Unit price and extended amount (U.S. Dollars) — transaction value/Customs value (see ICM-13, Valuation)
- Declared value for Customs purposes only
- Harmonized Tariff Schedule (HTS)
- Country-of-Origin (country where goods were manufactured)
- Invoice number and shipment date
- Total number of cartons, weights, and measurements
- Terms of sale
- Shipper and Ship To name and address
- Mode of Transportation - Air, Freight Collect, or Third-Party-Bill Collins Aerospace
- Reason for Importation Other Than Sale (US Goods Returned, Repair/Return)
- Name of responsible employee of the exporter who has knowledge of the transaction

Collins Aerospace is the Importer of Record. All imports must be cleared using our preferred import broker, Federal Express.

Paperwork reprint requests

Collins Aerospace reserves the right to charge \$100 USD for each reprint of the following documents (A purchase order will be requested):

- FAA 8130-3 reprint
- Packing list reprint
- Service memorandum/tear down report reprint A purchase order will be requested.

Export compliance

Collins Aerospace products that are designed for a military application are controlled by the International Traffic in Arms Regulations (ITAR) and will require an export license issued by the Department of State, Directorate of Defense Trade Controls for all export transactions. Approval of such licenses may take 30 to 120 days. Delivery of products requiring an export license is conditioned upon receipt of an approved license.

Collins Aerospace products that are designed for a commercial or dual-use application are controlled by the Export Administration Regulations (EAR) and may require an export license from the Department of Commerce, Bureau of Industry and Security. Approval of such licenses may take 30 to 120 days. Delivery of those products requiring an export license is conditioned upon receipt of an approved license.

Customer purchase orders must identify all parties to the transaction (i.e. foreign consignees, owner, operator, and end user). Purchase orders placed with Collins Aerospace must also identify the end use platform to ensure compliance with Export Administration Regulation Part 744.21.

Due to restrictions on military end use and specific end users in China, Russia and Venezuela, shipments with an ultimate destination in any of these countries require specific end use/end user certificates from foreign consignees and end users located in these locales. When foreign consignees and end users are not known at the time of order placement (e.g. when purchasing for stock) the customer may be required to sign an end use certificate which must be returned to Collins Aerospace and be found acceptable to Collins Aerospace before any order can be processed.

In addition, Collins Aerospace is responsible for all export licensing with the Departments of State and Commerce and for all export documentation presented to US Customs. Should you (a Foreign Principal Party in Interest) have a US freight forwarder that you wish to be responsible for US Customs paperwork, a signed Power of Attorney or written authorization must be provided that identifies the freight forwarder and outlines responsibilities. An example of an acceptable written authorization follows::

**Example of Written Authorization from
FPPI to USFPI to file the EEI**

I, [INDIVIDUAL COMPLETING AUTHORIZATION], representing, [CUSTOMER NAME], the Foreign Principal Party in Interest ("FPPI") authorize [NAME OF DESIGNATED FREIGHT FORWARDER] to act as the Authorized Agent for export control, U.S. Customs & Border Protection, and Census Bureau purposes to transmit such export information electronically that may be required by law or regulation in connection with the exportation or transportation of any goods on behalf of said FPPI. The FPPI certifies that necessary and proper documentation to accurately transmit the information electronically is and will be provided to the said Authorized Agent. The Foreign Principal Party in Interest further understands that civil and criminal penalties may be imposed for making false or fraudulent statements or for the violation of any U.S. laws or regulations on exportation and agrees to be bound by all statements of said Authorized Agent based upon information or documentation provided by the FPPI to said Authorized Agent.

Warranty policy

Collins Rental Exchange provides a one-year warranty on all catalog-billed and priced exchanges. This warranty begins at the time of shipment and allows for a no-charge exchange replacement or repair, at Collins Rental Exchange's discretion. The warranty adheres to Article 8 of Collins Aerospace's Overriding Terms and Conditions for Commercial Maintenance, Repair, and Overhaul Services. Note that this warranty does not extend the original equipment or aircraft warranty.

Service center repair warranty

Service Center Repair Warranty does not include Rental/Exchange service as a remedy. Customers experiencing a failure of a repaired unit within the Service Center Warranty period should work directly with the service location for a solution.

However, if a billable rental was charged during the original repair period, rental during the service warranty repair shall be provided at no charge. Otherwise, any rental during a qualified warranty repair shall be billable.

Services for simulators

Rental service is offered to support units used on simulators, due to limited ability to certify units initially produced for simulator use. Exchange requests may be reviewed on a case-by-case basis. The following information will be required for assessment:

1. Failed Part Number and Serial Number
2. Operator statement of confirmation that units were not altered from original configuration.
3. Confirmation that the operating environment of the unit does not exceed OEM specifications or FAA airworthiness requirements.

Induced damage or damage caused by excessive use will be quoted separately. Approval for additional charges may be required at time of order not to exceed 25% of the exchange order.

It is our intent to maintain the highest quality of equipment in our Exchange pools. Simulator core equipment will go through extensive testing, repair and overhaul inspection processes to ensure our quality standards are met. Any core units not able to meet these overhauls standards will be returned to the customer as an unacceptable core.

Services for government or military corporate/business aircraft

Collins Aerospace Rental and exchange services are available to certain government or military variants of corporate/business aircraft if the following conditions are met:

- Aircraft retains its commercial type certification
- Aircraft is operated in accordance with the civil aircraft flight manual
- Aircraft and installed equipment are maintained by FAA licensed mechanics (or other country equivalents)
- Aircraft and equipment maintenance is performed in FAA licensed facilities (or other country equivalents)
- PMA/TSO markings are mandatory for all equipment for core exchanges
- All equipment must be operated in accordance with the OEM operation/specification

If a government/military aircraft cannot meet the above criteria, repair support is available through one of our Service Centers or contact Collins Aerospace Government Systems office toll free at 1.800.321.2223 within the U.S.A., or 1.319.295.5100, or fax at 1.319.295.4777.

Appendix A

("services terms and conditions")

Overriding Terms and Conditions for Commercial Maintenance, Repair and Overhaul Services

1. Purpose

These overriding terms and conditions for maintenance, repair and overhaul services (these "Overriding Terms") shall apply to all commercial Orders placed by Customer for Services purchased from Goodrich Corporation, Hamilton Sundstrand Corporation and Rockwell Collins, Inc., each a part of Collins Aerospace, and those of their subsidiaries, affiliates, and operating divisions (collectively "Collins" or "Seller"). Customer or Collins may be referred to as the "Party" or the "Parties," respectively.

2. Definitions

In these Overriding Terms and any documents related to the Services provided hereunder, the following capitalized words and expressions shall have the following meanings. Other capitalized terms shall have the meaning assigned from time to time within these Overriding Terms.

- A. "Airworthiness Authority" means the Civil Aviation Authority of Singapore (CAAS), the Federal Aviation Administration (FAA), the European Aviation Safety Agency (EASA), the Civil Aviation Administration of China (CAAC) or such other airworthiness authority that is a member-in-good standing with the International Civil Aviation Organization (ICAO);
- B. "Beyond Economic Repair" or "BER" means a Unit that is deemed to be no longer technically repairable or economically repairable.
- C. "Customer" means the company, firm or person who purchases the Services from the Seller.
- D. "Day(s)" means calendar days.
- E. "Foreign Objects" means any substance, debris, articles or objects foreign to an aircraft, system, product or component which could potentially cause damage such as, but not limited to, plastic bags, gloves, nuts and bolts, chemicals used for the cleaning, fumigation, etc. on the exterior and interior of the aircraft and waste water (inclusive of galley discharge).
- F. "FOD" or "Foreign Object Damage" shall mean any damage caused by Foreign Objects, pieces/contaminants from upstream line replaceable units or debris.
- G. "IATA" means the International Air Transport Association code
- H. "Incoterms" or "Incoterms 2020" means the International rules for the interpretation of the most commonly used trade terms in foreign trade as published by International Chamber of Commerce, Paris, in the latest revision.
- I. "Order" means any purchase order or other written authorization for Services issued by Customer to Seller.
- J. "OEM" means Original Equipment Manufacturer.
- K. "Parts" shall mean repaired parts or spare replacement parts required in the performance of the Services.
- L. "Quote" means the estimated price and workscope provided by Seller upon receipt and inspection of the Unit as furnished by the Customer. Such Quote may be revised by Seller for review and acceptance by the Customer.
- M. "Repair Facility" means a current Seller authorized repair facility.
- N. "Services" or "Serviced" means the test, repair, or overhaul and recertification activities performed by Seller on the Unit as specified in the Quote (as may be amended by mutual agreement) and authorized by the Order under these Overriding Terms.
- O. "TSI" means time since installed.
- P. "TSN" means time since new.
- Q. "TSO" means time since overhaul.
- R. "TSR" means time since repair.
- S. "Unit" means the unit or part, being an aircraft component, specified in the Order upon which the Services are to be performed by the Seller.

3. Acceptance

The shipment by Customer of any Unit to Seller for Services, the furnishing or commencement by Seller of any Services called for hereunder, or any other conduct by Customer that recognizes the existence of a contract pertaining to the subject matter hereof shall be treated as an unqualified acceptance by Customer of these Overriding Terms.

Any terms and conditions included in Customer's Order or other form of Customer that add to, vary from, or conflict with the Overriding Terms herein are hereby rejected. Any such terms shall be void and the Overriding Terms herein and as agreed to between Customer and Seller herein shall constitute the complete and exclusive statement of the terms and conditions of the contract between the Parties and shall apply to each shipment received by Seller from Customer hereunder. In the event any such proposed terms would, if accepted by Seller, vary the liability or warranty aspects of these terms then such proposed terms will be null and void unless the acceptance by Seller is made in writing

4. Delivery, Title and Risk of Loss

Delivery to Seller: Customer shall deliver Unit(s) requiring Services to Seller Delivered at Place (DAP, Incoterms 2020), Seller's Designated Facility.

Delivery to Customer: Seller shall deliver Unit(s) to Customer Free Carrier (FCA, Incoterms 2020), Seller's Designated Facility. The method of shipment shall be as designated by Customer or if no such designation is made, the method of shipment shall be at the discretion of Seller on a freight-collect basis.

Customer shall be solely responsible for providing and paying for shipping insurance. Seller shall not have any liability for any loss resulting from uninsured or under-insured Unit(s). Customer shall reimburse Seller for any and all shipping costs including the expense of a suitable container. All claims to the carrier for Unit(s) damaged or lost in transit must be made by Customer.

For Unit(s) delivered at Seller's Repair Facility, the title shall at all times remain with Customer except that title and risk of loss for Parts of such Unit which are removed will pass to Seller upon removal for replacement. Title and risk of loss to Parts installed in Unit(s) will pass to Customer upon delivery of the Unit(s) to Customer in accordance with this clause. All claims to the carrier for Unit(s) damaged or lost in transit must be made by the Customer.

Seller's liability for loss or damage to the Unit(s) and other property while in Seller's care, custody or control is limited to the fair market value of such property and shall only arise to the extent such loss or damage results from Seller's gross negligence or willful misconduct. Customer shall insure the Unit and all other property delivered by Customer to Seller under these Overriding Terms. Neither the Unit nor such other property is insured or protected in any amount by Seller or its insurers against loss occasioned by theft, fire, vandalism or any other cause while in Seller's care, custody or control.

In the case of exchange, the title to an exchange Unit supplied by Seller shall vest in Customer immediately upon delivery of the exchange Unit or removal of the unserviceable Unit from the aircraft, whichever occurs last. Title to the unserviceable Unit shall simultaneously transfer to Seller. The Parties shall transfer the full legal title to any Unit free and clear of all liens, charges and encumbrances. Responsibility for the loss of or damage to any exchange Unit supplied by Seller shall pass to Customer on dispatch by Seller of the exchange Unit.

5. Quality Assurance

The Unit(s) specified in the Order will be Serviced in accordance with current regulations of the FAA or other applicable Airworthiness Authority as agreed to between the Parties and required by Seller's repair manuals, documentation, and specifications.

6. Scrap Material

Unit(s) and parts thereof received from Customer which, in the opinion of Seller, have no value other than as scrap will be disposed of by Seller and no accounting or liability therefore will be imposed on Seller by Customer. Seller agrees to comply with instructions set forth on the face of Customer's Order providing for immediate disposition of any such scrap at Customer's expense.

7. Abandoned Unit(s)

A Unit will be deemed abandoned when a Repair Facility has tried, but has been unable, for a period of one hundred eighty (180) Days, to obtain a response from Customer regarding Quote approval, other instructions for Service, payment, Customer pickup,

Customer inspection, embargo, or otherwise dispositioning Unit(s) delivered by Customer to the Repair Facility. The one hundred eighty (180) Day time period starts at the time the Service is completed or Quote is sent to Customer.

Customers with abandoned Unit(s) who failed to respond to the Repair Facility within sixty (60) Days in regard to the Quote or Services completion date are subject to an initial one hundred fifty (\$150) U.S. Dollars storage fee. Each subsequent thirty (30) Day period is subject to an additional one hundred fifty (\$150) U.S. Dollars storage fee. Repair Facility shall hold Unit(s) a minimum of three hundred sixty-five (365) Days prior to disposition of the Unit(s) in accordance with Seller's policies which may include scrapping abandoned Unit(s). Copy of Seller's policies are available upon request.

8. Warranties, Remedies, and Limitations

Seller warrants to Customer that all Services performed under these Overriding Terms will be free from defects in workmanship and material at the time of shipment from Seller. For purposes of this warranty, delivery to a common carrier for shipment to Customer or notification to Customer of completion of Services but being held by Seller awaiting firm shipping instructions from Customer shall be construed as the shipment date. If within twelve (12) months from the date of shipment (the "Warranty Period"), any Unit Serviced hereunder is found to be defective in workmanship or material to the extent of work performed hereunder, Seller, at its sole and exclusive option, shall correct or re-perform the Services on such Unit at Seller's expense and with reasonable promptness. Services corrected or re-performed are warranted only for the unexpired portion of the original Warranty Period. In performing Services under this warranty, Seller may furnish new or used Unit(s) of comparable quality, including on an exchange basis, and the replaced parts shall become the property of Seller.

Seller's warranty shall not apply to accessories, equipment, parts or materials purchased by Seller from sub-tier suppliers, except that Seller warrants, under the terms set forth in the immediately preceding paragraph, that the installation of such items shall be performed in a professional and workmanlike manner and shall comply with the installation instructions of the manufacturer thereof.

Seller's warranty obligations are conditioned upon the proper installation and operation of such Unit by Customer in accordance with Seller's written directions. Seller's warranty shall exclude normal wear and tear of seals, lands, blankets, bushings, and other sacrificial parts. Repair, overhaul, or modification shall not be deemed to be defective if failure is caused by interface with other equipment, customer caused damage, shipping or handling damage, or exposure to conditions in excess of those published in the applicable specification. The warranty stated herein shall be void if such Unit is altered or Service is attempted or made by other than Seller or Seller's authorized Repair Facility.

This warranty is valid only to Customer and is not transferable without prior written consent of Seller. The Warranty Period stated herein shall not serve to limit or circumvent any pre-existing warranty in effect as it relates to the Unit. Within the Warranty Period, Customer shall provide Seller with written notice of a claimed defect within thirty (30) Days after the defect becomes apparent to Customer and return the Unit, transportation prepaid, to Seller's Repair Facility or the warranty claim will not be valid. Said notice will contain reasonable proof that the claimed defect is covered by Seller's warranty and is subject to confirmation and verification by Seller.

Customer assumes round trip shipping costs for return of Unit on which allegedly non-conforming Services have been performed to and from Seller's designated facility. Customer is responsible for risk of loss or damage to such Unit in transit. Seller shall reimburse Customer for the transportation costs associated with warranty returns if Seller's inspection of the return Unit confirms the existence of a defect or non-conformity covered under these warranties.

THE WARRANTIES SET FORTH HEREIN ARE EXCLUSIVE AND ACCEPTED IN LIEU OF (i) ANY AND ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE; AND (ii) ANY OBLIGATION, LIABILITY, RIGHT, CLAIM, OR REMEDY IN CONTRACT OR TORT, WHETHER OR NOT ARISING FROM SELLER'S NEGLIGENCE, ACTUAL OR IMPUTED.

ADDITIONALLY, THE CUSTOMER AGREES THAT THE USE OR INCORPORATION OF ANY PARTS, SERVICES OR SOFTWARE WHICH ARE NOT SELLER APPROVED WILL RESULT IN A DISCLAIMER BY SELLER OF RELATED WARRANTY OBLIGATIONS AND AN INDEMNIFICATION OF SELLER FOR ANY AND ALL DAMAGES AND LIABILITY RESULTING FROM THE USE OR INCORPORATION OF SUCH PARTS OR REPAIRS.

THE REMEDIES SET FORTH HEREIN ARE THE SOLE AND EXCLUSIVE REMEDIES OF CUSTOMER FOR ANY CLAIMS, EXPENSES, DAMAGE OR ECONOMIC LOSS ARISING OUT OF OR RELATED TO UNIT(S) DELIVERED HEREUNDER. IN NO EVENT SHALL SELLER BE LIABLE IN TORT OR CONTRACT OR UNDER ANY OTHER LEGAL OR EQUITABLE THEORY OF LAW, FOR ANY INCIDENTAL, SPECIAL, INDIRECT, OR CONSEQUENTIAL DAMAGES.

Warranty exclusions.

Seller shall not be liable for any Unit(s) which are defective or Beyond Economical Repair (BER) as a result of the following, to include but not limited to (unless attributable to the acts or omissions of Seller): improper installation, maintenance or repair contrary to any technical manuals or other instructions issued by Seller or the aircraft or engine manufacturer, Foreign Object Damage (FOD), Customer Induced Damage (CID), fitment of non-OEM parts (includes Parts Manufacture Authority) to the Unit(s), any identification or serial number on the Unit(s) thereon has been altered, defaced or removed, where the Unit(s) have been subjected to any unusual physical or electrical stress, misuse, unauthorized repair, replacement, modification, contamination or alteration or where additional non-mandatory modifications or special investigations are requested by the Customer.

9. Customer Reporting Requirement

Each Unit returned to Seller for Services must be returned with the following information, where applicable: tail number of the aircraft the Unit was removed from, operating hours (TSI/TSO/TSR/TSN) associated with the Unit, and end user of the Unit.

10. Shipping

Unit(s) returned to Seller's Repair Facility must be packaged in the original shipping container or equivalent. Seller reserves the right to charge Customer the cost of such proper shipping container for return shipment should Customer fail to comply with the aforementioned shipping requirement. In the absence of specific written instructions for unique Unit(s) that require special packaging, all Unit(s) will be suitably packaged and prepared for shipment to withstand normal transportation and stocking functions. Seller shall pack or otherwise prepare all Unit(s) for shipment so as to secure the lowest transportation rates reasonably attainable consistent with timely delivery, meeting carrier's requirements and with reasonable safeguards against damage from weather and/or transportation. When packing costs are not included in the Unit price, all such packing costs shall be borne by Customer. Seller will enclose a packing list with each shipment.

11. Prices

The prices provided by Seller for the provision of any Services will be quoted in U.S. Dollars, or in the currency specified in the Quote, and do not include any taxes, duties or other imposts, unless otherwise agreed.

12. Payment

Notwithstanding any statement of terms or time of payment to the contrary appearing on the face of the Quote or Order, Seller reserves the right to require payment in advance. Payment in U. S. Dollars, or currency otherwise stated on the invoice, without any deduction or withholding will be due on Unit(s) shipped according to standard terms of net thirty (30) Days from date of invoice, which shall be issued upon shipment of Unit(s) from Seller's Repair Facility, to accounts meeting Seller's credit standard with acceptable ratings and/or credit history. Seller shall have the right to impose a finance charge of 1.5% or the highest legal rate of interest permitted by United States law, whichever is lower, per month on the unpaid balance from the date when such payment was due until paid. Payments should be made to the "remit to" address shown on the invoice. Seller reserves the right to modify or withdraw credit terms at any time without notice, and to require guarantees, security or payment in advance for the amount of the Order involved.

13. Compliance with Export Statutes and Regulations

(a) In performing the obligations of these Overriding Terms, both Parties will comply with United States export control and sanctions laws, regulations, and orders, as they may be amended from time to time, applicable to the export and re-export of goods, software, technology, or technical data (Items) or services, including without limitation the Export Administration Regulations (EAR), International Traffic in Arms Regulations (ITAR), Foreign Assets Control Regulations (as administered and enforced by the Treasury Department's Office of Foreign Assets Control), U.S. Customs Regulations, Foreign Trade Statistics Regulations (U.S. Census Bureau) and Bureau of Alcohol, Tobacco, Firearms and Explosives Regulations (U.S. Justice Dept.) (collectively, "Export Control Laws and Regulations"). Each Party agrees that it will take measures to ensure that any goods or technical data received from the other Party are not modified for or diverted to any application in contravention of applicable law or this Overriding Terms.

- (b) The Party conducting the export shall be responsible for applying for the required authorizations for the applicable export, although Seller shall have the sole authority to make or have made any required submissions to the United States Customs Bureau to the extent that it is the U.S. Principal Party in Interest in the export. The Party conducting the re-export/re-transfer shall be responsible for applying for the required authorizations. Each Party shall reasonably cooperate and exercise reasonable efforts to support the other Party in obtaining the necessary licenses or authorizations required to perform its obligations under this contract. Neither Party guarantees the issuance or continuation in effect of such authorizations and shall have no liability in such event.
- (c) The Party providing any Items under these Overriding Terms shall, upon request, notify the other Party of the Items' Export Control Classification Numbers ("ECCNs") as well as the ECCNs of any components or parts thereof if they are different from the ECCN of the Item at issue.
- (d) Each Party represents that: (i) the Items, and the parts and components thereof, which it is providing under this Agreement are not "defense articles," as that term is defined in 22 C.F.R., §120.6 of the ITAR; and (ii) the services it is providing under this Agreement are not "defense services" as that term is defined in 22 C.F.R., §120.9 of the ITAR. The Parties acknowledge that this representation means that an official capable of binding the Party providing such Items knows or has otherwise determined that such Items, and the parts and components thereof, are not on the ITAR's Munitions List at 22 C.F.R. §121.1. Each Party agrees to reasonably cooperate with the other in providing, upon request of the other Party, documentation or other information that supports or confirms this representation.
- (e) Customer agrees that it will take measures to ensure that any Items or technical data received from Seller are not modified for or diverted by Customer for any military application or to military end-users in China, Russia or Venezuela, or for any use contrary to United States law, including weapons proliferation (e.g., chemical, biological, or nuclear weapons or delivery systems), nuclear end-uses, rocket systems, unmanned aerial vehicles, satellite usage, missiles and missile-related applications. Customer certifies that it will not re-export any Items or technical data received from Seller to Cuba, Iran, North Korea, Sudan, Syria, the region of Crimea, or to any destination against which the United States maintains a trade embargo. Customer certifies that it will not re-export, divert or otherwise transfer items and technical data received from Seller to any Prohibited Party (entities and individuals that appear on government lists of restricted or denied parties, pursuant to Export Control Laws and Regulations. Seller reserves the right to seek written certification from Customer in the form of an end-user statement or other agreed upon form, such end-user statement or other form shall be provided to Customer, when, within the Seller's discretion, a proposed transfer of items or technical data warrants further review.
- (f) Customer agrees not to reexport any Items or technical data received from Seller and delivered pursuant to these terms and conditions to or for use in Russia or Belarus.

14. Anti-boycott Compliance

Seller complies with all U.S. laws directed against foreign restrictive trade practices or boycotts as embodied in the Export Administration Act of 1979 (as amended), the Tax Reform Act of 1976 and all regulations and guidelines issued hereunder. Accordingly, to the extent that any Customer Orders or other documents contain prohibited provisions, Seller takes specific exception and objects to these provisions which are not in compliance with the referenced laws and regulations. To avoid delays in processing Customer Orders, all prohibited provisions in this regard must be deleted from Customer Orders or other documents.

15. Anti-Corruption Compliance

- A. Customer acknowledges that Collins conducts its business according to the highest ethical standards, seeks to avoid even the appearance of impropriety, and insists that its customers conduct their business in a similar manner. Customer further acknowledges that its compliance with this Section independently provides material consideration for the Seller to enter into this agreement such that breach of this Section will provide cause for immediate termination of this agreement.
- B. Customer represents, warrants, and undertakes, as appropriate, that: i. Customer's activities hereunder do not and will not violate any laws related to bribery and/or corruption, including but not limited to the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act, or other similar legislation applicable to Customer, or put Collins in breach of any such laws, and further warrants that Customer will duly observe at all times throughout the period of this agreement all applicable laws and the terms of this agreement; ii. Customer has not and will not, directly or indirectly, pay, offer, give, or promise to any person or organization anything of value for the purpose of securing an improper advantage or improperly influencing any act or decision by such person or organization in order to obtain or retain business with regard to the activities of Customer under this agreement; and iii. Collins shall have no responsibility or liability for, and Customer shall indemnify and hold Collins harmless against, any losses, claims, or damages incurred by Collins, Customer or any third party resulting from any breach of this Section by Customer

16. Assignment

Neither Customer nor Seller may assign, charge, transfer or otherwise dispose of these Overriding Terms or any interests, rights or obligations herein, in whole or in part, without the prior written consent of the other Party, (which consent shall not be unreasonably withheld, delayed or conditioned). Notwithstanding the foregoing clause, Seller may assign any and all of its rights and obligations hereunder under notification to Customer to (i) and Seller-affiliated company; (ii) a third party pursuant to any sale or transfer of all or part of the assets or business of Seller; or (iii) a third party pursuant to or in connection with any financing, merger, consolidation, change in control, reorganization or other business combination involving Seller.

Notwithstanding the foregoing, any of the above items (i) through (iii) resulting primarily from a corporate reorganization, spin-off, split-off or similar corporate transaction involving Raytheon Technologies (RTX), or any of RTX's affiliate (Spinoff), shall not be deemed to be an assignment [or change of control] pursuant to this Section, provided that in connection with such Spinoff, a Third Party does not acquire Control of the entity subject to the Spinoff. For purposes of this Section, "Third Party" is defined as any entity other than RTX or any of its wholly-owned subsidiaries or controlled affiliates, or any person(s) who control(s) RTX immediately prior to such Spinoff."

The terms "control", "controlling", "controlled by", and "under common control with" shall mean the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through ownership of securities or other interests, by contract or agreement, or otherwise.

17. Notices

Any notice permitted or required to be served hereunder shall be deemed to have been validly served by either Party on the other Party hereto on the seventh (7th) working day after it shall have been posted by prepaid registered (air) mail to the other Party at the address stated in the Order. In the case of notice by hand or fax, such notice shall be deemed to be validly served upon receipt by the Party to whom it is addressed as evidenced by a receipt of transmission report.

18. Insolvency

To the extent permitted by law, either Party may immediately terminate Orders placed under these Overriding Terms upon prior written notice to the other Party in the event of (i) an assignment for the benefit of creditors by the other Party or (ii) the voluntary appointment (at the request of the other Party or with the consent of the other Party) of a receiver, custodian, liquidator or trust in bankruptcy of the other Party's property or (iii) the filing by the other Party of a petition in liquidator or trust in bankruptcy or other similar proceeding under any law for relief of debtors, or (iv) the involuntary appointment of a receiver, custodian, liquidator or trustee in bankruptcy of the other Party's property, where such petition or appointment is not vacated or discharged within sixty (60) Days after the filing or making thereof. Seller has the right to demand adequate assurance from Customer of Customer's ability to pay for Units and/or Services purchased. In the event Customer is unable to or unwilling to provide such adequate assurance, Seller may suspend or terminate operations hereunder. Seller's right to adequate assurance from Customer shall not be affected by Customer's filing for bankruptcy, rehabilitation, insolvency, receivership, reorganization, dissolution, liquidation, trusteeship or similar proceeding.

19. Termination for Default

Either Party may terminate Orders placed under these Overriding Terms, as applicable, upon a material breach of these Overriding Terms by the other Party, provided if such material breach is not cured or an agreed upon plan for cure is not in place within 90 Days (or, in the case of a breach of a payment obligation hereunder, 15 Days) after written notice from the non-breaching Party specifying the nature of such material breach; provided; however, that if such material breach (other than the breach of payment obligation hereunder) is of the nature that it can be cured, but cannot reasonable be cured within a 90 Day period, the non-breaching Party shall have not right to terminate an Order so long as the breaching Party begins to cure such breach as soon as reasonable possible following the beginning of such 90 Day period.

20. Severability

If any provision of these Overriding Terms, including any limitation of warranty or liability, is held by a court or any governmental agency or authority to be illegal, invalid, or unenforceable, then the validity and enforceability of the remaining provisions shall not be affected and, in lieu of such illegal, invalid, or unenforceable provision, the Parties shall add one or more provisions as similar in substance as may be legal, valid, and enforceable under applicable law.

21. Relationship of the Parties

Neither Party is a partner, agent or legal representative of the other Party and no fiduciary relationship between the Parties is created by these Overriding Terms. Seller is an independent contractor in the performance of Services under these Overriding Terms and each Party retains authority to manage its personnel, workers, subcontractors and operations required for performance of its obligations hereunder.

22. Waiver

Failure or delay by either Party to exercise or enforce any right conferred under these Overriding Terms, including Seller's right to deliver invoices under this Agreement, shall not be deemed to be a waiver of any such right. Further, a waiver, express or implied, by either Party of any default by the other in the observance and performance of any of the conditions, covenants or duties set forth these Overriding Terms shall not constitute or be construed as a waiver of any subsequent right or other default.

23. Taxes

- (a) For the purposes of any Orders under these Overriding Terms, taxes shall include, but not be limited to, sales taxes; use taxes; withholding taxes; value added taxes; goods and services taxes; stamp taxes; excise taxes; gross receipts taxes; transfer taxes; profits taxes; turnover taxes; port dues; import, export and custom duties; and any related penalties and interest or other similar taxes ("Taxes").
- (b) All prices stated in the Quote or Order under these Overriding Terms shall be exclusive of Taxes.
- (c) Customer shall pay the cost of any Taxes which Seller is required by applicable law to charge to Customer as a result of the transactions contemplated by these Overriding Terms, unless Customer shall have timely provided to Seller a valid and properly completed exemption certificate certifying that Customer is not subject to such Taxes.
- (d) Seller shall have no liability for any Taxes, whether imposed on Seller or Customer, in connection with the performance by Seller of its obligations under these Overriding Terms other than, for the avoidance of doubt, taxes imposed on Seller's net income.
- (e) In the event any amounts described herein (other than, for the avoidance of doubt, taxes imposed on Seller's net income) are imposed on Seller, Customer shall reimburse the Seller for such amounts within fifteen (15) Days of written request.
- (f) All payments shall be made without deduction or withholding. In the event that Customer is required by any law to make any deduction or withholding from any amount payable to Seller, then the amount payable to Seller shall be increased such that after all deductions and withholdings, the amount paid to Seller shall be equal to the amount to which Seller would have been entitled under the Order and these Overriding Terms had no deduction or withholding been required.
- (g) Any amounts withheld by Customer shall be timely remitted to the relevant authority as required by law. Customer shall promptly provide Seller with an official receipt or certificate in respect of the payment of such amounts.
- (h) Both Parties agree to co-operate to eliminate or reduce, consistent with applicable law, any Taxes or similar charges which may be payable by either Party, including, where applicable, providing or issuing the necessary documentation to support or secure exemptions or recoveries. Furthermore, if as a result of a change in law or a change in the tax practice of any tax authority, either Party becomes subject to additional Taxes or similar charges which increase its financial liability during the term of the Order and these Overriding Terms, both Parties will negotiate in good faith to attempt to reduce or eliminate such additional Taxes or similar charges; provided, however, that neither Party need take any steps which, in its reasonable opinion and acting in good faith, would increase its obligations or would be prejudicial or adverse to it (whether in respect of tax affairs or otherwise).
- (i) Any tariffs, duties, or similar trade-related or government-imposed charges that may be incurred in connection with the provision of Parts or services hereunder, including, without limitation, directly or indirectly in connection with the components and materials used in the manufacture of the Parts or provision of the services hereunder (collectively, "Tariffs"), in effect as of the Order placement, or imposed thereafter may, directly or indirectly, increase the cost of the Parts, Components, and services (collectively, "Goods and Services") provided under these Terms. Such Tariffs shall be the responsibility of Customer. Upon reasonable notice to Customer, Collins shall adjust the invoice for Goods and Services to account for the imposition of such Tariffs, such as by imposing a surcharge to offset the amount of the Tariffs.

24. Modifications

Any proposed modification will be evidenced by a written work change request submitted by Customer and must be agreed to in writing by Seller. If, in Seller's discretion, the proposed modifications would cause a material increase or decrease in the cost of, or the time required for the performance of, any part of the work in the Order, Seller shall be entitled to an equitable adjustment in the purchase price or delivery schedule or both. The change will become effective, and Seller will commence performance, after the Parties have agreed in writing upon any equitable adjustments applicable to the modifications, and the Order shall be deemed to be modified to include the modifications. Unless otherwise agreed in writing, upon performance of the change order, Seller will be entitled to invoice Customer for the costs of the change, even if Seller agreed to proceed with the change prior to such written agreement.

25. Captions

Captions as used in these terms and conditions are for convenience of reference only and shall not be deemed or construed as in any way limiting or extending the language of the provision to which such captions may refer.

26. Governing Law

A. For Seller locations within IATA 1, including the Americas, the laws of the State of Connecticut (without giving effect to its conflicts of law principles) govern all matters arising out of or relating to these Overriding Terms or the transactions contemplated hereby including, without limitation, its interpretation, construction, performance, and enforcement. The United Nations Convention on Contracts for the International Sale of Goods, 1980, and any successor thereto, shall not apply.

B. For Seller locations within IATA 2 and 3, including Europe, Middle East and Africa, Asia Pacific, and North Asia, the formation, construction, validity and performance of these Overriding Terms or the transactions contemplated hereby shall be governed by the laws of England and Wales and both Parties irrevocably submit to the non-exclusive jurisdiction of the English Courts. Pursuant to Article 6 of the United Nations Convention on Contracts for the International Sale of Goods, the Parties exclude the application of the provisions of said Convention to all transactions relating to the Order.

27. Dispute Resolution

A. For Seller locations within IATA 1, including the Americas, any legal action or proceeding arising out of or relating to these Overriding Terms or the transactions contemplated hereby shall be brought in the United States District Court for Connecticut or any court of the State of Connecticut and the Parties irrevocably consent to personal and exclusive jurisdiction and forum of, and agree to be bound by any judgment and orders rendered by, such courts.

B. For Seller locations within IATA 2 and 3, including Europe, Middle East and Africa, Asia Pacific, and North Asia any dispute arising out of or relating to these Overriding Terms, or the transactions contemplated hereby, including the breach, termination, or validity thereof, shall be finally resolved by arbitration.

(a) Any dispute arising out of or relating to these Terms, including the breach, termination, or validity thereof, shall be finally resolved by arbitration. The arbitration shall be administered by the International Centre for Dispute Resolution ("ICDR") in accordance with its International Arbitration Rules before a single arbitrator acceptable to both parties. The place of arbitration shall be England.

(b) The language of the arbitration shall be English. Any award shall be payable in the currency of the Order.

(c) Either Party may apply to the arbitrator seeking injunctive relief until the arbitration award is rendered or the controversy is otherwise resolved. Either Party also may, without waiving any remedy under these Overriding Terms, seek from any court of competent jurisdiction any interim or provisional relief that is necessary to protect the rights or property of that Party, pending the arbitrator's determination of the merits of the controversy.

(d) If any dispute, or response to any dispute, includes an allegation that potentially concerns whether any intellectual property right owned, controlled, or licensable by either Party is invalid, unenforceable or infringed or misappropriated, or is otherwise limited in scope or application, then either Party may, in its sole discretion, elect to have such dispute adjudicated before a court of competent jurisdiction and this clause shall not be binding on either Party with respect to such dispute in its entirety or any related dispute, including any portions of such dispute that do not concern intellectual property rights.

(e) All pleadings, motions, discovery responses, depositions, testimony, and documents exchanged or filed in relation to the arbitration shall be kept confidential. Any award issued by the arbitrator shall be confidential and entered under seal in a court of competent jurisdiction.

28. Force Majeure

Seller shall not be liable for any delay or failure to perform if such delay or failure is due to causes beyond the control, and without fault or negligence, of Seller including, but not limited to, acts of God or of the public enemy, acts of Government, insurrections, fires, floods, epidemics, quarantine restrictions, strikes, labor difficulties or freight embargoes. Seller shall not be liable for any interruption or suspension in the provision of the Unit(s) or Services, or any delay or failure to perform under these Overriding Terms when such interruption, suspension, delay or failure results from causes beyond its reasonable control, including an event which (i) is an act of God, act of Government, fire, floods, epidemics, quarantine restrictions, labor disputes, labor strikes, freight embargo, unusually severe weather, riot, war, acts of terrorism or any other event beyond the reasonable control of Seller: (ii) is a delay attributable to Customer directed sourcing or (iii) interferes with the performance of Seller's obligations (each a "Force Majeure Event"). In any such event, and with respect to the Unit(s) and Services so interrupted, suspended or delayed, Seller's obligations hereunder shall be postponed for such time as Seller's performance is interrupted, suspended or delayed on account thereof.

29. Publicity

This Agreement does not confer any right to use any name, trademark or other designation of either Party in any advertising, publicity or marketing activities. Neither Party will issue press releases, advertising, sales promotions or other publicity documents or information referring to the other Party without prior written consent of the other Party.

30. Confidentiality

For purposes of these Overriding Terms, Confidential Information means all information, knowledge, or data that is received by the receiving Party from the disclosing Party (in whatever format which was disclosed) in connection with these Overriding Terms and any related documents, and that is (a) in writing and clearly marked with a proprietary or confidential legend at the time of disclosure; (b) in a machine-readable form, with the information or the media in which it is provided being clearly marked with a proprietary or confidential legend at the time of disclosure, or if such marking is not practicable, such information or media being identified as proprietary or confidential by written communication of the disclosing Party prior to or contemporaneously with its disclosure; (c) disclosed orally or visually, with the information being identified as proprietary or confidential at the time of disclosure, and reduced to writing and clearly marked with a proprietary or confidential legend within thirty (30) Days of the initial disclosure; or (d) incorporated or embodied in equipment, material or item(s) clearly marked with a proprietary or confidential legend at the time of disclosure. Confidential Information does not include any information which: (i) in the public domain at the time the disclosing Party first disclosed it to the receiving Party hereunder, or subsequently became publicly known through no wrongful act of the receiving Party; (ii) known to the receiving Party, other than through receipt under a separate confidentiality agreement or similar agreement, prior to receipt under this agreement; (iii) disclosed to the receiving Party without restriction by a third party who had the lawful right to disclose such information; (iv) independently developed by the receiving Party without the use of or reference to Confidential Information; or (v) required to be disclosed by judicial process, subject to the conditions below with regard to this type of disclosure, and otherwise continues to protect such information as Confidential Information until such time as one of the foregoing exceptions (a) through (d) are satisfied.

Both Parties agree to limit access to the Confidential Information only to its employees, and agents whose work responsibilities require such access. Both Parties agree to limit access to the Confidential Information only to its employees whose work responsibilities require such access. Disclosure to any other persons, including consultants, contractors, contract labor or subsidiaries of receiving Party, shall not be permitted. Notwithstanding the disclosure restrictions set forth in this paragraph, Seller is hereby permitted to disclose Customer's Confidential Information to bona fide employees and contract labor personnel of its parent, subsidiaries, and affiliates that operate under the Collins Aerospace operating unit of Raytheon Technologies Corporation, provided such individuals have a need to know.

In the event the receiving Party is required by law, regulation or court order to disclose any of the disclosing Party's Confidential Information, the receiving Party will promptly notify the disclosing Party in writing prior to making any such disclosure in order to facility the disclosing Party's seeking a protective order or other appropriate remedy from the proper authority. The receiving Party agrees to cooperate with the disclosing Party in seeking such order or other remedy. The receiving Party further agrees that if the disclosing Party is not successful in precluding the requesting legal body from requiring the disclosure of the Confidential

Information, it will furnish only that portion of the Confidential Information that is legally required to be disclosed and will exercise all reasonable efforts to obtain reliable assurances that confidential treatment will be accorded the Confidential Information.

Under no circumstances will the Parties disclose information to any third party, except as stipulated above, including but not limited to any third party administrator engaged by Customer to provide administrative support services to Customer in furtherance of an Order under these Overriding Terms, without the prior express written permission of the other Party.

The Customer represents and warrants that it has the right to disclose Company Warranted Data as defined in Attachment 1, to the Seller pursuant to the terms of these Overriding Terms. Customer hereby grants to Seller a worldwide, perpetual, irrevocable, royalty-free, paid up license to Company Warranted Data, solely for the purpose of and to the extent necessary to do or have done on Seller's behalf: (i) provide, perform and verify the repair services under this Agreement; (ii) support aircraft maintenance, operation and fleet management, optimization and analysis for aircraft and components thereof; (iii) develop and/or deploy any predictive tools or diagnostic analysis capabilities; (iv) improve performance, operation, reliability and maintainability of products and services supported by Seller, and the products and services of Seller and its affiliates and subcontractors; (v) develop and/or improve Seller and its affiliates algorithms; (vi) and/or create, compile, and/or use aggregate datasets and/or aggregate statistics for any one of the above, and/or Seller's research, statistical, and marketing purposes. Notwithstanding anything in this Agreement to the contrary, all such improvements and developments in the preceding licensed uses (i) – (vi) shall be considered Seller intellectual property.

Customer hereby grants to Seller a worldwide, non-exclusive, revocable, paid-up, royalty free license to disclose or sublicense to its affiliates, subcontractors and aircraft OEM customers, Company Warranted Data for the purpose of assisting Seller with and providing services in connection with aircraft maintenance, operation and fleet management, optimization and analysis for aircraft, and any parts and components thereof.

31. Privacy and EU Data Act

A. Privacy.

The Unit(s) and/or Services being provided may result in the collection of Personal Information. Both Parties will comply with applicable Data Privacy Laws as they pertain to personal information processed in connection with activity under this Agreement.

"Personal Information" shall mean information and data exchanged under this agreement related to an identifiable natural person. Any Personal Information contained within Seller's products or services shall be owned by Seller. Customer shall be the controller of the Personal Information prior to submission to Seller and shall be responsible for all obligations relating to that data, including without limitation providing notice or obtaining consent as may be required by law.

With respect to any Personal Information provided by Customer to Seller, Customer warrants that it has the legal right to share such Personal Information with Seller.

"Controller" shall mean the Party that determines the purposes and means of processing Personal Information.

"Processing" of Personal Information shall mean the operation or set of operations whether automated or not, performed on Personal Information such as collecting, recording, organizing, structuring, storing, adapting, altering, retrieving, consulting, using, disclosing, sharing or erasing.

Once Customer has provided Personal Information to Seller, Customer and Seller shall become co-Controllers.

Seller may share Personal Information with service providers in accordance with applicable Data Privacy Laws. Seller may store Personal Information provided by Customer on servers located and accessible globally by United Technologies Corporation entities and their services providers.

The Parties agree to cooperate and to take reasonable commercial and legal steps to protect Personal Information against undue disclosure. In this regard each Party shall notify the other in the event of a data breach, which shall include the actual or unauthorized access to or possession of, or the loss or destruction of, Personal Information, whether intentional or accidental. The Party whose system was compromised in the data breach incident shall be responsible for any notifications and associated costs. Should either Party receive in any form, (i) a complaint or allegation indicating a violation of applicable data privacy law, (ii) a request seeking access to correct or delete Personal Information or (iii) an inquiry or complaint related to the processing of personal information, said Party shall take reasonable commercial steps to immediately notify the other Party.

B. EU Data Act.

The product or service under this agreement may generate or collect data. Seller will make or has made certain information relating to such data available to Customer under the EU Data Act (EU Regulation 2023/2854), if applicable. The type, format, and volume of data generated or collected will vary depending on the product or service, including whether the product or service can generate data continuously and in real-time and its data storage capabilities. Few Seller products can by themselves send data to a server. Duration of any data storage will also depend on whether Customer or Seller is storing the data. Access, retrieval, and erasure of data may also vary by product/service and Customer agreement. In the event the Customer does not have access to the above information, contact Seller for additional information.

32. LIMITATION OF LIABILITY

NOTWITHSTANDING ANYTHING ELSE IN THIS AGREEMENT, SELLER SHALL IN NO EVENT BE LIABLE TO CUSTOMER FOR INDIRECT, INCIDENTAL, COLLATERAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES OR LOSSES SUCH AS, BUT NOT LIMITED TO, LOSS OF REVENUES, LOSS OF ANTICIPATED SAVINGS OR LOST PROFITS, STOPAGES, RECALLS, HARM TO BUSINESS OR BUSINESS REPUTATION, WHETHER OR NOT FORESEEABLE, AND WHETHER ARISING IN CONTRACT (INCLUDING WARRANTY), TORT (INCLUDING ACTIVE, PASSIVE OR IMPUTED NEGLIGENCE), STRICT LIABILITY OR OTHERWISE.

THE PRICE ALLOCABLE TO THE SPECIFIC UNIT OR SERVICE PURCHASED HEREUNDER AND ALLEGED TO BE THE CAUSE OF ANY LOSS OR DAMAGE TO CUSTOMER SHALL BE THE CEILING LIMIT ON SELLER'S LIABILITY WHETHER FOUNDED IN CONTRACT OR TORT (INCLUDING NEGLIGENCE) ARISING OUT OF OR RESULTING FROM (I) THE ORDER OR THESE OVERRIDING TERMS OR THE PERFORMANCE OR BREACH THEREOF, (II) THE DESIGN, MANUFACTURE, DELIVERY, SALE, REPAIR, REPLACEMENT OR (III) THE USE OF ANY SUCH UNIT OR THE FURNISHING OF ANY SUCH SERVICE.

33. Attorney Fees

If Seller brings an action or asserts a counterclaim for enforcement of the terms and conditions of any Order, Customer agrees that Seller shall be entitled to an award of its reasonable attorney's fees and court costs associated with such enforcement or counterclaim proceedings.

34. Language

These Overriding Terms and any document referenced herein or attached hereto, any notice or binding communication shall be in the English language, and all documents and proceedings between the Parties relating to these Overriding Terms shall be in English and shall employ the units of measure customarily used by Seller in the United States. All payments shall be in U.S. Dollars unless otherwise agreed in writing.

35. Entire Agreement

These Overriding Terms, including attachments hereto, together with an Order constitutes the entire understanding and agreement between the Parties with respect to the subject matter hereof and matter hereof, and all prior proposals, representations, quotations, agreements, and understandings, written or oral, are superseded hereby. Customer acknowledges that any such prior proposals, representations, quotations, agreements, and understandings have been made for informational purposes only, that no liability under any legal or statutory theory, including fraud, can accrue to Seller based on any such materials or statements, and that all of the obligations and warranties of Seller are as expressly set forth in these Overriding Terms and are not supplemented or amended by any such materials. Each Party agrees and acknowledges that, in entering into this agreement, it is not relying on any representation, warranty, undertaking, covenant or assurance of any nature whatsoever (whether or not in writing) made or given by any person (whether or not a party to this agreement) which is not expressly set out in this agreement and waives all remedies and rights of action which, but for this clause, might otherwise be available to it in respect of any such representation, warranty, undertaking, covenant, or assurance.

36. A.O.G. Support

Collins provides twenty-four (24) hour Aircraft on Ground ("A.O.G.") support. Aircraft tail number must be provided when calling for A.O.G. support. Expedite fees may apply. Collins may assess additional surcharges in the event of A.O.G. stock misuse.

ATTACHMENT 1 – COMPANY WARRANTED DATA

Aircraft Data. All data, files, and reports collected from Company's aircraft comprising of the following:

- Quick Access Recorder (QAR) data;
- Smart Access Recorder (SAR) data;
- Continuous Parameter Logging (CPL) data;
- Aircraft Condition Monitoring System (ACMS) reports; and
- Aircraft Condition Monitoring Function (ACMF) reports.

Company Warranted Data. All data, files, and reports related to Company's aircraft comprising of the following:

- Aircraft Data;
- Schedule Interruption Data (as defined below);
- LRU Removal Data;
- Post Flight Reports;
- Aircraft Technical Logs;
- Aircraft Maintenance Logs;
- Maintenance Messages (MM);
- Flight Deck Effects (FDE);
- Minimum Equipment Lists (MEL); and
- Flight Recorder Electronic Documentation (FRED).

Schedule Interruption Data. All data, files, and reports related to flight schedule interruptions of Company's aircraft comprising of the following:

- Registration mark;
- Type of interruption (delay, cancellation, rejected takeoff (RTO), diversion, air turn back (ATB), aircraft on ground (AOG);
- Data and time of schedule interruption;
- Duration of interruption;
- maintenance and/or operations action taken as a result of the schedule interruption; and
- location that schedule interruption occurred.

LRU Removal Data. All identifying information related to a Line Replaceable Unit (LRU) removed from Company's aircraft comprising of the following:

- Registration mark;
- Part Number;
- Serial Number;
- Removal type (scheduled, unscheduled, or other);
- Installed location; example left engine;
- Removal date;
- Removal reason description;
- Time and Cycles Since New (TSN and CSN);
- Time and Cycles Since Installed (TSI and CSI);
- Time and Cycles Since Repaired (TSR and CSR);
- Time and Cycles Since Overhauled (TSO and CSO); and
- maintenance action related to the LRU removal.

Appendix B ("sale terms and conditions")

A part of Collins Aerospace ("Seller") STANDARD COMMERCIAL TERMS AND CONDITIONS OF SALE

1. ORDERS

Buyer will place all orders for goods and services (collectively, "Goods") to be provided by Seller by sending to Seller a purchase order (the "Order"). The Order shall contain only the Buyer and Seller identification, description, quantity, price, and/or delivery schedule of Goods by Buyer from Seller (the "Buyer Order Information"); and shall be subject to and governed solely by these Standard Commercial Terms and Conditions of Sale (the "Terms and Conditions"). Any terms or conditions set forth on any documents or forms utilized by Buyer, including, but not limited to, pre-printed terms and conditions on purchase order documents, and any communications (written or oral) between the parties that are: inconsistent with, add to, vary from, and/or are not included within, the Terms and Conditions contained herein, are expressly disclaimed and shall be of no force or effect unless expressly agreed to in writing by an authorized representative of Seller. Order(s) or other types of purchase contracts that incorporate these Terms and Conditions may be referred to hereinafter as the Agreement (the "Agreement").

2. ORDER ACCEPTANCE

Acceptance of the Order shall be indicated by the written acknowledgement of Seller's authorized representative. Seller shall not be obligated to accept any Order. Seller may not accept any Order issued at a time when Buyer is in default in its payments and/or its other material obligations, notwithstanding the fact that notice of such default has not been given and/or that a cure period applies.

Seller's acceptance of Orders is given only on the express understanding and condition that only the Terms and Conditions shall govern and establish any rights and obligations of the parties with respect to the Goods covered thereby. Seller's failure to object to provisions contained in any document or communication from Buyer shall not be deemed a waiver of the application of the Terms and Conditions. Without limiting the generality of the foregoing, any terms or conditions set forth on any documents or forms utilized by Buyer and any communications (written or oral) between the parties that are: inconsistent with, add to, vary from, and/or are not included within, these Terms and Conditions, are expressly disclaimed and shall be of no force or effect unless agreed to in writing and signed by an authorized representative of Seller.

If Seller is unable to furnish any Goods on the Order in quantity, size or otherwise, as specified and described on the Order, the Order acknowledgment will so indicate within fifteen (15) business days and may provide details as to recommended substitutes, including part number, description, price, and availability.

3. ORDER OF PRECEDENCE

Buyer and Seller agree that these Terms and Conditions are the only terms and conditions incorporated in Buyer's Order and other than the Buyer Order Information contained in Buyer's Order, all other terms and conditions on Buyer's Order are hereby expressly disclaimed, even if Seller performs under the Buyer's Order, unless expressly agreed to in writing by an authorized representative of Seller.

4. CANCELLATION

No cancellations of Orders by Buyer will be accepted within fifteen (15) calendar days of the earliest requested ship date. All cancellations of any Order by Buyer sixteen (16) or more calendar days prior to the earliest requested ship date shall result in a cancellation charge to be reasonably determined by Seller based on such factors as whether the Goods were manufactured specifically for Buyer, Seller's ability to change its production schedule within the period of the notice provided by Buyer and whether Seller acquired or allocated supplies or equipment to meet Buyer's Order.

5. CHANGES

Buyer may by written notice request changes within the general scope of the Order to any one or more of the following: (a) drawings, designs, or specifications; (b) method of shipment or packaging; (c) place of inspection, delivery, or acceptance; and (d) amount of Buyer-furnished materials.

Any proposed modifications will be evidenced by a written work change order request submitted by Buyer and must be agreed to in writing by an authorized representative of Seller. If, in Seller's discretion, the proposed modifications would cause an increase in the cost of, value of, and/or the time required for the performance of, in whole or in part of, the work in the Order, Seller shall be entitled to an equitable adjustment, including but not limited to the purchase price, incentive(s), royalties and/or the delivery schedule.

The change will become effective, and Seller will commence performance, after the parties have agreed in writing upon any equitable adjustments applicable to the modifications, and the Order shall be deemed to be modified to include the modifications. Unless otherwise agreed in writing, upon performance of the change order, Seller will be entitled to invoice Buyer for the costs and/or secure any agreed to equitable adjustment(s), of the change, even if Seller agreed to proceed with the change prior to such written agreement.

6. DRAWINGS AND SPECIFICATIONS

The Goods shall be manufactured to Seller's drawings and specifications, unless otherwise specified on Buyer's Order and agreed to in writing by Seller. If applicable, Buyer's drawings and technical specifications (collectively, the "Buyer Specifications") shall be attached to the Order after agreement in writing by Seller's authorized representative of its content and compliance level. Seller's compliance with any Buyer requested modifications to the Buyer Specifications shall be subject to **Article 5 - CHANGES**.

Seller is reasonably entitled to rely on information supplied by Buyer concerning the Goods including but not limited to timely furnishing of designs, drawings, specifications, test parameters, and all other technical requirements which are the responsibility of Buyer.

7. INTELLECTUAL PROPERTY

The Goods are based on technology developed solely by Seller, and Seller retains ownership of all intellectual property and data rights therein or generated in the performance thereof. No rights or licenses are granted to Buyer. Seller shall defend, or at its option, settle, any claim, suit or proceeding ("Claim") brought against Buyer based on an allegation that Goods manufactured and sold by Seller under the Agreement directly infringe a valid United States patent, and Seller shall indemnify Buyer against any direct loss, damage or liability, incurred by Buyer as a result of such Claim, provided: (a) Seller is notified promptly by Buyer in writing of the Claim, and (b) Seller is given exclusive authority by Buyer and reasonable information and assistance by Buyer for the defense and/or settlement thereof.

In the event of a final adjudication by a court of competent jurisdiction that the Goods infringe such patent and the use of sale thereof is enjoined (or in Seller's reasonable opinion, the use or sale is likely to be enjoined), Seller, shall, at its option, either (a) obtain for Buyer the right to continue using the Goods, (b) replace the Goods with non-infringing goods, (c) modify the Goods so they become non-infringing, or (d) refund to Buyer a pro-rata portion of the purchase price for the Goods.

Seller has no liability for any Claim based upon (a) infringement by Goods manufactured according to a design, specification and/or instruction provided or requested by Buyer, (b) infringement based upon the combination, operation, or use of the Goods with other products/services non supplied by Seller, wherein the infringement would not have occurred but for such combination, operation, or use, or (c) infringement resulting from changes made to the Goods without Seller's prior written consent.

The foregoing states the entire obligation of Seller with respect to intellectual property infringement indemnification.

For any part provided by Seller to Buyer which is made in accordance with drawings, samples or specifications of Buyer and is not solely the design of Seller, or which is made part of a combination of other parts not furnished by Seller, Buyer shall defend, indemnify, and hold Seller harmless to the same degree and subject to the same requirements as set forth in Seller's obligations to Buyer above.

8. DISPUTES

Any dispute shall be communicated in writing. If Seller and Buyer cannot agree on a resolution of the dispute within thirty (30) calendar days, the dispute shall be escalated to the respective director-level leadership of both Seller and Buyer for resolution. If the director-level leadership of Seller and Buyer are unable to resolve any dispute escalated to them within thirty (30) calendar days, the dispute shall be escalated to the vice-president-level leadership of Seller and Buyer. If the vice-president level leadership are unable to resolve any dispute escalated to them within thirty (30) calendar days, Seller may suspend work on the disputed portion of the Agreement until resolution of the dispute; either Party may, subject to **Article 9 – GOVERNING LAW**, pursue any rights or remedies available to it hereunder.

9. GOVERNING LAW

The Agreement shall be governed by the laws of the State of New York, USA, excluding its conflict of laws rules other than as found in Section 5-1401 and 5-1402 of New York's General Obligations Law. The provisions of the Convention for the International Sale of Goods shall not apply.

Any and all disputes (whether arising in tort, contract or otherwise) arising under or in any way relating to the subject matter of the Agreement shall be governed by the laws of the State of New York, without regard to any conflicts of law principles applied in that State that would require application of any other law. Buyer and Seller each hereby consent to the exclusive jurisdiction and venue of the courts, state and federal, located in the State of New York, with respect to any action, suit or proceeding relating to the Agreement.

10. ASSIGNMENT

Neither Buyer nor Seller may assign, charge, transfer or otherwise dispose of the Agreement or any interests, rights, or obligations therein in whole or in part, without the prior written consent of the other party, which consent shall not be unreasonably withheld, delayed, or conditioned. Notwithstanding the foregoing, Seller may assign any and all of its rights and obligations hereunder upon notification to Buyer to (i) any Seller-affiliated company; (ii) a third party pursuant to any sale or transfer of all or part of the assets or business of Seller; or (iii) a third party pursuant to or in connection with any financing, merger, consolidation, change in control, reorganization or other business combination involving Seller.

Notwithstanding the foregoing, any of the above items (i) through (iii) resulting primarily from a corporate reorganization, spin-off, split-off or similar corporate transaction involving Collins Aerospace ("Collins"), or any Collins affiliate ("Spinoff"), shall not be deemed to be an assignment or change in control, provided that in connection with such Spinoff, a Third Party does not acquire control of the entity subject to the Spinoff. For purposes of this Section, "Third Party" is defined as any entity other than Collins or any of its wholly owned subsidiaries or controlled affiliates, or any person(s) who control(s) Collins immediately prior to such Spinoff.

The terms "control", "controlling", "controlled by", and "under common control with" shall mean the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a person, whether through ownership of securities or other interests, by contract or agreement, or otherwise.

11. COMPLIANCE WITH GLOBAL TRADE STATUTES AND REGULATIONS

- (a) In performing the obligations of the Agreement, both parties will comply with all applicable United States and Non-U.S. export control and sanctions laws, regulations, restrictions and orders, as they may be amended from time to time, applicable to the export and re-export of goods, software, technology, or technical data ("Items") or services, including without limitation the Export Administration Regulations ("EAR"), International Traffic in Arms Regulations ("ITAR"), Foreign Assets Control Regulations (as administered and enforced by the Treasury Department's Office of Foreign Assets Control), U.S. Customs Regulations, Foreign Trade Statistics Regulations (U.S. Census Bureau) and Bureau of Alcohol, Tobacco, Firearms and Explosives Regulations (U.S. Justice Dept.), and any applicable non-U.S. laws, regulations, sanctions, and restrictions (collectively, "Export Control Laws and Regulations"). Buyer agrees that it will take measures to ensure that any goods or technical data received from Seller are not modified for or diverted for any use contrary to United States law, including any military application.
- (b) The party conducting the export shall be responsible for applying for the required authorizations for the applicable export, although Seller shall have the sole authority to make or have made any required submissions to the United States Census Bureau to the extent that it is the U.S. Principal Party in Interest in the export. The party conducting the re-export/re-transfer shall be responsible for applying for the required authorizations. Each party shall reasonably cooperate and exercise reasonable efforts to support the other party in applying for the necessary licenses or authorizations required to perform its obligations under the Agreement. Neither party guarantees the issuance or continuation in effect of such authorizations and shall have no liability in such event. If the relevant goods or technical data are subject to a license or other governmental approval specifically identifying Buyer as the end-user thereof, Buyer will not, directly, or indirectly, export, re-export, transfer, or re-transfer such goods or technical data received from Seller to any destination without Seller's prior written approval unless specifically permitted pursuant to such license or approval. Buyer shall indemnify and hold harmless Seller from any and all liability or other consequences arising because of a breach of clauses (a) or (b) above. Buyer agrees not to reexport Goods delivered pursuant to the Agreement or an Order to or for use in Russia or Belarus.

- (c) The party providing any Items under this contract shall, upon request, notify the other party of the Items' Export Control Classification Numbers ("ECCNs") or applicable non-U.S. classification number as well as the ECCNs of any components or parts thereof if they are different from the ECCN of the Item at issue. Buyer shall be responsible for complying with all applicable export laws, including Export Control Laws and Regulations governing the export, re-export, transfer, and re-transfer.
- (d) Items received in Violation of Export Control Laws and Regulations: if Seller receives an Item from Buyer that, whether or not through Buyer's fault, is in non-compliance with the Export Control Laws and Regulations, Seller reserves the right to retain possession of such property ("quarantine"). Seller shall have no responsibility or liability for, and Buyer shall indemnify and hold Seller harmless against, any losses, claims, or damages incurred by Buyer or any third party resulting from Seller's quarantine of such unit.

12. WAIVER

Failure or delay by either party to exercise or enforce any right conferred by the Agreement, including Seller's right to deliver invoices, shall not be deemed to be a waiver of any such right. Further, a waiver, express or implied, by either party of any default by the other in the observance and performance of any of the conditions, covenants or duties set forth in the Agreement shall not constitute or be construed as a waiver of any subsequent or other default.

13. EXCUSABLE DELAY

Seller shall not be in default by reason of any failure in performance of the Agreement if such failure arises out of causes beyond the control of and without the fault or negligence of Seller including but not restricted to:

(a)(i) an act of God, act of Government, fire, floods, epidemics, quarantine restrictions, strikes, freight embargo, unusually severe weather, riot, war, acts of terrorism or any other event which constitutes a superior force; (ii) interferes with the performance of Seller's obligations; and (iii) the effects of which could not reasonably have been avoided by Seller ("Excusable Delay")

(b) ,in addition to the events described in paragraph (a), a delay caused by the default of a subcontractor of the Seller shall constitute an Excusable Delay if the event causing the default of such subcontractor is an event which meets the criteria set out in paragraph (a) and such delay has not been caused by Seller, unless the exact same subcontracted supplies or services were obtainable at reasonable prices on similar and commercially reasonable terms from other sources in sufficient time for Seller to meet the required delivery schedule.

In the event of an Excusable Delay, any affected delivery date shall be postponed for such period as is reasonably necessary to offset the effects of the Excusable Delay. No adjustment will be made to price under the Agreement; adjustment of the delivery schedule is the exclusive remedy of Seller for an Excusable Delay.

Notwithstanding the above, after an Excusable Delay has continued for a period of one hundred and eighty (180) business days in the aggregate the Buyer may, in the Buyer's absolute discretion, terminate the Agreement. In the event of such termination, the rights and obligations of Buyer and Seller shall be determined in accordance with the provisions of **Article 4 – CANCELLATION**.

14. BUYER-FURNISHED PROPERTY

Seller acknowledges that all drawings, specifications, patterns, technical data, molds, forms, equipment, and materials developed or prepared by Buyer at Buyer's sole expense, which are provided to Seller by Buyer to facilitate Seller's production of the Goods or performance of the Agreement, and all copies thereof ("Buyer Materials"), shall remain the property of Buyer. Upon demand by Buyer, Seller shall promptly return or deliver to Buyer all Buyer Materials at Buyer's cost. Buyer agrees that it has adequate insurance on all the Buyer Materials, and Seller assumes no liability for loss or damage to said property, including normal and reasonable wear and tear. If the Agreement requires the use of Buyer-Materials, Buyer shall furnish it in accordance with the schedule defined in the Agreement. Buyer's failure to do so shall entitle Seller to an equitable adjustment subject to and in accordance with **Article 5 - CHANGES**.

15. TOOLS AND MATERIALS

Title to all Buyer tooling, equipment or materials furnished or paid by Buyer for as a direct charge or called out as a special item for use hereunder shall be and remain with Buyer. Upon completion or termination of the Agreement, Seller shall return any such material to Buyer, unless otherwise agreed in writing by the parties. Seller assumes no liability for loss or damage to said property, including normal and reasonable wear and tear.

16. SUBCONTRACTS

Seller may subcontract any part, or all of the work or services to be provided under the Agreement without Buyer's prior written consent.

17. ACCEPTANCE OF GOODS

Unless otherwise mutually agreed in writing, Goods are sold only with Seller's standard quality control tests and calibrations and Seller's standard documentation. Not later than fifteen (15) calendar days from the delivery date, Buyer shall notify Seller in writing upon receipt of Goods of all discoverable defects, including quantity shortages, incorrect product, and visible defects. In the event Buyer fails to inspect the Goods or does not present a rejection notice to Seller in writing within fifteen (15) calendar days of the delivery date, the Goods shall be deemed accepted. At that time, Buyer's only recourse or remedy for non-conforming or defective Goods shall be as provided in **Article 27 – WARRANTY**.

18. RETURNED GOODS

No return of Goods will be accepted by Seller without Seller's prior written authorization. Returned Goods must be new, undamaged, unused and in original manufacturer's shipping cartons complete with all packing materials.

19. PACKING, CRATING AND SHIPPING

The Goods shall be suitably packaged and prepared for shipment using standard commercial practices to withstand normal transportation and stocking functions.

20. CONFIDENTIAL INFORMATION

Any and all information disclosed or provided by Seller to Buyer in connection with the Agreement is proprietary and confidential to Seller. Buyer shall hold such information in confidence, shall not disclose it to any third party without the prior written consent of Seller's authorized representative, and shall use such information only as necessary, on a need-to-know basis, to use the Goods delivered by Seller under the Agreement.

Buyer agrees that in the event of a breach or threatened breach of the provisions of this **Article 20 – CONFIDENTIAL INFORMATION**, and in addition to any other rights or remedies the Seller may have at law or in equity, Seller may seek injunctive or other equitable relief compelling compliance with the confidentiality obligations.

21. SOFTWARE PROVISIONS

All computer software provided to Buyer under the Agreement is copyrighted by Seller and is licensed to Buyer. Seller grants to Buyer a nonexclusive, non-transferable license to use the software provided hereunder i) during the normal operation in or with Seller products which are installed, or are intended to be installed, on aircraft or vehicle, ii) in the analysis or the formatting of reports using data from such Seller products, or iii) on products that are used to test, maintain, download or process information compiled by Seller products. Making copies of software is prohibited. The software may not be sub-licensed, transferred or loaned to any other party, except that Buyer may transfer the software in conjunction with the resale of any equipment in which the software is installed or with which it is used. Buyer may not, either itself or with the assistance of others, make modifications to the software or perform any operation on software to recover any portion of the program listing, object code or source code or any information contained therein.

This software license is effective as of the date of first delivery hereunder and shall continue until terminated by Buyer upon thirty (30) calendar days prior written notice to Seller, provided Buyer ceases using and either returns or destroys Seller software: or, by Seller if Buyer does not comply with any of the terms and conditions of this software license and Buyer fails to remedy such failure within thirty (30) calendar days after having received notice from Seller of such failure.

22. SHIPMENT AND RISK OF LOSS

Title to the Goods shall pass to Buyer upon delivery.

The Goods shall be delivered International Chamber of Commerce (Incoterms® 2020). Risk of loss shall pass to Buyer when Seller makes Goods available to Buyer at Seller's facility. Risk of loss also shall be transferred to Buyer if shipment or collection is refused due to Buyer's act or omission. Buyer shall be solely responsible for providing and paying for shipping insurance.

Further, Seller shall not have any liability for any loss resulting from uninsured or under-insured Goods.

Incoterms® rules – International rules for the interpretation of the most commonly used trade terms defining the responsibilities of buyers and sellers for the delivery of goods in international commercial transactions. Incoterms® are published by the International Chamber of Commerce, Paris (current revision is “Incoterms® 2020”). Should the Incoterms® rules be revised such that the intentions of the Agreement are materially affected, the parties agree to renegotiate applicable terms as required.

23. DELIVERY SCHEDULE

1. Buyer acknowledges that any delivery schedule provided by Seller is only an estimation of the lead times. Seller will use commercially reasonable efforts to initiate shipment and schedule delivery as close as possible to Buyer’s requested delivery schedule but shall not be liable to Buyer for failure to meet any delivery schedule or for the costs to procure or design substitute goods.

Seller reserves the right to make deliveries in installments. Delivery of a quantity that varies from the quantity specified in Buyer’s Order shall not relieve Buyer of its obligation to accept delivery and pay for the Goods delivered. Buyer shall not refuse to accept delivery or any consignment or installment on account of any shortage or defect in any other delivery.

Delays or changes in schedules resulting from Buyer’s acts or omissions shall be subject to price adjustments in Seller’s sole discretion. If a delivery is delayed at Buyer’s request by more than thirty (30) calendar days after ready for shipment notification, Seller may charge demurrage costs in the amount of zero-point five percent (0.5%) of the purchase price of the Order for each month or partial month of delay up to a maximum of five percent (5%) of the total purchase price.

24. PAYMENT TERMS

Payment shall be received not later than thirty (30) calendar days after the date of Seller’s invoice. Payment shall be made in full, without any set-off or deduction whatsoever in the currency in which the invoice is presented. Interest will automatically and without any notice of default accrue on overdue invoices from the due date until payment at the rate of the lower of: (i) eighteen percent (18%) per annum; or (ii) the highest interest rate permitted by United States law. Buyer will be responsible for any litigation costs and attorneys’ fees associated with collection of past due invoices. In the event the Buyer has failed to pay any of its invoices on time in accordance with the terms of the Agreement the Seller reserves the right to suspend all outstanding deliveries of the Goods to the Buyer and/or limit its contractual performance unless and until all such outstanding payments have been made to the Seller. It is acknowledged that any such suspension/limitations will not constitute a default or breach of the Agreement on the part of the Seller.

25. TAXES

a. For the purposes of the Agreement, taxes shall include, but not be limited to, sales taxes; use taxes; withholding taxes; value added taxes; goods and services taxes; stamp taxes; excise taxes; gross receipts taxes; transfer taxes; profits taxes; turnover taxes; port dues; import, export and custom duties; and any related penalties and interest or other similar taxes (“Taxes”).

b. All prices stated in the Agreement shall be exclusive of Taxes.

c. Buyer shall pay the cost of any Taxes which Seller is required by applicable law to charge to Buyer as a result of the transactions contemplated by the Agreement, unless Buyer shall have timely provided to Seller a valid and properly completed exemption certificate certifying that Buyer is not subject to such Taxes.

d. Seller shall have no liability for any Taxes, whether imposed on Seller or Buyer, in connection with the performance by Seller of its obligations under the Agreement other than, for the avoidance of doubt, taxes imposed on Seller’s net income.

e. In the event any amounts described in paragraph 4 (other than, for the avoidance of doubt, taxes imposed on Seller’s net income) are imposed on Seller, Buyer shall reimburse the Seller for such amounts within 15 days of written request.

f. All payments shall be made without deduction or withholding. In the event that Buyer is required by any law to make any deduction or withholding from any amount payable to Seller, then the amount payable to Seller shall be increased such that after all deductions and withholdings, the amount paid to Seller shall be equal to the amount to which Seller would have been entitled under the Agreement had no deduction or withholding been required.

g. Any amounts withheld by Buyer shall be timely remitted to the relevant authority as required by law. Buyer shall promptly provide Seller with an official receipt or certificate in respect of the payment of such amounts.

h. Both Parties agree to co-operate to eliminate or reduce, consistent with applicable law, any Taxes or similar charges which may be payable by either Party, including, where applicable, providing or issuing the necessary documentation to support or secure exemptions or recoveries. Furthermore, if as a result of a change in law or a change in the tax practice of any tax authority, either Party becomes subject to additional Taxes or similar charges which increase its financial liability during the term of the Agreement, both Parties will negotiate in good faith to attempt to reduce or eliminate such additional Taxes or similar charges; provided, however, that neither Party need take any steps which, in its reasonable opinion and acting in good faith, would increase its obligations or would be prejudicial or adverse to it (whether in respect of tax affairs or otherwise).

26. STOP WORK

When directed by written notice from Buyer (a "Stop Work Notice"), Seller shall promptly stop all or part of the work relating to the applicable Order to the extent specified in the Stop Work Notice for a period of up to ninety (90) calendar days or longer if extended by mutual agreement. When a Stop Work notice is removed, Buyer and Seller shall promptly negotiate an equitable adjustment in the delivery schedule, scope and/or price, and the Order shall be modified in writing accordingly. Seller shall resume work subject to agreement on the equitable adjustment. Failure by Buyer to lift the Stop Work order within the specified time shall be treated as a cancellation, at Seller's option.

Notwithstanding anything to the contrary in **Article 4 – CANCELLATION**, Seller shall be entitled to reasonable compensation for all costs incurred as a result of the Stop Work and cancellation.

27. WARRANTY

New Goods supplied by Seller under the Agreement are warranted to be, at the time of delivery of the Goods, free from defects in material and workmanship. The warranty period shall be twelve (12) months from the date of delivery by Seller. If, at the time of delivery of the product, any such product is found to be defective in material or workmanship, Seller shall, if it confirms existence of the defect, repair or, at its option, replace such defective product at its expense and with reasonable promptness. Buyer shall provide Seller with written notice of a claimed defect within three (3) months after the defect becomes apparent to Buyer but in no event later than one year from the date of delivery of the Goods to Buyer. Said notice will contain reasonable proof that the claimed defect is covered by Seller's warranty. Seller's obligation hereunder is further conditioned upon return of the defective Goods to Seller within such period. The warranty period for Goods or parts thereof that have been repaired or replaced shall be six (6) months or the remainder of the original warranty period, whichever is greater.

Warranty Exclusions: Seller's warranty does not extend to any Goods which i) have been subjected to misuse, neglect, accident, improper, unintended or non-conforming installations; or ii) are used for purposes not included or not in accordance with Seller's prescribed operational maintenance procedures and instructions; or iii) which have been repaired or altered by Buyer or persons other than Seller (except as otherwise authorized by Seller) using practices that do not conform with Seller's prescribed maintenance and repair procedures; or iv) which have been damaged by secondary causes which are inconsistent with applicable product specifications, including but not limited to, improper voltages, adverse or extreme environmental conditions, improper signals, or products which have had their serial number or any part thereof altered, defaced, or removed.

28. LIMITATION OF LIABILITY AND DISCLAIMER OF OTHER WARRANTIES

The only warranties made by Seller are those expressly provided herein. Any other statements expressed in the contract, including but not limited to proposals, specifications, drawings, or manuals shall not be deemed to constitute a warranty of the products. THE WARRANTIES SET FORTH HEREIN ARE EXCLUSIVE AND NO OTHER WARRANTIES OF ANY KIND, WHETHER EXPRESS OR IMPLIED, INCLUDING ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND ALL WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE SHALL APPLY. THE REMEDIES SET FORTH IN THIS ARTICLE ARE THE SOLE AND EXCLUSIVE REMEDIES OF BUYER FOR ANY CLAIMS, EXPENSES OR DAMAGE ARISING OUT OF OR RELATED TO GOODS DELIVERED UNDER THE AGREEMENT.

SELLER'S LIABILITY WITH RESPECT TO NONCONFORMING OR DEFECTIVE GOODS IS LIMITED TO BUYER'S NET CURRENT PURCHASE PRICE, AFTER CASH AND OTHER DISCOUNTS, OF ANY SUCH GOODS OR, AT SELLER'S OPTION, TO THE REPAIR OR REPLACEMENT OF SUCH GOODS UPON ITS EVALUATION BY SUPPLIER'S TECHNICAL REPRESENTATIVES OR ITS RETURN TO SUPPLIER, TRANSPORTATION CHARGES PREPAID.

NOTWITHSTANDING ANYTHING ELSE IN THIS AGREEMENT AND NOTWITHSTANDING THE FAILURE OF ESSENTIAL PURPOSE OF ANY SUCH LIMITED REMEDY, SELLER'S TOTAL LIABILITY IN CONTRACT, TORT, STRICT LIABILITY OR OTHERWISE ARISING IN CONNECTION WITH THE AGREEMENT SHALL BE LIMITED TO THE AGGREGATE AMOUNT PAID BY BUYER TO SELLER FOR THE SPECIFIC GOOD(S) GIVING RISE TO OR RELATED TO SUCH LIABILITY UNDER THE AGREEMENT.

NOTWITHSTANDING ANYTHING ELSE IN THIS AGREEMENT, SELLER SHALL IN NO EVENT BE LIABLE TO BUYER FOR INDIRECT, INCIDENTAL, COLLATERAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES OR LOSSES SUCH AS BUT NOT LIMITED TO, LOSS OF REVENUES, LOSS OF ANTICIPATED SAVINGS OR LOST PROFITS, LINE STOP, RECALLS, HARM TO BUSINESS OR BUSINESS REPUTATION, WHETHER OR NOT FORESEEABLE, AND WHETHER ARISING IN CONTRACT (INCLUDING WARRANTY), TORT (INCLUDING ACTIVE, PASSIVE OR IMPUTED NEGLIGENCE), STRICT LIABILITY OR OTHERWISE.

29. PARTIAL INVALIDITY AND SEVERABILITY

If any provision of the Agreement, including any limitation of warranty or liability, is held by a court or any governmental agency or authority to be invalid, void or unenforceable, the parties agree to negotiate in good faith to draft a new legal and enforceable provision that, to the maximum extent possible, comports with the original intent of the parties and maintains the economic and other terms to which the parties originally agreed. If after thirty (30) calendar days the parties have been unable to reach agreement, the Order will be deemed terminated and may result in a cancellation charge in accordance with the provisions of **Article 4 – CANCELLATION**.

30. INDEPENDENT CONTRACTOR

Neither party is a partner, agent or legal representative of the other party and no fiduciary relationship between the parties is created by the Agreement. Seller is an independent contractor in the performance of the Agreement, and each party retains authority to manage its personnel, workers, subcontractors, and operations required for performance of its obligations hereunder.

31. PUBLICITY

The Agreement does not confer any right to use any name, trademark, or other designation of either party in any advertising, publicity, or marketing activities. Neither party will issue press releases, advertising, sales promotions or other publicity documents or information referring to the other party without prior written consent of the other party.

32. CHOICE OF LANGUAGE

The Agreement, any document referenced herein or attached hereto, any report, any drawings or other technical information, or any notice or binding communication shall be drafted in English, shall be interpreted in accordance with the plain English meaning of their terms, and shall employ the units of measure customarily used by Seller in the United States.

33. U.S. GOVERNMENT CONTRACT CLAUSES

If the Agreement is a subcontract for commercial items or commercial components to a U.S. Government prime contract, the clauses specified in FAR 52.244-6 and DFARS 252.244-7000 as prescribed by FAR 44.403 and DFAR 244.403, respectively, shall apply.

For all other purchase orders, agreements, or transactions, any U.S. Government contract clauses incorporated by reference are only applicable to this subcontract pursuant to the guidelines and prescriptions relating to mandatory flow down contained within the particular clause and based upon

the specified contract value or contract type as defined in the FAR, DFARS, and other agency supplements, or other applicable regulatory requirement.

34. USE OF PURCHASED PARTS

Repairs, maintenance, and modifications of equipment using Goods purchased from Seller must be performed as specified in the applicable component maintenance or overhaul manual and/or service bulletin, by technically competent personnel. The repairs, maintenance, and/or modification are to be accomplished utilizing tooling and test equipment, as specified in the manual or service bulletin, in a repair facility approved by the appropriate governing airworthiness authority. Buyer, in purchasing Goods hereunder, agrees to execute a technical publications general terms agreement (GTA) prior to such purchase and, represents and warrants that the end user of such Goods will consume such Goods in repairs, maintenance and/or modifications as specified herein and that such end user has executed a technical publications general terms agreement (GTA) and has purchased or appropriately acquired the component maintenance manual(s) relating to such Goods (as well as any applicable updates thereto) from Seller or

Seller's authorized representative, or has independently developed data, which has been approved by the appropriate governing airworthiness authority, relating to the use of such Goods in repairs, maintenance and/or modifications of equipment. Buyer understands and agrees that Goods delivered by Seller for which Seller does not hold Federal Aviation Administration (FAA) Parts Manufacturer Approval (PMA) or Technical Standards Orders Authorization (TSOA) are delivered with a Statement of Conformance only. Buyer further understands and agrees that Buyer shall be responsible for determining eligibility for installation of those Goods.

If Buyer does not comply with the provisions of this article, Buyer agrees to defend, indemnify, and hold harmless Seller from any and all claims, loss or expense resulting directly or indirectly from such noncompliance. Buyer also agrees that failure to comply with the requirements of this article shall create a presumption that Buyer is misusing Seller's component maintenance manuals and other proprietary information and is thereby causing Seller irreparable harm. As a result, Buyer agrees that failure to comply with the above requirements shall entitle Seller to relief (including, but not limited to, injunctive relief and appropriate damages). In addition, Seller shall be entitled to reject future orders of Buyer unless/until Buyer confirms, to Seller's satisfaction, compliance with the provisions of this article.

35. COMPLIANCE WITH FAIR LABOR STANDARDS ACT

Seller hereby certifies that all Goods sold hereunder which are produced or manufactured in the United States of America are produced in compliance with the Fair Labor Standards Act of 1938, as amended (29 U.S. Code 201-219). All requirements as to the certificate contemplated in the October 26, 1949, amendment to the Fair Labor Standards Act of 1938 shall be considered as satisfied by this certification.

36. INSOLVENCY

In the event Buyer shall file a voluntary petition, or any comparable petition, for bankruptcy, insolvency, receivership, reorganization, dissolution, liquidation, trusteeship, or similar proceeding for the protection or relief of financially distressed debtors, the Seller shall have the right to limit, suspend or terminate operations hereunder with immediate effect upon written notice to the Buyer and to the fullest extent permitted by law.

Seller has the right to demand adequate assurance from Buyer of Buyer's ability to pay for Goods purchased. In the event Buyer is unable to or unwilling to provide such adequate assurance, Seller may limit, suspend or terminate operations hereunder. Seller's right to adequate assurance from Buyer shall not be affected by Buyer's filing for bankruptcy, rehabilitation, insolvency, receivership, reorganization, dissolution, liquidation, trusteeship, or similar proceeding.

37. ANTI-BOYCOTT COMPLIANCE

Seller complies with all U.S. laws directed against foreign restrictive trade practices or boycotts as embodied in the Export Administration Act of 2018 (as amended), the Tax Reform Act of 1976 and all regulations and guidelines issued hereunder. Accordingly, to the extent that any Buyer Order(s)

or other document(s) contain prohibited provisions, Seller takes specific exception and objects to these provisions which are not in compliance with the referenced laws and regulations. To avoid delays in processing Buyer Orders, all prohibited provisions shall be deemed deleted from Orders or other documents.

38. COPYRIGHT

Seller electronic firmware assemblies contain computer programs which are protected by copyright. All rights reserved are under copyright laws of the United States of America and other countries. Such computer programs may not be reproduced, in whole or in part, in any form, without prior written authorization from Seller.

39. ATTORNEY'S FEES

If Seller brings an action or asserts a counterclaim for enforcement of the Agreement, Buyer agrees that Seller shall be entitled to an award of its reasonable attorney's fees and court costs associated with such enforcement or counterclaim proceedings in the event of a favorable judgment for the Seller.

40. ENTIRE AGREEMENT

The Agreement, including any exhibits and attachments hereto, comprise the entire understanding and agreement between the parties with respect to the subject matter hereof and supersedes all prior proposals, representations, agreements, and understandings, whether oral or written, except as stated herein.

41. DATA PRIVACY

41.1 Compliance with Law. The products and/or services being provided may necessitate the collection and exchange of Personal Information (i.e., information related to any identified or identifiable natural person or, in case of a conflict with applicable law, which is subject to any applicable data privacy laws). The parties will comply with applicable data privacy laws governing Personal Information processed in connection with the Agreement. The parties take all reasonable commercial and legal steps to protect Personal Information.

41.2 Rights and Obligations.

- a. If Buyer provides Seller with Personal Information, Buyer will ensure that it has the legal right to do so. Buyer will notify the individuals whose Personal Information it has provided to Seller prior to providing it to Seller. Seller may share Personal Information with Seller's service providers in accordance with applicable data privacy laws and with appropriate protections.
- b. Seller may store Personal Information on servers located and accessible globally by COLLINS entities and their service providers with appropriate protections in place.
- c. If Seller processes Personal Information under the Agreement, Seller will retain the Personal Information for the term of the Agreement and thereafter as required under the Agreement, to protect Seller's legal rights, or as required or permitted by law or audit requirements.
- d. If the Personal Information is involved in a Data Breach Incident (i.e., a set of circumstances that involve unauthorized access to or possession of, or the loss or destruction of, Personal Information), the party on whose system the data was stored is responsible for any notifications and associated costs. Unless prohibited by law or a regulator with jurisdiction over a party, the notifying party shall make reasonable efforts to coordinate with the other party to allow input into the notification before it is made.
- e. While performing under the Agreement, if a party learns of any: (i) complaint or allegation indicating a violation of the applicable data privacy laws regarding Personal Information; (ii) request from one or more individuals seeking to access, correct, or delete Personal Information; or (iii) inquiry or complaint from one or more individuals in relation to the processing of Personal Information, the party will exercise reasonable efforts to promptly notify the other party in writing, except to the extent prohibited by law, law enforcement, or a regulator with jurisdiction over such party. The parties shall provide reasonable commercial assistance to each other in investigating the matter, identifying the relevant information, preparing a response, implementing a remedy, and/or cooperating in the conduct of and defending against any claim, court, or regulatory proceedings.
- f. If the products and/or services involve the transfer of Personal Information from any country in the European Economic Area, the United Kingdom (if no longer a part of the European Economic Area) or Switzerland (collectively, "EEA/UK/CH") to outside the EEA/UK/CH, then the Buyer and Seller agree that the Standard Contractual Clauses adopted by the European Commission in Decision 2021/914/EU (hereinafter the "SCCs") are incorporated by reference as if set forth herein. In addition, transfers from the UK to locations outside the UK that do not have an adequacy decision shall also be governed by the Mandatory Clauses of the Approved Addendum, being the template Addendum B.1.0 issued by the Information Commissioner's Office and laid before Parliament in accordance with s119A of the Data Protection Act 2018 on 2 February 2022, as it is revised under Section 18 of those Mandatory Clauses, which are incorporated by reference as if set forth herein (hereinafter "UK Mandatory Clauses"). To the extent the foregoing data transfers are applicable, the Buyer and Seller will reasonably cooperate with each other in executing data transfer agreements if as legally required.

42. OBSOLESCENCE / DIMINISHING MANUFACTURING SOURCES

42.1 For purposes of this clause, the following definitions apply:

- a. "Diminishing Manufacturing Sources (DMS) Components" are defined as components required for the manufacture, repair, or support of the equipment being provided under the Order, which cease to be stocked, manufactured, or otherwise supplied as regular product lines by qualified suppliers, or otherwise become unavailable to Seller without substantial price increases or unacceptable delivery schedules.

- b. "Substantial Price Increases" are defined as the most recent price quotations for components from qualified suppliers that exceed by five percent (5%) the Seller's verifiable records of price quotations or invoices for purchases for such components which were the basis of the proposed, negotiated, and agreed upon pricing for the equipment herein, plus escalation in accordance with either (Global Insight for forecasting requirements or Bureau of Labor Statistics (www.bls.gov) for actuals) to the date of receipt of the most recent quotation.
- c. "Unacceptable Delivery Schedules" are defined as the most recent delivery schedules quoted by qualified suppliers that exceed Sellers' verifiable records of quoted delivery schedules for the equipment herein, and which will, or are reasonably likely to, cause Seller to be delinquent in its delivery schedule obligations under the Order.

42.2 If, during the Order, Seller determines that any component of the equipment being provided hereunder has become a DMS component, then Seller shall notify Buyer. Upon Buyer's receipt of such notice, the parties shall negotiate promptly and in good faith any modification to the Order necessitated by the DMS component(s), including but not limited to an equitable adjustment to the price, delivery schedule, or both, or the authority for Seller to substitute components meeting the form, fit, and function requirements of this Order.

42.3 In no event shall Seller be responsible for any loss or damage, or otherwise, due to any delay or failure in performance if such delay or failure results because any component of the equipment being provided hereunder becomes a DMS component.

43. ANTI-BRIBERY/CORRUPTION

Anti-bribery/corruption: Each party is committed to conducting its business fairly, impartially, and ethically. Accordingly, each party represents and warrants that (a) it has adopted its own Code of Ethics that prohibits bribery and corruption, (b) its employees are required to conduct their affairs in accordance with the Code of Ethics and (c) it has instituted adequate procedures designed to prevent any person working for it, or engaged on its behalf, from committing offences of corruption, and to conduct business consistent with the principles set forth in its Code of Ethics.

Each Party understands and agrees to comply with the provisions of the Foreign Corrupt Practices Act (FCPA), the United Kingdom Bribery Act (UKBA) and any similar laws or regulations of any applicable jurisdiction in which performance of the Agreement occurs (collectively "Anti-Corruption Laws"). Neither party has nor will, directly or indirectly, pay, offer, give, or promise to any person or organization anything of value for the purpose of securing an improper advantage or

improperly influencing any act or decision by such person or organization in order to obtain or retain business with regard to its activities under the Agreement. Each Party understands and agrees that the Agreement is subject to an automatic and immediate termination if provisions of Article 43 – Anti-Bribery/Corruption are violated.

44. SURVIVABILITY

It is hereby agreed that the provisions of **Clause 7.0 Intellectual Property; Clause 8.0 Disputes; Clause 9.0 Governing Law; Clause 11.0 Compliance with Global Trade Statutes & Regulations; Clause 20.0 Confidential Information; Clause 24.0 Payment Terms; Clause 25.0 Taxes; Clause 27.0 Warranty; and Clause 28.0 Limitation of Liability and Disclaimer of Other Warranties** shall survive the expiration or any termination of the Agreement, and that any termination of the Agreement shall not relieve either Party from its obligations which had arisen prior to the termination.

Overview of Collins Aerospace services

Collins Aerospace service capabilities include total life-cycle service solutions for Maintenance, Repair & Overhaul (MRO) of Collins Aerospace and other OEM products for commercial, business, corporate and military operations. Additional supply chain management logistics capabilities include provisioning, service parts sales, digital technical information services and asset management services. In addition, Collins Aerospace provides exchange, lease, and rental of equipment.

Collins Aerospace services include:

- Maintenance, Repair and Overhaul
- Field Service Engineering
- Integrated Logistics Support
- Rental Exchange

Service centers

Collins Aerospace Service Centers are strategically located throughout the world to provide maintenance on Collins Aerospace equipment both in and out of warranty. Overhaul and repair service can also be obtained at each location. As new products are introduced, service center capabilities are updated to support these products. Located within each Service Center is a dedicated Customer Service Representative, available to answer customer questions or problems.

Collins Aerospace Service Centers are all licensed or approved by the appropriate agency within the country they are located and for the countries they serve. Generally, all are Federal Aviation Administration (FAA) and/or Joint Aviation Authorities (JAA) licensed or approved. The Collins Aerospace Service Centers are AS9100 certified.

Customer service engineering

Collins Aerospace Customer Service Engineers (CSE) are highly trained technical experts who are routinely involved in every phase of program development. Participation begins in design, continues through test and integration, and matures into post-delivery support. This depth of involvement ensures an unsurpassed level of proficient customer support.

Our field service staff is supported by program management, engineering and manufacturing leadership. In combination with our Customer Response Center, we offer a highly skilled, motivated and supported work force. The Field Service Engineering organization is experienced in both hardware and software dealing with all Collins Aerospace products from display systems, integrated avionics systems, communication systems and navigation systems, as well as new product development and testing.

Integrated logistics support

Integrated Logistics Support (ILS) provides complete services and support throughout the life cycle of our products and systems. Working with you, our ILS team develops, plans, and integrates both short- and long-term support considerations into product design. In sustainment, we extend system and equipment useful life through proactive management of obsolescence focused on supply and repair chain health. This ensures you have a reliable support solution providing high survivability and sustained operational readiness with controlled ownership costs throughout the life cycle of your system and equipment.
